Company Introduction

Introduction

شركة أبناء إبراهيم الجاسم للتجارة المحدودة
Ebrahim Al-Jassim Sons' Trading Co. LTD

Al-Jassim group is a highly diversified and well established Saudi Arabian company which has been catering to the diverse, requirements of the Oil & Gas, petrochemical, HVAC and heavy engineering industries in the kingdom of Saudi Arabia as well as other GCC countries.

Al-Jassim's corporate office is located in Dammam with sales and distribution network spread all over the kingdom of Saudi Arabia and other G.C.C. countries. The Company has offices in Jeddah, Riyadh, Al- Khobar & Dubai U.A.E.

What we do

The commercial division is actively engaged in supplying Oil & Gas sector with oil field equipment and accessories, engineered goods, bulk chemical / refrigerants. Raw materials of various types are also supplied to different industrial sectors in the G.C.C. market.

Commercial division of Ebrahim Al-Jassim Sons Trading Co. Ltd. is an approved vendor for Aramco (Saudi Arabian Oil Co.), SEC-ERB (Saudi Electricity Company - ERB), SAT (Saudi Arabian Texaco), Joint Operation Kuwait, SABIC (Saudi Basic Industries Corp.) Saudi Railways & other Government and Semi Government departments and ministries as well as KUWAIT OIL, ADNOC and other major end-users.

Major Activities

- Oil & GasSector
- Power Generation Sector
- Petrochemical Industries Sector
- Refrigeration and Air-Conditioning Sector

TPS Technitube Rohrenwerke

TPS-Technitube has been founded 1975. The production mills of TPS-Technitube Röhrenwerke, located on a total industrial area of more than 600000 sq. ft. in Daun, in the center of Europe, have an excellent worldwide reputation as a reliable and competitive manufacturer of high quality piping and tubular goods.

Apart from the production facilities TPS is running stocks for immediate deliveries. The plant facilities as well as the stock facilities allow TPS to serve customers worldwide with standard mill delivery times as well as tubes from stock. TPS supplies mainly to the Oil- & Gas Industry, Refineries, Fertilizer Plants, Chemical Plants, Power Stations, Steel Mills, Heat Exchanger- and Boiler Manufacturers, Sugar Factories, Machinery Plants and to the Automotive Industry.

When EBAJ acquired the agency from TPS in 1996, it was not registered with any Local Organization in Saudi Arabia. Now TPS is an approved manufacturer to all the major organizations like Aramco, Sabic, SEC and others.

In Saudi Arabia the major Customer for TPS is Saudi Aramco and to start with Aramco was placing orders for smaller quantities and after testing the qualities and timely deliveries Aramco has developed a good trust of TPS products and now TPS is one of the major supplier for the needs of tubular goods to Aramco for sizes up to 5". Recently, TPS has been approved by Aramco for Metallic

Tubes after a successful inspection of TPS facilities in Germany and now we have an agreement with Aramco for the supply of the same.

Other than Aramco we are serving other SABIC and other contracting companies in the Oil and gas sector for their needs of Heat Exchanger and Boiler tubes.

Schenck RoTec

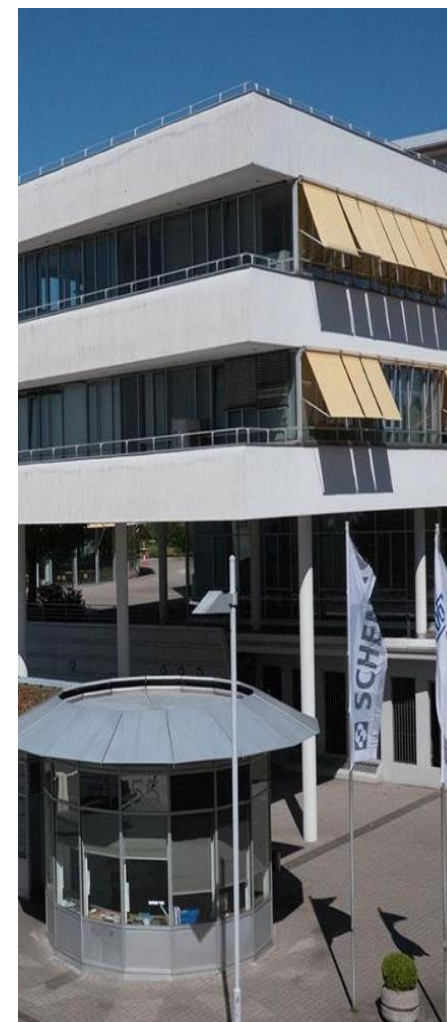

For 100 years, balancing technology has been closely related to the name Carl Schenck: In **1908** the Darmstadt-based company built its first balancing machine. Schenck is a subsidiary of DÜRR AG, a globally operating, top-ranking supplier based in Bietigheim-Bissingen, Germany. The corporate division was established in 1995. and combines all activities in the area of balancing and diagnostics.

Schenck's balancing and diagnostic systems ensure that your plane lands safely, that your razor runs quietly and smoothly, and that you can enjoy the comfort of your car for a long time. Jet engines, razors or engines running smoothly and without vibration will not produce excessive noise, which may be transmitted to other components, or cause malfunction. Schenck RoTec provides the technology to ensure this.

EBAJ is an Authorized and Sole agent for Schenck Rotec and are catering to variety of Customer like Saudi Aramco, SABIC, SWCC, Saudi Arabian Airlines, All the major Refineries, All major Turbines and Motor repair facilities and All Petrochemical industry workshops.

