COMPETENT AND
RELIABLE SUPPLY CHAIN
SOLUTIONS

MESSAGE FROM CHAIRMAN

Sedres Group has stood tall for decades amidst thriving competition, providing innovative and customizable solutions tailored to our clients' requirements. We offer turnkey solutions for major projects and partner in their successful execution.

We are proud to be one of the first organizations to enter the field of marine offshore supply bases and are honored to contribute to our nation's development, particularly in the Eastern Province of Saudi Arabia.

Our driving force is our customers' satisfaction and their continued support for Sedres. Whether through joint ventures or our own expertise, we have always strived to maintain exceptional service.

One constant at Sedres, even after three decades, is our unwavering commitment to serving our clients with passion and integrity. With our empowered team, I am confident that Sedres will continue to create value for our esteemed clients and write many more success stories in the coming years.

We are expanding our operations into new fields and geographies, both by partnering with new businesses and by refining our service models. Our goal is to remain the leading end-to-end supply chain solutions provider in Saudi Arabia and beyond.

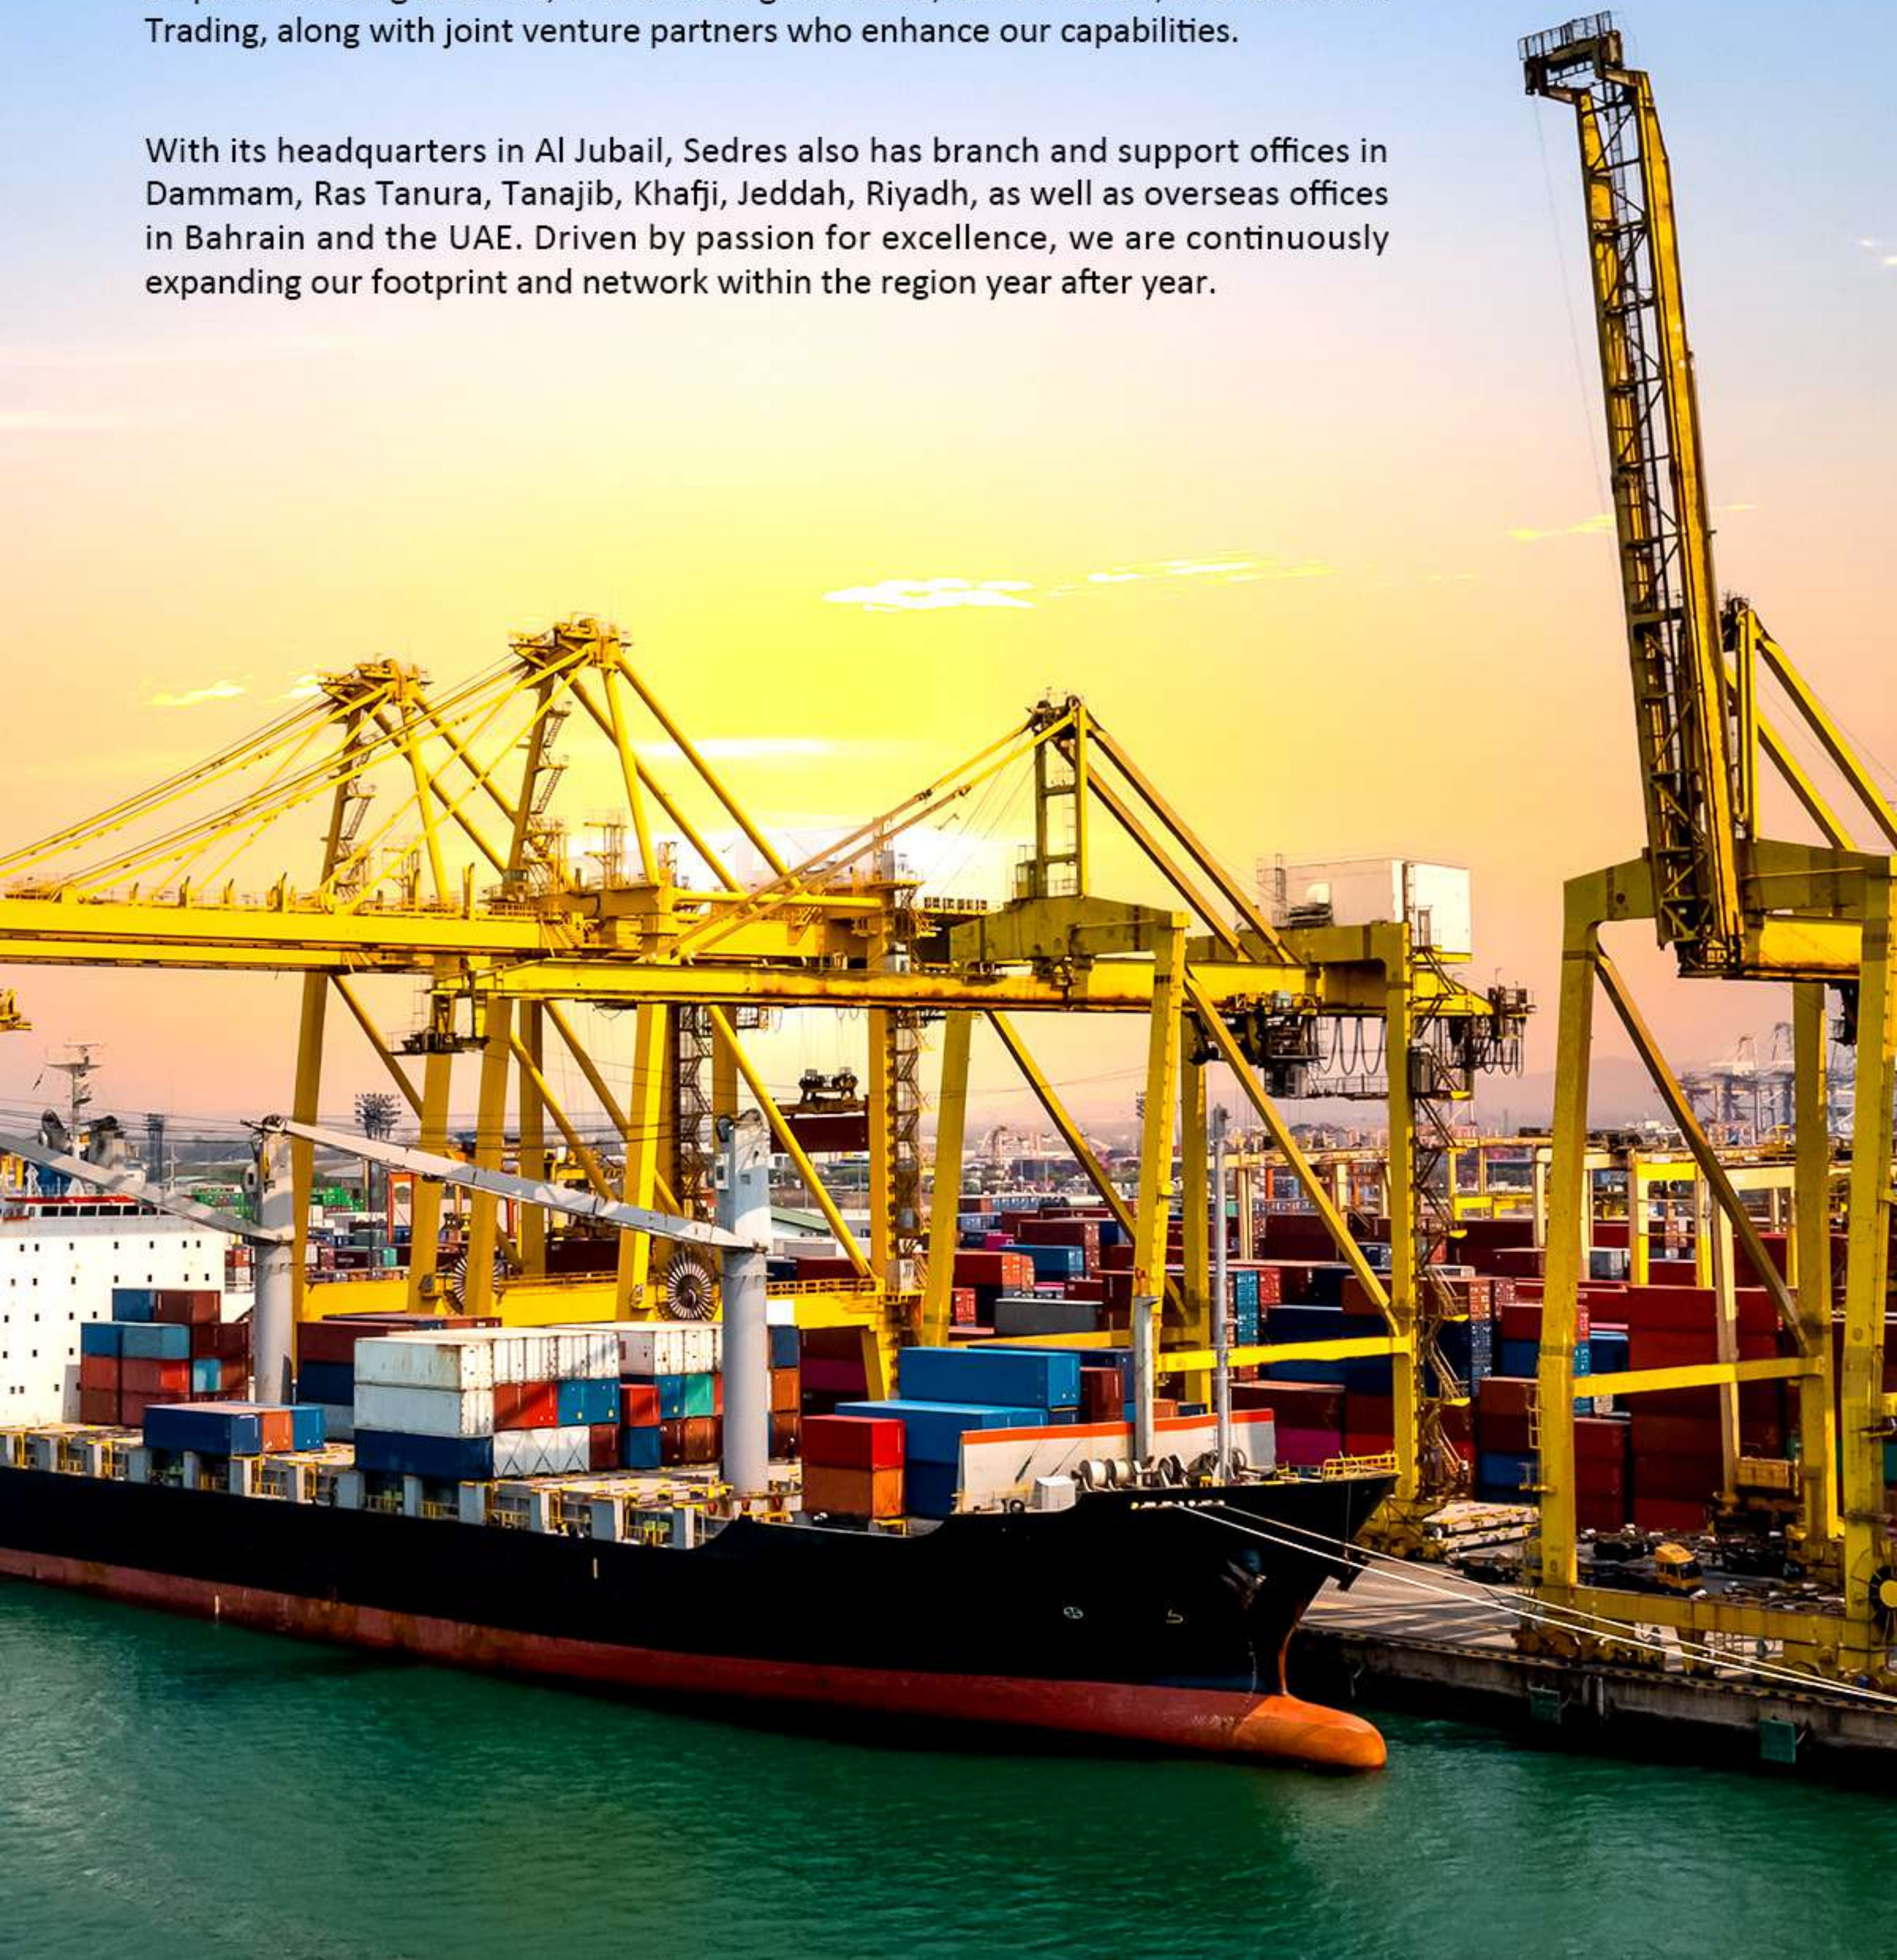

Z. F. AL DAIHANI
Chairman, Sedres

COMPANY OVERVIEW

