

**BURGER & Cie - PEOPLE AT HEART  
A RECOGNIZED KNOW-HOW**

A company's best assets are its people, this is how a company stands out, and what makes BURGER truly unique for the greatest customer- and –product experience.

**BURGER & CIE** is a French company exhibiting this year to showcase its greatest technical innovation that will revolutionize the decking industry.

**Grad** is an **award-winning and patented sub-decking fixing system** using aluminum rails and clips for intuitive and fast decking installation, maximum strength and stability, optimal layout precision, perfect board gaps all around, and long-lasting ultimate performance without using screws.

**Grad** contributes to providing the smoothest and sleekest designs and adapts to all soils to sublimate your outdoor and **deliver signature deckings**.

**GRAD - ULTIMATE PERFORMANCE, SLEEK DESIGN FOR DECKINGS.** Grad combines aluminum rails + clips and accessories made of the strongest raw materials to meet the toughest expectations. It is the most advanced and optimal subdeck system for signature deckings.

**GRAD - UNIQUE BENEFITS AND FEATURES.** With Grad, decking boards can be replaced and updated one board at a time at will without removing the subdeck system: a simple, but groundbreaking innovation to provide maximum versatility in utilization.
