TEMPORARY FLOOR PROTECTION

ABOUT SUPABORD: WHERE INNOVATION MEETS PROTECTION

SupaBord, conceived in response to the escalating demand for safeguarding custom-made, high-value flooring, is the creation of Bord Industries. A dynamic collaboration between renowned timber flooring manufacturers and one of Australia's largest paper companies, SupaBord has swiftly evolved into a premier floor protection solution for commercial, residential construction, and renovation projects.

Trusted by both seasoned trade professionals and enthusiastic DIYers, SupaBord is the result of cutting-edge technology seamlessly balancing vapour permeability, durability, and versatility. Developed by our dedicated team of specialists at Bord Industries, SupaBord has undergone rigorous testing, proving its fortitude against the demanding standards of the construction industry. Its flexibility and strength redefine surface protection for floors, benchtops, and stairs.

Beyond our success in the Australian market, SupaBord has made its mark globally. From New Zealand and Hong Kong to Korea, Canada, China, and Japan, our products are not just sold but embraced. The expanding SupaBord sales network reflects the premium and reliable nature of our floor protection solutions. Our continuous growth propels us towards featuring in more countries, and we eagerly anticipate introducing more individuals to the elegance and excellence of our premium floor protection.

Join us as we elevate floor protection standards with SupaBord, your trusted choice in securing the elegance of bespoke flooring.

ENVIRONMENT & SUSTAINABILITY: CRAFTED WITH CARE FOR OUR PLANET

At SupaBord, we not only provide superior temporary floor protection but prioritize environmental sustainability. Our commitment begins with responsible material sourcing, utilizing an FSC-compliant mixture of recycled material for SupaBord production. Despite certification challenges, we persist in using environmentally friendly sources.

In our production process, treated, reclaimed water is employed, ensuring minimal ecological impact and facilitating recycling after product use. SupaBord distribution relies on entirely renewable energy sources, achieving carbon positivity through the adoption of solar energy, offsetting transportation emissions.

Bord Industries has made strides in packaging sustainability, featuring roll designs with no external plastic, pallet configurations using recycled compressed wood, and plastic-free tape packaging encased in recycled paper tubes. Our commitment to sustainability is continuous, prioritizing superior quality for customers while minimizing our environmental footprint. Join us in making a positive impact on the planet with SupaBord.

SUPABORD RENOVATOR GRADE SB26

SupaBord Renovator Grade is your reliable solution for medium-duty temporary floor protection in commercial, residential construction, and renovation projects. Leveraging the latest technology, SupaBord Standard is lightweight yet strikes a perfect balance between vapour permeability, durability, and strength.

Specially crafted to meet the demands of residential renovations, SupaBord Renovator Grade offers low impact resistance and robustness against light-wheeled traffic. Made from 100% recycled materials and covering an ample 26.5 sqm per roll, SupaBord Renovator Grade is incredibly versatile, with easily scored and folded to safeguard surfaces, making it an ideal choice for benchtops and stairs.

SupaBord Renovator Grade stands as a preventive shield, minimizing the risk of damage and rework. This not only safeguards your surfaces but also translates to substantial savings in replacement materials and labour costs.

CUSTOM PRINTED ROLLS

When it comes to product branding, we understand how important it can be for suppliers or contractors to have their brand name and logo exposed to as many aspects of a job as possible, especially for commercial and industrial jobs.

At SupaBord, we offer custom floor protection rolls that allow for your company's logo and website to be placed on the rolls themselves.

JOINT TAPE JT60

SupaBord Joint Tape has been purposefully designed to secure SupaBord Temporary Floor Protection seams together for up to 90 days. This tape is made from quality, non-woven paper that is semi breathable and vapour permeable to promote even finishes in curing floors. The 90-day high-tack, contractor grade, hot melt adhesive provides instant and secure attachment that is strong and flexible

150 DAY EDGE TAPE ET48

SupaBord 150 Day Edge Tape is the totally breathable, long-lasting, solution for securing our temporary floor protection. This tape is made from quality crepe paper with a natural rubber adhesive to provide instant attachment to a wide variety of surfaces.

SupaBord is a proven and trusted brand to provide temporary floor protection for commercial, residential construction and renovation projects.