Sedres Maritime, established in 1993, has grown from a company providing limited services to a conglomerate offering various services, including comprehensive Marine Services, Total Logistics Solutions, and supply chain solutions to its esteemed clientele, which includes major EPCs and LTA contractors of Saudi Aramco. Our services range from Ship Agency Services, Crew Management (Crew Changes), Global Freight Forwarding, Customs Clearance, Ship Chandelling Services, Warehousing Solutions, Construction, and Chemical Trading, along with joint venture partners who enhance our capabilities.

With its headquarters in Al Jubail, Sedres also has branch and support offices in Dammam, Ras Tanura, Tanajib, Khafji, Jeddah, Riyadh, as well as overseas offices in Bahrain and the UAE. Driven by passion for excellence, we are continuously expanding our footprint and network within the region year after year.

SEDRES SHIPPING AGENCY

With presence at all major ports in KSA and backed by a quarter century of professional experience, Sedres Maritime provides local expertise and insight required to achieve smooth clearances, hassle-free cargo operations and quick dispatch of vessels under our agency.

Our services suit all different stakeholders connected with maritime industry, ranging from Charterers, Owners and Brokers, as well as different kinds of vessels, such as Tankers, Bulk Vessels, Break-Bulk Vessels and Liner Vessels.

KEY SERVICES

- Full agency services
- Protective agency services
- Husbandry services
- Bunker call services
- Ship chandling, including hold cleaning/lime coating

OUR STRENGTHS

- Offices at all major Saudi ports
- Quick vessel turnaround
- Efficient husbandry & cargo operations
