**PRODUCT
SUMMARY**

DIVERSITY & QUALITY

HAND USE ROLLS

1520J

High flexibility cotton cloth rolls with heat treated Aluminum Oxide, best used for wood working, and construction finishing available in all required sizes

1420J

High flexibility cotton cloth rolls. Aluminum Oxide best used for wood working, and construction finishing available in all required sizes

1440J

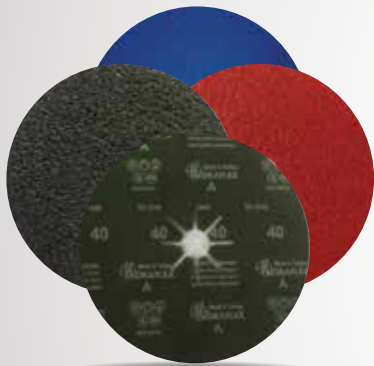

flexible and strength treated cloth Aluminum Oxide rolls best used for wood working, and construction finishing available in all required sizes

1220J

Flexible Aluminum Oxide rolls best used for wood working, and construction finishing available in all required sizes

ABRASIVE DISCS

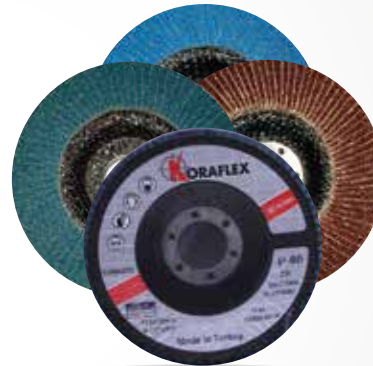

FIBER DISCS

Heavy duty 0.7-0.8 mm fiber discs available in Aluminum Oxide, Silicon Carbide and Zirconia, with sizes of 7 & "5", best used for wood, metal and stone industries

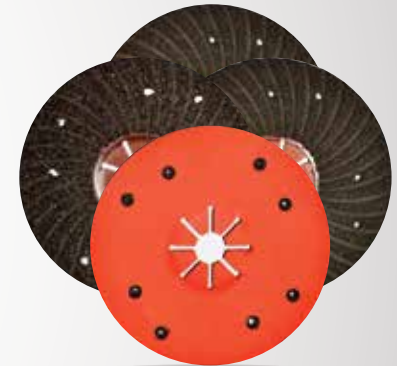

HOOK & LOOP DISCS

Velcro backed discs available in Aluminum Oxide, Silicon Carbide and Zirconia, with sizes of 7 & "5", best used for wood, automotive and stone industries

FLAP DISCS

High quality flap discs equipped with a range of possible grain types Aluminum Oxide, Silicon Carbide and Zirconia for specifically chosen flap disc cloths, available in a range of sizes

SEMI FLEX DISCS

Heavy duty fiber layered with resin bonded abrasive, used in a wide range of industries such as stone and metal

WATERPROOF PAPER

High Quality,
flexible waterproof paper coated
with Aluminum Oxide
and Silicon Oxide grains,
best used for construction
and automotive industries

ABRASIVE WHEELS

Cutting & Grinding Wheels

High quality cutting & grinding wheels, with German specifications available for all uses of Metal, Cast Iron, Stone & Marble and all sizes.

Cutting & Grinding Wheels

High quality cutting & grinding wheels, available for all uses of Metal, Cast Iron, Stone & Marble and all sizes

Metal Plus

Metal Plus cutting disc, with a long life time 30X, normal abrasives wheels, less dust residue, faster cutting speed an increased safety against breakage, with diverse metal & non metal applications

TCT Saw Blade

High quality wood cutting wheels, available for all uses of wood.

DIAMOND WHEELS

TURBO

T-SHAPE

SEGMENTED

REFLEX Diamond Wheels

long life and fast cutting speed

diamond wheels, available in all sizes of 4.5", 5.0", 7", 9"

best used for marble, granite & concrete industries

ABRASIVE BELTS

ALOX: Narrow, wide & segmented belts using Aluminum Oxide abrasives coated on flexible cotton and polyester, as well as paper backed belts fabric best used by wood & metal industries
