INTRODUCTION LETTER

Our Company, Dicle Group was established in 1992. Currently operating in Mersin, our company continues its production and packaging activities covering pulses sieving, cleaning and sorting with highest technologic machinery and equipment and expert teams in our modern facility build on a total area of 20,000 square meters. We have a daily capacity of 400 tons of lentils and peas processing, 250 tons of sieving and cleaning of pulses and 1000 tons of packaging per day.

Our company, which exports to many countries and is among the few exporting companies in Mersin, is one of the largest suppliers of the Iraqi Ministry of Trade and the Jordanian Ministry of Defense, but is also among the suppliers of many food items such as food baskets, pulses, wheat flour, tomato paste, sunflower oil to many international humanitarian organizations such as the United Nations World Food Organization (UN-WFP) , International Red Cross Organization (ICRC) and others.

Our company, which has experience and competence in foreign trade, exports to African, Asian and European countries, especially to Middle East countries, continues to contribute to the economy of our country. It has achieved the success of being in the first steps among the best exporters in Türkiye and Mersin province and rises to the top among the top 500 and 1000 exporting companies every year. Our company has received awards by achieving the success of being among the tax record holders among the companies registered in Şırnak (province) every year for long time.

Our company, which has a good space in international markets and produces high quality products with the aim of high customer satisfaction, is one of the most important point of quality policy; our company has certificates in international standards such as ISO and BRC and also our company, which produces in national standards and terms such as TSE ((Turkish Standards Institution) Standards) and Turkish Food Codex. Our company has an ISO 9001, ISO 22000, ISO 45000, BRC and HALAL certificates.

In addition to the food sector, our companies in our group have also made investments in the energy and education sectors and we produce energy by establishing a Solar Power Plant that contributes to green energy. However, Our Company also operates in the education sector by setting Mersin and Gaziantep campuses, which provide education under the brand Uğur Okulları, an important element of education sector.