- World class IT infrastructure for effective communication
- Real time updates and reporting
- 24/7 seamless support
- Compliance with quality, HSSE, international and local Government regulations/standards

OFFSHORE MARINE LOGISTICS

Years of engagement with all the aspects of offshore O&G industry helps us to deliver bespoke services under one umbrella to our clients. Services relating to marine crafts/cargo clearances, crew movements and transportation are all provided through highly dependable and reliable in-house resources & facilities that include own warehouse, launch, fleet of vehicles, trained drivers, customs clearance capabilities and freight forwarding services.

KEY SERVICES

- Marine services
- Freight forwarding
- Logistics & transportation (own fleet)
- Warehousing
- Port operation activities
- Crew movements
- Customs clearance
- Ship chandling
- Equipment rental

OUR STRENGTHS

- Vast experience in on/offshore project management
- Project vessel handling at various ports in KSA
- Ability to assist with crew visa issuance at various locations in the Middle East
- Seamless mobilization process for marine crafts from UAE and receiving at KSA
- Inland transportation of all sizes of ODC and heavy equipment
- 24/7 active operation

SEDRES WAREHOUSING & TRANSPORTATION

Sedres provides full logistics and transportation services for a wide range of ODC, break-bulk & project cargoes related to offshore & onshore works across Saudi Arabia. Our team of specialists bring client-oriented solutions to help ship your consignment within GCC region.

