

CAPABILITY STATEMENT

Company Overview

Aluforms was established in 1998 in Atlanta, Georgia USA. For over 20 years, we provided superior aluminum formwork system internationally as the number one choice for concrete poured construction for any type of building and structure for massive housing projects including low, mid and high rises.

We strive to create innovative solutions and to enhance **Quality, Design, and Engineering.**

We continue to simplify construction procedures to improve **Safety, Efficiency, and Speed** and pledge to fully support you in order to complete your projects successfully.

Services Provided

Before Sales

- Architectural & structural plans estimation
- Sales proposal

On Sales

- Mock-up at manufacturing plant
- On-hand guide on shipping of formworks
- Mock-up at site

After Sales

- On-site technical supervision for weeks
- Time-to-time on-site report
- Unlimited consultation on future projects
