

Empowering Farmers, Enriching Lives

At Sahyadri Farms, 26,500 farmers across 40,300 acres unite to bring fresh, high-quality produce to the world. We empower smallholder farmers while delivering top-notch, sustainable products that consumers can trust. We aim to build a future where farmers thrive, leveraging our world-class infrastructure and reducing inefficiencies for an improved food supply chain.

India's Largest Fully Integrated Horticulture Value Chain

A Globally Competitive Leader in Multi Horticulture Crops and Multi-Product Manufacturing

**Largest
Grape
Exporter**

**Largest
Tomato
Processor**

**Largest
Sweet Corn
Processor**

**Largest
Citrus
Processor**

**Largest
Pomegranate
Peel Extractor**

Seeding Goodness for a Greener Tomorrow

Renewable energy, minimal waste, maximum impact.

Sustainability is our core. We harness solar power, biogas, algae cultivation, and waste recycling to create value from resources while minimizing environmental impact. Our collaboration with Tata Strive empower rural communities.

From Seed to Plate, Powered by Technology

End to End Solution

**Pre-Harvest
Tech**

IoT weather stations and soil sensors give real-time insights for optimal farming.

**Modern Farming &
Crop Advisory**

Tailored agronomy support for sustainable and productive crops.

**Digitalized
Farms**

Geotagged, monitored farms ensure full transparency and 100% traceability.

**Post-Harvest &
Supply Chain**

Advanced processing, storage, and logistics to preserve freshness.

**Quality Control &
Traceability**

Every stage undergoes rigorous checks with complete seed-to-plate traceability.

Fresh Fruits Export

350MT/Day

Production Capacity

Grapes

Over 30 varieties, including 19 patented ones.

Citrus

17+ new varieties including 2 patented variety

Pomegranate, Banana, Mango

Exported fresh to meet global standards.

Aseptic Puree / Pulp

350MT/Day

120MT/Day

Production Capacity

Processed for both domestic and international markets

Tomato Paste

Mango Pulp
(Alphonso, Totapuri)

Red Papaya

Banana

White Guava

Frozen Produce

200MT/Day

Production Capacity

Frozen products that meet international quality standards

Sweet Corn

Mixed Vegetables

Cauliflower

Mango Dices

Pomegranate Arils

Strawberry

Frozen Pulp & Juice Concentrate

Orange Juice concentrate

Mango Pulp
(Alphonso, Totapuri,)

Pomegranate juice

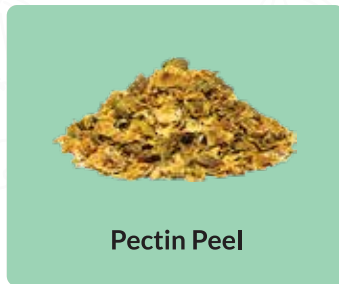

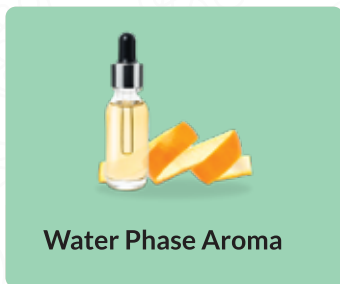

Guava Pulp

Sweet Lime Juice Concentrate

Bio-Actives

Value added Bio-Actives from Agro processing biomass

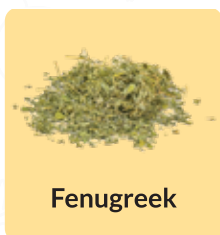

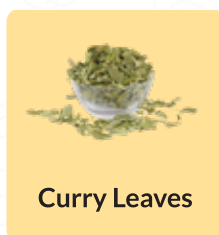

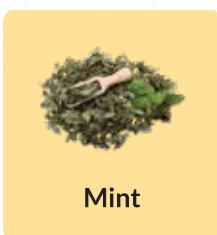

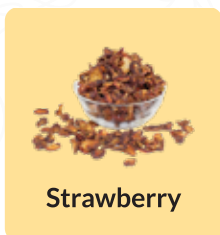

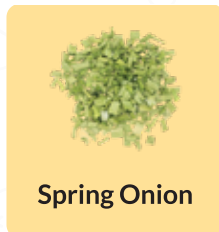

Solar Dried

5MT/Day

Production Capacity

Solar-dried for sustainable production

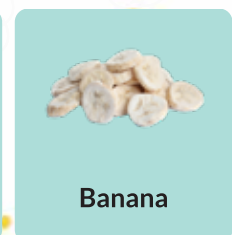

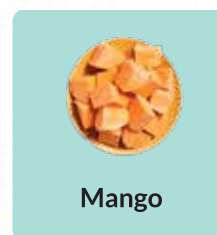

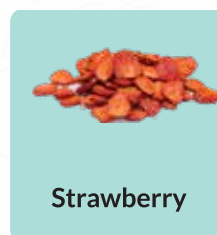

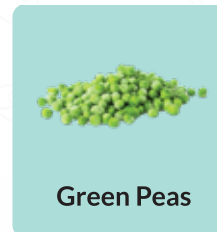

Freeze Dried

3MT/Day

Production Capacity

Freeze dried for natural color, aroma and nutrients

Dry Fruits

140MT/Day

Production Capacity

Processed to perfection for superior taste and quality

Almonds

Cashews

Raisins

Pistachios

Fruit Powders

10MT/Day

Production Capacity

100% natural, spray-dried delivering concentrated flavor and nutrients in every granule

Tomato

Pomegranate

Mango

Trusted by the World

Certified for global standards, our products meet international food safety and quality benchmarks, trusted by top brands and consumers worldwide