KEY SERVICES

- Less than truck load and full truck load on all kinds of trucks as low bed, flat bed, hydraulic, tankers, etc.
- Pickup and delivery for ocean containers or loading and offloading of containers at any point of origin to any destination at competitive prices.
- Warehousing facility for short term and long term with the option of consolidation.
- Supply of cranes & heavy lift equipment

OUR STRENGTHS

- Safe & efficient door to door freight solutions
- Own fleet of transport equipment
- Licensed customs brokerage

SEDRES CUSTOMS CLEARANCE

With over a quarter century of expertise, combined with commitment to provide superior services, our teams are always available to ensure clients' clearance requirements are completed in timely, smooth and cost-effective manner.

KEY SERVICES

- Consultation
- Fast-track cargo clearance
- Import & export documentation in compliance with statutory requirements

OUR STRENGTHS

- Expertise in clearing large quantities of cargo within hours of arrival
- Excellent exposure to current Customs rules & regulations, resulting in smooth and rapid clearance process
- Error-free documentation and timely submission records

SEDRES SHIP CHANDLING

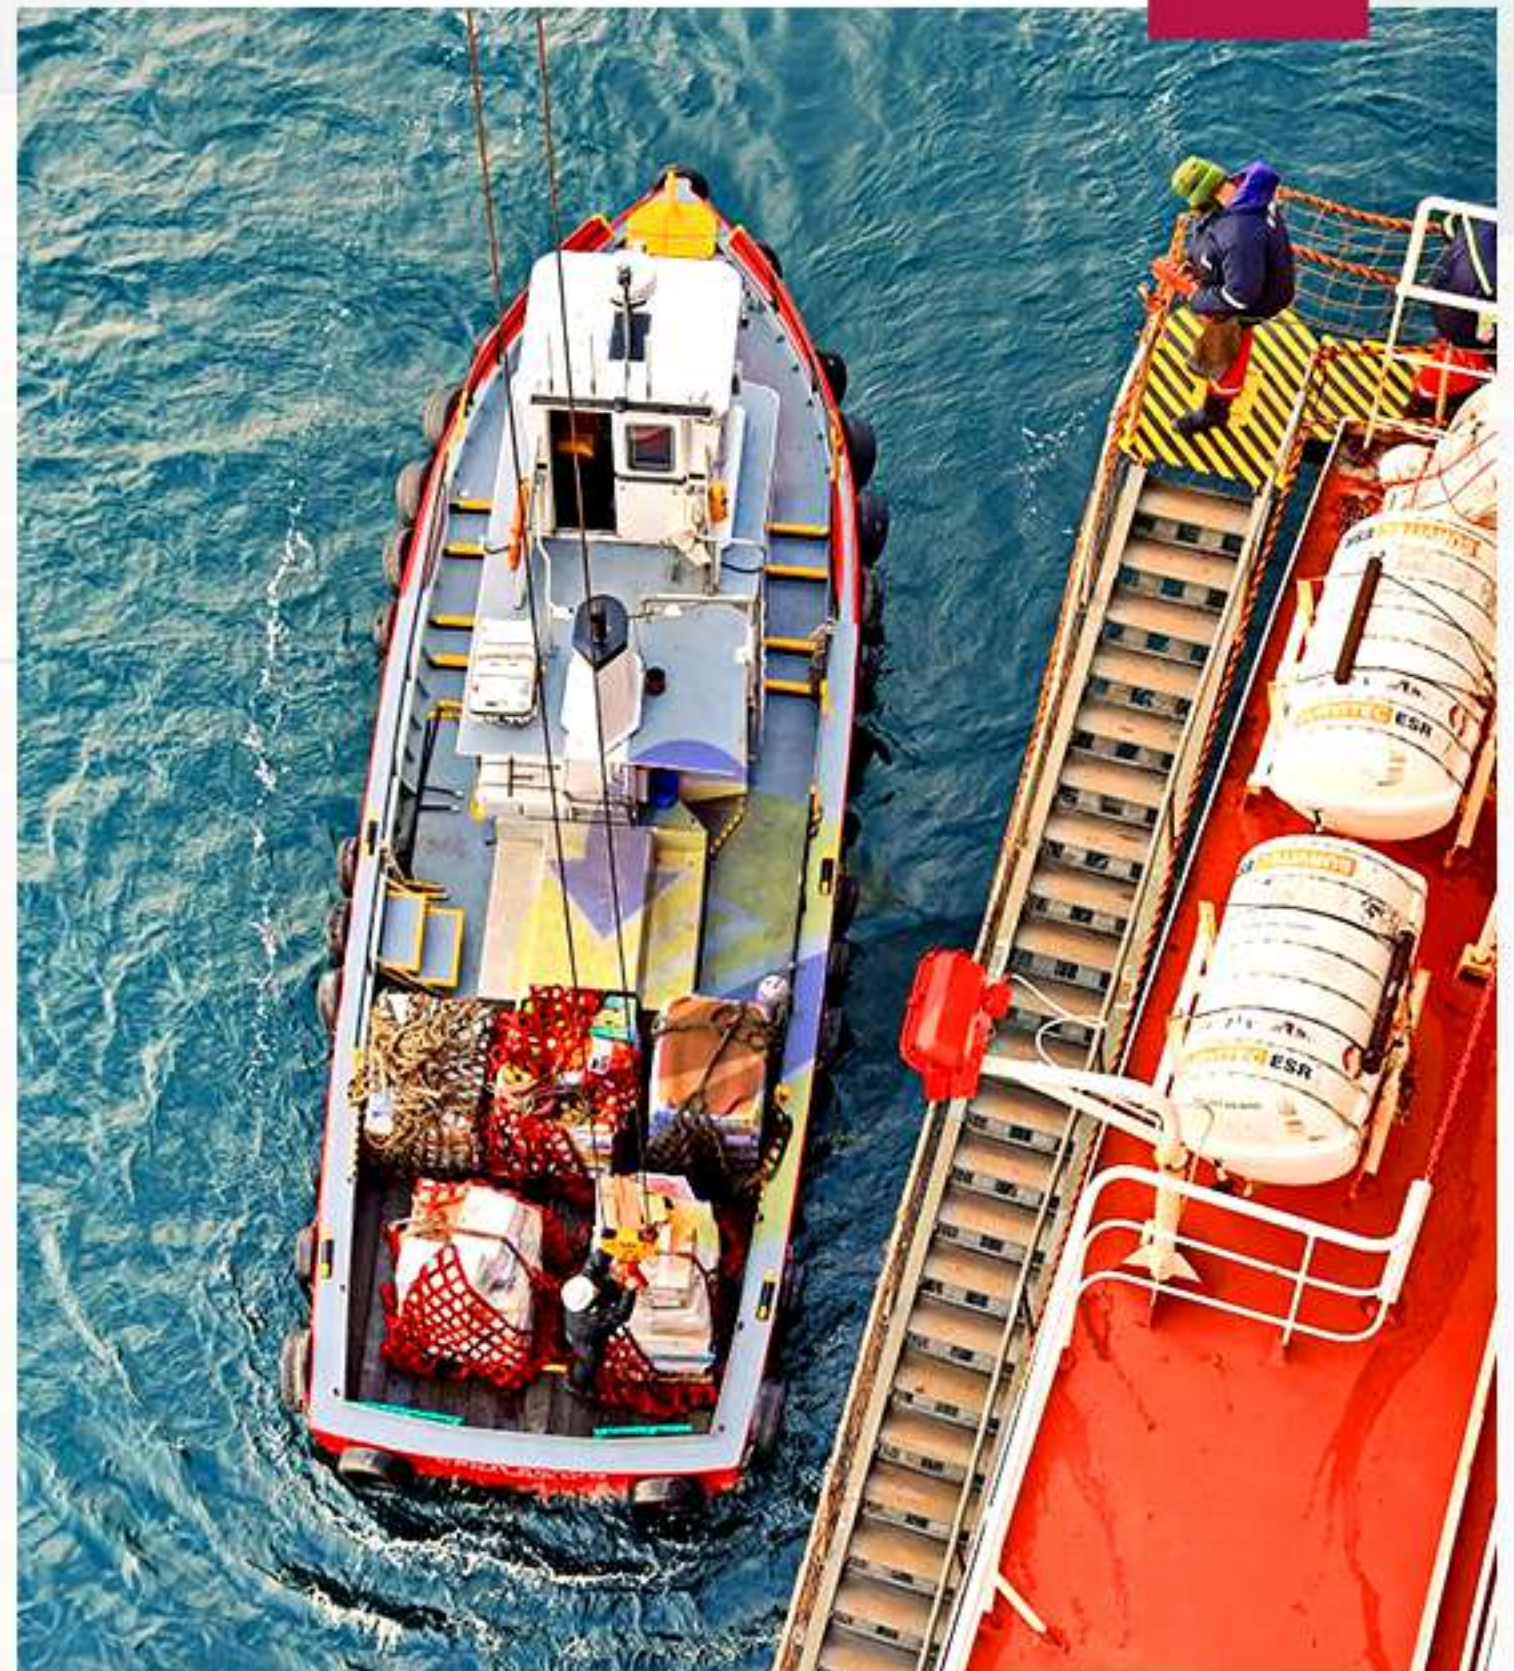

