

O.P. Ager Campanus: Revolutionizing Agriculture with Innovation and Sustainability

O.P. Ager Campanus is a company founded in 2017 by a group of 40 Italian producers who have specialized for generations in the cultivation, processing and marketing of fruit and vegetables in the Italian and international markets.

Through the use of advanced technologies, O.P. Ager Campanus is at the forefront of ensuring superior safety and environmental quality standards throughout the fruit and vegetable supply chain, from production to product packaging and marketing.

Currently, O.P. Ager Campanus has over 600 hectares of land, 3 locations and over 40 active producers.

Among the agri-food products grown with care and dedication by O.P. Ager Campanus are Fruits, Vegetables and Organic Products.

From May 21-23, O.P. Ager Campanus will be present at The Saudi Food Show to present innovative and sustainable methods for traceability and transparency in fruit and vegetable production.
