

# PRESS RELEASE

## PROSPEC SURFACES TO SHOWCASE SUSTAINABLE LUXURY FINISHES AT DESIGN FAIR ASIA 2025

We're excited to announce our participation in **FIND – Design Fair Asia 2025**, taking place from **September 11–13** at **Stand 1D79**.

This year's theme, **Sustainable Luxury**, aligns perfectly with our mission to deliver interior finishes that are not only visually stunning but also environmentally responsible and long-lasting. At the exhibition, we'll be showcasing a curated selection of our signature materials that exemplify craftsmanship, quality, and sustainability.

Our stand will be crafted by our own artisans and will feature:

- **Armourcoat's** bespoke Venetian polished plaster from the UK, hand-applied by our skilled master crafters
- **Junckers** solid prefinished timber flooring from Denmark, renowned for its natural beauty, durability, and timeless appeal
- **Smarter Surfaces** functional coatings, including writable whiteboard and projector screen paints that transform any surface into a collaborative tool

*"It's a great opportunity to return to the exhibition and share what Prospec Surfaces has to offer. Visitors can expect finishes that are not only beautiful but add lasting value. We're committed to excellence—not just in our materials, but in the service and support we provide our clients."*

— Richard Ow, Director, Prospec Surfaces Pte Ltd

With over **35 years of industry experience**, Prospec Surfaces has been a trusted provider of **sustainable luxury finishes** for **hospitality, commercial, institutional and residential** projects across Singapore and the Asia-Pacific region. We partner with leading global brands to offer materials that blend innovation, artistry, and environmental responsibility.

Our comprehensive product portfolio includes:

- Junckers Danish solid hardwood commercial and sports flooring
- Armourcoat UK decorative polished plasters and sculptural wall textures
- Smarter Surfaces UK dry-erase, magnetic, and projector-compatible coatings
- Marathon cubicle and locker systems

**Visit us at Stand 1D79 to experience materials that elevate spaces — beautifully and sustainably.**