Sedres is a reliable partner for offshore and onshore ship supplies & services requirements. Sedres has revolutionized ship chandling business in Saudi Arabia with professional services and guarantee of high quality. We have offices at all major ports in Saudi Arabia to achieve supply of food provisions, ship supplies and technical services, even on urgent basis. With Sedres as your ship chandler you can be assured of quality, safety and response time.

KEY SERVICES

- Fresh/Frozen/Dry provisions
- Engine, deck, cabin & bonded stores
- Pyrotechnics and life saving equipment
- BA charts & nautical publications
- Life raft service and inspection
- Refilling & inspection of fire extinguishers
- Refilling of oxygen, acetylene, nitrogen & freon gas cylinders
- Sludge removal
- Holds/Deck/Hatch cleaning and cargo lashing
- Freshwater

OUR STRENGTHS

- Trusted ship chandler to many ship liners, owners, charterers and operators
- Competitive prices without compromising the quality of services
- Express service to minimize delay
- Compliance with QHSSE standards
- ISO 22000:2005 Food Safety Management System certified
- 20,000 sq ft warehouse facility fully equipped with latest technologies as wireless scanning devices
- Full fleet with GPS & temperature monitoring devices
- Member of International associations, as IMPA and ISSA

SEDRES CHEMICALS

Sedres is one of the largest importers and suppliers of industrial and laboratory chemicals with full logistics support in Saudi Arabia. We are licensed for manufacturing, trading and distribution of a wide range of oil field chemicals, industrial chemicals, laboratories chemicals and antiscalants.

