

**Aakash Industries**  
RICHNESS IN EVERY GRAIN

# Nature's Finest, Grain By Grain

Experience the finest grains, handpicked for purity and taste.

# About Us

**Aakash Industries is one of the leading manufacturers and suppliers of non-basmati rice, committed to establishing a strong relationship with you.**

Founded in 1994 Aakash Industries carries forward a rich legacy in rice milling. With expertise spanning three generations, the company has built a reputation for excellence in rice production. Its growth has been both rapid and steady driven by the successful establishment of popular brands in the domestic market. To ensure the finest quality, the firm continuously upgrades its technology, integrating advanced automated processing systems for superior rice manufacturing.

## Establishment

With a vision to revolutionise the agri-commodity industry. Catered to the domestic market and supported localisation.

1994

## New Mindset

The second generation set their foot in the business with an aim to progress by constantly equipping the company with the latest technologies and progressive thinking.

2008

## Expansion

2019

## Became A Three Star Export House

Recognised by Government of India.

2023

# Our Infra- structure

Our three modern plants located in Central India produce to domestic and international markets. Investing in the latest technologies ensures our buyers' needs all year round and a reliable supply chain. Upgrading the technology over the years has resulted in faster deliveries. With state-of-the-art facilities, we have been steadily enhancing our rice production process. Aakash Industries boasts a world-class infrastructure, enabling efficient manufacturing operations 24/7 while maintaining the highest standards of quality control. Our three advanced manufacturing plants, strategically located in Central India, cater to both domestic and international markets. By investing in cutting-edge technologies, we ensure seamless fulfillment of buyer demands throughout the year, thereby strengthening a robust and reliable supply chain. Continuous technological advancements over the years have led to faster deliveries and significant business expansion. We remain committed to ongoing infrastructural development, further accelerating and optimizing our export and supply processes.

# Products

## IR 64 Parboiled Rice

IR 64 Parboiled Rice is a widely renowned Indian rice variety. The rice is known for its long grain and good cooking practice. This rice is a major source of carbohydrates, high in protein, and is known for its great taste and rich aroma.

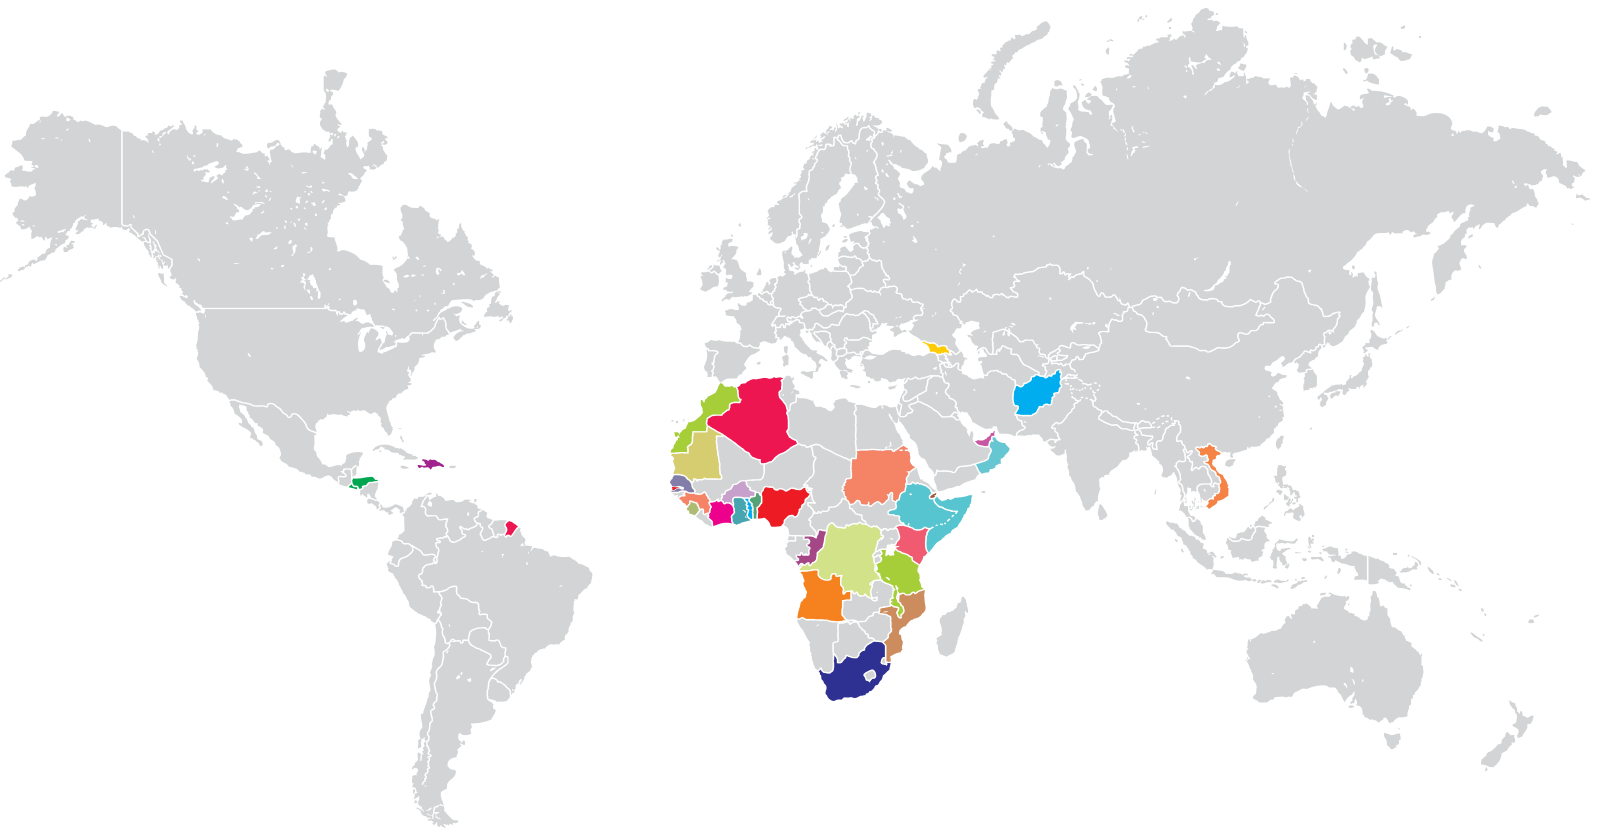

## IR 64 White Rice

White rice is milled rice that has had its husk, bran, and germ removed. This alters the flavor, texture and appearance of the rice and helps prevent spoilage, extend its storage life, and makes it easier to digest. After milling (hulling), the rice is polished, resulting in a seed with a bright, white, shiny appearance.

# 3 Modern Plants

Equipped with the latest tech help us in providing the best quality endlessly.