Schenck RoTec being the word in the Balancing Technology, our business with Schenck machines have increased multifold in the recent years with good orders from Saudi Aramco, SAMREF, YANSAB, Petro Rabigh, Saudi Arabian Air Lines and others.

We provide customized balancing and diagnostic systems which meet all requirements. Whatever you need to balance - we have the right solution for any rotor - large or small. In addition to equipment supplying we have to local support of the servicing team and small balancing/ mechanical workshop.

Marathon Motors

The Marathon® brand encompasses thousands of products and solutions, including single phase and three phase AC motors, NEMA and IEC motors, low and medium voltage motors, PMDC motors, and radial and axial flux motors.

Marathon offers electric motors and integrated motor/control solutions with IE4 and higher efficiencies for the toughest industries in the world. We design, engineer, and build motors from 1/4 to over 5000 horsepower with voltages from 120VAC to 13.8kV. Our NEMA and IEC motors are used globally in both commercial and industrial applications.

Every Marathon motor is backed by more than 100 years of manufacturing experience, plus state-of-the-art engineering and production, along with comprehensive service, starting in the earliest planning stages of your motor. From variable speed motors used in commercial settings, to motors used for pumping, to high-speed extruders and “Mission Critical” motors used on ice breakers in the Arctic, a Marathon motor is the right choice. The Marathon brand encompasses multiple of products and solutions: Single and three phase AC motors, NEMA and IEC motors, low and medium voltage motors, PMDC motors, radial and axial flux motors. Apart from this these are the following areas of expertise of Marathon motors :

Agriculture/Farm Motors, Aggregate Duty Motors, Air Moving Motors, Automotive Duty Motors, Chemical/Mining/Process , Duty Motors, Commercial HVAC Motors, Fractional Motors, General Purpose Motors, Hazardous Duty Motors, IEC Motors, Inverter/Vector Duty Motors, Medium Voltage Motors ,PMAC Axial Flux Motors, PMAC Radial Flux Motors, PMDC Motors, Pool & Spa Motors, , Pump Motors, Wash Down Duty Motor.

EBAJ is an Authorized and Sole agent representing Marathon Motors in the Kingdom of Saudi Arabia.

Mexichem KLEA

Mexichem KLEA is one of the only manufacturer of refrigerant gases in the united States. Mexichem KLEA has been working for more than 15 years to develop lower GWP products, including the R-32 refrigerant. Mexichem KLEA success in the air conditioning industry is built on a long history of product quality, reliability and the very best levels of customer and technical support. Klea® products are approved by major equipment manufacturers and used with confidence by aftermarket professionals across the globe.

EBAJ is one of the their Biggest Distributor of Refrigerant gas in Saudi Arabia

Embraco NIDEC

Since 1971, Embraco has been a global reference in technology for the complete domestic and commercial cold chain, counting on a broad, efficient and competitive portfolio for household, food service, food retail, merchandisers and special applications.

A pioneer in fostering the early development of variable speed and the use of natural refrigerants in cooling solutions, Embraco continues to deliver innovation that exceeds the market's most challenging demands, anticipating future trends with a deep focus on its customers' expectations.

EBAJ is an Authorized and Sole agent representing Embraco – NIDEC in Saudi Arabia.

Parker - Sporlan

For over 80 years the Parker Sporlan Division has set the industry standard for the development and manufacture of leading edge high quality HVACR components.

EBAJ Group has been supplying Parker – Sporlan items to Saudi Aramco and to the general Saudi Arabian market since a long time and the quality product provided has made it mark in the HVAC industry making it one of the most trusted and respected item.

Robertshaw

Robertshaw is a global design, engineering and manufacturing company that sells product solutions into the white goods industry and leverages this portfolio and technology into adjacent markets and after sales channels.

Robertshaw manufactures more than 10,000 sophisticated controls for commercial and home appliances. Primary applications include controls for refrigerators, electric and gas cooking, ice makers, fluid dispensing, storage water heaters, gas valves for space/central heating, and automotive/off road temperature and fluid controls.

EBAJ has been affiliated and selling the product in the Saudi Market

REFCO Tools

As a traditional Swiss company, REFCO have been committed to the highest quality for almost 50 years, developing and manufacturing durable tools and accessories. Starting with analogue manifolds, they have developed over the past years into an innovative full-range supplier for the professional refrigeration and air conditioning technician. At EBAJ we sell Hoses, pressure gauges, vacuum pumps, suction devices, condensate pumps as well as tools and parts needed for installation.

Emkarate OIL

Emkarate® Oil is the world's leading supplier of synthetic lubricants to the refrigeration and air conditioning industry. The Emkarate® RL polyol ester (POE) lubricants are designed to meet the needs of a wide range of compressor types in systems using HFC refrigerants. This product series has OEM approvals across multiple industry segments:

The diverse range of viscosity, coupled with reliability and performance have made it the choice for HFC refrigerant compressor systems. EBAJ has been the only distributor for Emkarate® Oil in Saudi Arabia.

Hartland Controls

Hartland Controls specializes in the design and manufacture of mission critical electrical contactors, class II transformers, capacitors, relays, auxiliary switches and configured assemblies. EBAJ brings the cost-effective electrical controls to the market that are used in HVAC, refrigeration, overhead door, irrigation, welding, water heating, pool and spa, vehicle charging and other aftermarket applications that require reliable starting and safe stopping. EBAJ has been successfully selling it in the KSA market successfully.