KEY SERVICES

- Manufacturing, importing and distributing of a wide range of chemicals.
- Catering to oil fields, petrochemicals, paints, printing inks, fiber glasses, pipes, packing, perfumes, cosmetics & detergent industries.
- Providing logistics support for chemicals supply chain of leading manufacturers.

OUR STRENGTHS

- In-house capabilities for distribution within KSA
- Adhering to ISO standards and supplying highest quality chemicals

SEDRES FREIGHT FORWARDING & LOGISTICS

Sedres provides superior air and sea freight forwarding solutions integrated with surface transportation for a wide range of commercial cargo. We specialize in project cargo, exhibition cargo, diplomatic cargo, chemical & OOG cargo, ODC cargo and break-bulk. Our extensive network of standard and alternative carriers enables us to optimize cost, transit time and security. Our team of experienced professionals assures you peace of mind with time-bound door to door delivery. Sedres is a member of Security Cargo Network; a worldwide freight forwarding community which has 198 members in 94 countries worldwide, which further helps us with facilitating requirement of our global clientele.

KEY SERVICES

- FCL, LCL and buyer's consolidation
- Documentation & customs clearance
- EXW, FOB, CIF, C&F, DP, DAP, DDP & Door to Door basis delivery
- Temporary Import shipment handling

OUR STRENGTHS

- Global network with offices in key locations
- Express and standard shipping
- Streamlined data handling
- Cost-effective, time-bound & secured delivery

SEDRES ENGINEERING, CONSTRUCTION AND CONSULTING

(Procurement, Contracting and Core Team Maintenance)

Over years, Sedres has been delivering numerous residential, commercial and industrial projects consisting of Procurement, Construction, Maintenance & Operations scopes, for many reputable clients in KSA (RC, ARAMCO, SABIC, S-CHEM, SADARA). Client's satisfaction with our "first-class & on-time deliveries at highly competitive prices", is testimony to our commitment for achieving exceptional results. Our expert management led teams of qualified engineers, experienced supervisors and workforce guarantee completion of diverse projects in timely manner, within budgets and with upmost quality finishes.

KEY SERVICES

- Procurement, Construction, Maintenance (PCM), and Turn-Key Projects
- (PCM) for Civil, Structural, MEP, AC & HVAC Systems, AHU & FANS, Infrastructures & Buried Utilities, Roads, Facades, Landscaping, Earthworks, & all Services Works
- Planning, Logistics, Controls, Surveys, Construction, Repairs, Rehabilitations, Operations & Maintenance for Conventional, Precast, Pre-Engineered Buildings (PEB), Plants, and Facilities
- Electrical power distribution & controls, IT network cabling & conducting. Plumbing, Piping, Mechanical & HVAC, Piping Systems & joints. Sheet Piling, Welding, Special processes, repairs for structural pipe-racks and equipment supporting structures
- Finishes & building improvement related works, MEP, F.F, Telecom., Fire-proofing, protective coatings, insulation, excavations, trenches, dewatering, and duct banks
- Planned & unplanned maintenance, shutdown & turnaround. Work permits, encroachment permits, liaison with authorities. Behavioral safety programs with capabilities to perform (RCA), demonstrating continuous improvement program, via Improving (RIR)
- Partaking (handling, preparation, jointing & applications) of special products as HDPE, FRP, RTRP, GRP & GRE, and CFRP (piping & delaminated concrete repairs activities).
- Procedures for tender management, PO, quotation analyses, shop drawings, construction schedules, field performance reports, inspection & testing plans (ITP), QA/QC plans, welding procedure & specification (WPS), project quality records (PQR's), punch lists, milestones completions and other administrative / engineering aspects, to the client's satisfactions. Assurance through independent 3rd party interpretation for all testing activities.

OUR STRENGTHS

- Unlimited resources (Manpower, Equipment, Heavy Machineries & Tools)
- Many branches of parent company (SEDRES) spread out over the Kingdom
- Strong financial position with stable cashflow

SEDRES GROUP OF COMPANIES

DILOGUE SERVICES SAUDI ARABIA

Dialog's 10,000 sq meter facility is located in the Jubail Support Industrial City, in the Eastern province on the Arabian Gulf coast, 100 km (60 mi) Northwest of Al Dammam, an ideal position to service the needs of the burgeoning industrial city of Jubail. Services provided range from upstream to downstream activities, encompassing specialist technical services with Dialog's 5 major Divisions as mentioned below: Industrial Services Division:

KEY SERVICES

Industrial Services Division:

- Bolt torquing/bolt tensioning services
- Cold pipe cutting and pipe beveling services
- In-situ and onsite machining services
- Hydro testing services for pipelines, valves, vessels & exchangers
- Chemical cleaning/hydro jetting/steam cleaning services

Specialized Industrial Products Division:

- Cold pipe cutting and pipe beveling machines (E. H. Wachs, U.S.A.)
- Bolt torquing tools (Hytorc, U.S.A.)
- Bolt tensioning tools (Tentec, UK.)
- Turning tool inserts & rotating tool inserts (Mitsubishi, Japan)
- Torque wrench & torque multiplier tools (Norbar, U.K.)
- Pneumatic tools - impact wrench, die grinders (Fuji, Japan)
- Flange spreader tools (Equalizer, U.K.)

DILOGUE

SEDRES ANALYZER SYSTEM FACTORY CO. LTD.

Sedres Analyzer System Factory Co. (SASFCO), a subsidiary of M/s SEDRES - Jubail, is a leading company in Saudi Arabia that offers comprehensive manufacturing and integration services. With expertise in consulting, integration design, manufacturing, commissioning, field service, and training for all process analyzers, Sedres is recognized as the most reliable analytical system solution provider in the Middle East.

Whether it's on-site commissioning, testing, maintenance of analyzers and related systems, or providing service support for continuous system operations, the Sedres team is dedicated to delivering top-tier products & services to its customers. Sedres Analyzer System Factory Co. (SASFCO) has acquired M/s. Orbitus Arabia, operating from the same Jubail facility.

We also specialize in manufacturing and installing SWASS, complex sampling systems, grab sampling systems, network and communication systems, DAS, mini SCADA and DCS systems, environmental systems, and CEMS for various sectors, including power plants, oil and gas, refineries, petrochemical, and process chemical industries. Additionally, through our joint ventures, we can supply calibration gases and reagents.

DIALOG JUBAIL SUPPLY BASE CO. LTD.

Dialog Jubail Supply Base within the Jubail Commercial Port is strategically located in close proximity to major offshore oil and gas fields in the Arabian Gulf, as well as an integrated petrochemical complex in Jubail Industrial City.

KEY STRENGTHS

- Situated in weather-protected locations inside Jubail Commercial Port
- Efficient offshore supply base operations to achieve results with lower costs and increased efficiency
- Availability of equipment for safe handling of all cargoes/vessels on a 24x7 basis
- Working within all local and international regulatory frameworks

KEY SERVICES

- Integrated offshore supply base close to one of the world's hotspots for offshore oil & gas explorations
- A central staging point for deployment of offshore supply vessels to support offshore operations
- Docking of vessels, Storage of goods and cargo handling, Bunker and water supply
- Embarkation / Disembarkation of crews, Vessel repairs and maintenance
- 400 m long quay with a water depth of 6 m along with 22,000 m² open storage area + 1,680 m² warehouse + 900 m² of workshop complete with overhead crane, 4,000 m³ fresh water storage tank, 10,000 m³ base oil tank, and 5,000 m³ spare tank
- Single buoy mooring SBM repair ramp, Refrigerated food containers electrical connection facilities and Mobile machinery

SPECIALTY GASES CO. LTD.

With the vision and mission to be considered the most quality-conscious supplier within GCC (Gulf Cooperation Council), Specialty Gases, a JV with Leeden NOX (Singapore), was founded in 2013.

KEY SERVICES

SGC is the first company of its kind to deploy technologically advanced tools at our manufacturing plant in the Kingdom of Saudi Arabia. SGC manufactures a diverse range of gases and liquid mixtures, high quality and high purity calibration gases required for laboratory and process quality control.

Our products include

- Calibration gases
- High purity gases
- Disposable cylinders

BISAN ENGINEERING CONSTRUCTION CO.

BISAN Engineering Consulting Company is A Saudi Arabia based engineering consulting firm, legally registered under CR#2055130294, also enrolled under Etimad Online Portal, with (Royal Commission's vendor #15894).

BISAN Co. Employs highly experienced professional engineers with consultant levels covering all engineering disciplines with wide variety of expertise, especially among the Royal Commissions' provinces as well as amongst ARAMCO / SABIC Facilities & premises. Actually, our professional team accompany an executive engineering management whose wide expertise have been majorly recorded and actually inducted at the Royal Commissions' (RCs') & ARAMCO / SABIC .etc. Facilities, with irreplaceable know how knowledge of the RCs' / ARAMCO / SABIC requirements and guidelines (including CEOs' & VPs' levels, Directors & G.M.s levels and Chief Engineers of all disciplines), whereas their credentials & relevant expertise have had been formally acknowledged and accredited by RCs' / ARAMCO / SABIC .etc. Projects Managements & Engineering Departments over the past several years (decades).

Our team had executed successfully countless number of mega projects under the RCs' / AR- AMCO / SABIC. etc. supervision & within its territories and areas of districts; including managing & supervising industrial plants at Jubal Industrial City, Expansions of Existing Plants (EPC contracts), site developments utilities services projects within RCs' / ARAMCO / SABIC. etc. premises, tower buildings EPC projects, housing projects with primary & secondary infrastructures, roads & paving works covering asphaltic concrete pavements and micro surfacing as well, sewer lifting stations, structural heavy repairs, renovations and rehabilitations for existing structural buildings, plants, facilities, infrastructures and substructures, geotechnical assessments projects, anti-corrosion "evaluations, handling, undertaking maintenance and preservations", concrete injections, structural repairs for delaminated concrete elements & Steel Structural Piperack, cracks and cavities explorations / detections, ultrasound examinations, .etc. As well as precast, pretensioned, prestressed, composite elements, including normal and lig'ons, fully liable & accountable techno-commercial interpretations as well, facilities managements & assets managements.

SEDRES JOINT VENTURES

SIX ALLIANCE CO. LTD.

Commercial Diving & Engine Repairs

Sedres has partnered with Six Alliance to provide one-stop services and support for non-destructive inspection, commercial diving, and engine maintenance & repairs.

KEY STRENGTHS

- Extensive experience and an expert team of engineers and divers
- Complete kit of certified equipment
- Meeting rigorous standards stipulated by the classification societies, ag administration, and other regulatory standards

KEY SERVICES

Commercial Diving

- Classification of underwater inspection for marine and offshore vessels (ABS & BV approved)
- Underwater non-destructive testing raw detection and thickness measurement (Subsea MPI, Eddy current)
- Underwater ship hull cleaning, propeller polishing and Underwater bronco welding & cutting
- Jetty structure repair/cleaning, inspection and Jetty fender repair & replacement

Engine Repair & Maintenance Services (Marine & Offshore)

- High and medium-speed diesel engine spare parts supply
- High and medium-speed diesel engine repairs

Equipment Support Services

- Steam boilers (3 tons per hr)
- Man lifts (15 mtrs to 27 mtrs)
- Shindaiwa welding machines
- Tower lights
- Forklifts

Minor Projects and Fabrication

- Structural Fabrication, Machining
- Plant mechanical repair works

Industrial Hose and Services

- Stainless steel flexible hoses (U.S. Hose Corp., U.S.A.)
- Teflon hoses (US Hose Corp., U.S.A.)
- Composite hoses (US Hose Corp., U.S.A.)
- Hydraulic hoses (Parker, U.K.)
- Industrial hoses (Parker, U.K.)
- Rubber expansion joints (KURBO, Korea)
- Hydro testing of hoses
- Hose management system

CHEMICALS SOLUTIONS MFG. CO.

"TAKWEEN" is the brand name of Sedres Chemicals Solutions Manufacturing Company, a division of Sedres Group of Companies based in Al Jubail Industrial City, Kingdom of Saudi Arabia,

Sedres Chemicals Solutions Manufacturing Company was founded to provide ready-to-use chemical solutions for industrial Quality Control Environmental and research laboratories which are accurately prepared in accordance with the manufacturing guidelines of either European Pharmacopeia or the United States Pharmacopeia Calibration solutions are directly traceable to NST Reference Standard

Takween offers different chemical solutions such as Standardised Volumetric Solution Titrants, Buffers, Calibration Solutions, and dissolution media, according to Reagent Chemicals, 10th Edition, American Chemical Society, 2005

GOODPACK

Established in 1980, we are the world's first and largest provider of reusable pallet-sized intermediate bulk containers (IBCs) on a pay-per-use basis to companies transporting valuable payloads globally by road, rail, or sea.

We are committed to Creating Circular Supply Chains with our customers in leading markets such as Rubber, Chemicals, Automotive, Food products and many more. Our intelligent fleet of 4+ million pallet-sized containers are spread across over 5,000 delivery and collection points worldwide.

We help our customers save supply chain costs, improve operations, reduce inventory, damages and meet environmental goals.

PAXOCEAN

We offer end-to-end engineering services supporting the complete life cycle of maritime and offshore assets. Leveraging our core competencies and technical know-how, we help our customers build, repair, decommission and recycle maritime assets for an environmentally sustainable future.

PaxOcean's group of shipyard facilities are strategically located along major trading routes from North Asia to Southeast Asia. We can provide close support for all shipbuilding and ship repair needs.

As part of the KSL Group, our business practices are grounded in the same five core values: Integrity, Effort, Compassion, Unity and Gratitude. These values define us and guide the decisions we make, our relationships with our customers, and how we empower our employees to make a difference in the communities we serve.

CYCLECT

Cyclelect is a multi-disciplinary engineering solutions company that has been delivering sustainable engineering and maintenance solutions for over eight decades. Since our humble beginnings as an appliances workshop in 1943, we have grown to a team of over 700 staff in 9 countries, providing reliable engineering solutions to thousands of industry clients each year.

We value Togetherness, Integrity, Determination, Excellence, Sustainability & Innovation and have received numerous accreditations and awards for our business practices, sustainability, safety, and operational excellence. Cyclelect is also about a commitment to being a reliable, responsible, and ethical participant in the global community and supporting the United Nations' Sustainable Development Goals.

Our goal is to make a positive impact on society, the economy, the environment, and our community through our operations. We strive to uphold the highest standards of excellence and sustainability in all that we do & we are committed to being a reliable partner for our clients and a responsible member of the global community.

H O I D I

Hoidi International Pte Ltd, an offshore service provider offering a range of integrated solution from construction, production, repair to marine services. To race along in this demanding industry, our professional expertise and dynamic facilities have established a strong rapport with major oil companies and to serve well reputable clients around the world.

STRENGTHS THAT ANCHOR OUR BUSINESS

- Over three decades of industry experience
- Expert & dedicated teams in each department
- A global network of offices & agents
- Strong understanding of local rules & regulations
- Own fleet of boats & equipment
- Superior quality services & supplies
- Time-bound deliveries
- Transparent & timely information sharing
- Competitive pricing for high-quality products
- After-sales support
- Strict adherence to HSSEQ standards
- Compliance with all local and international laws, rules & regulations
