PROJECTS

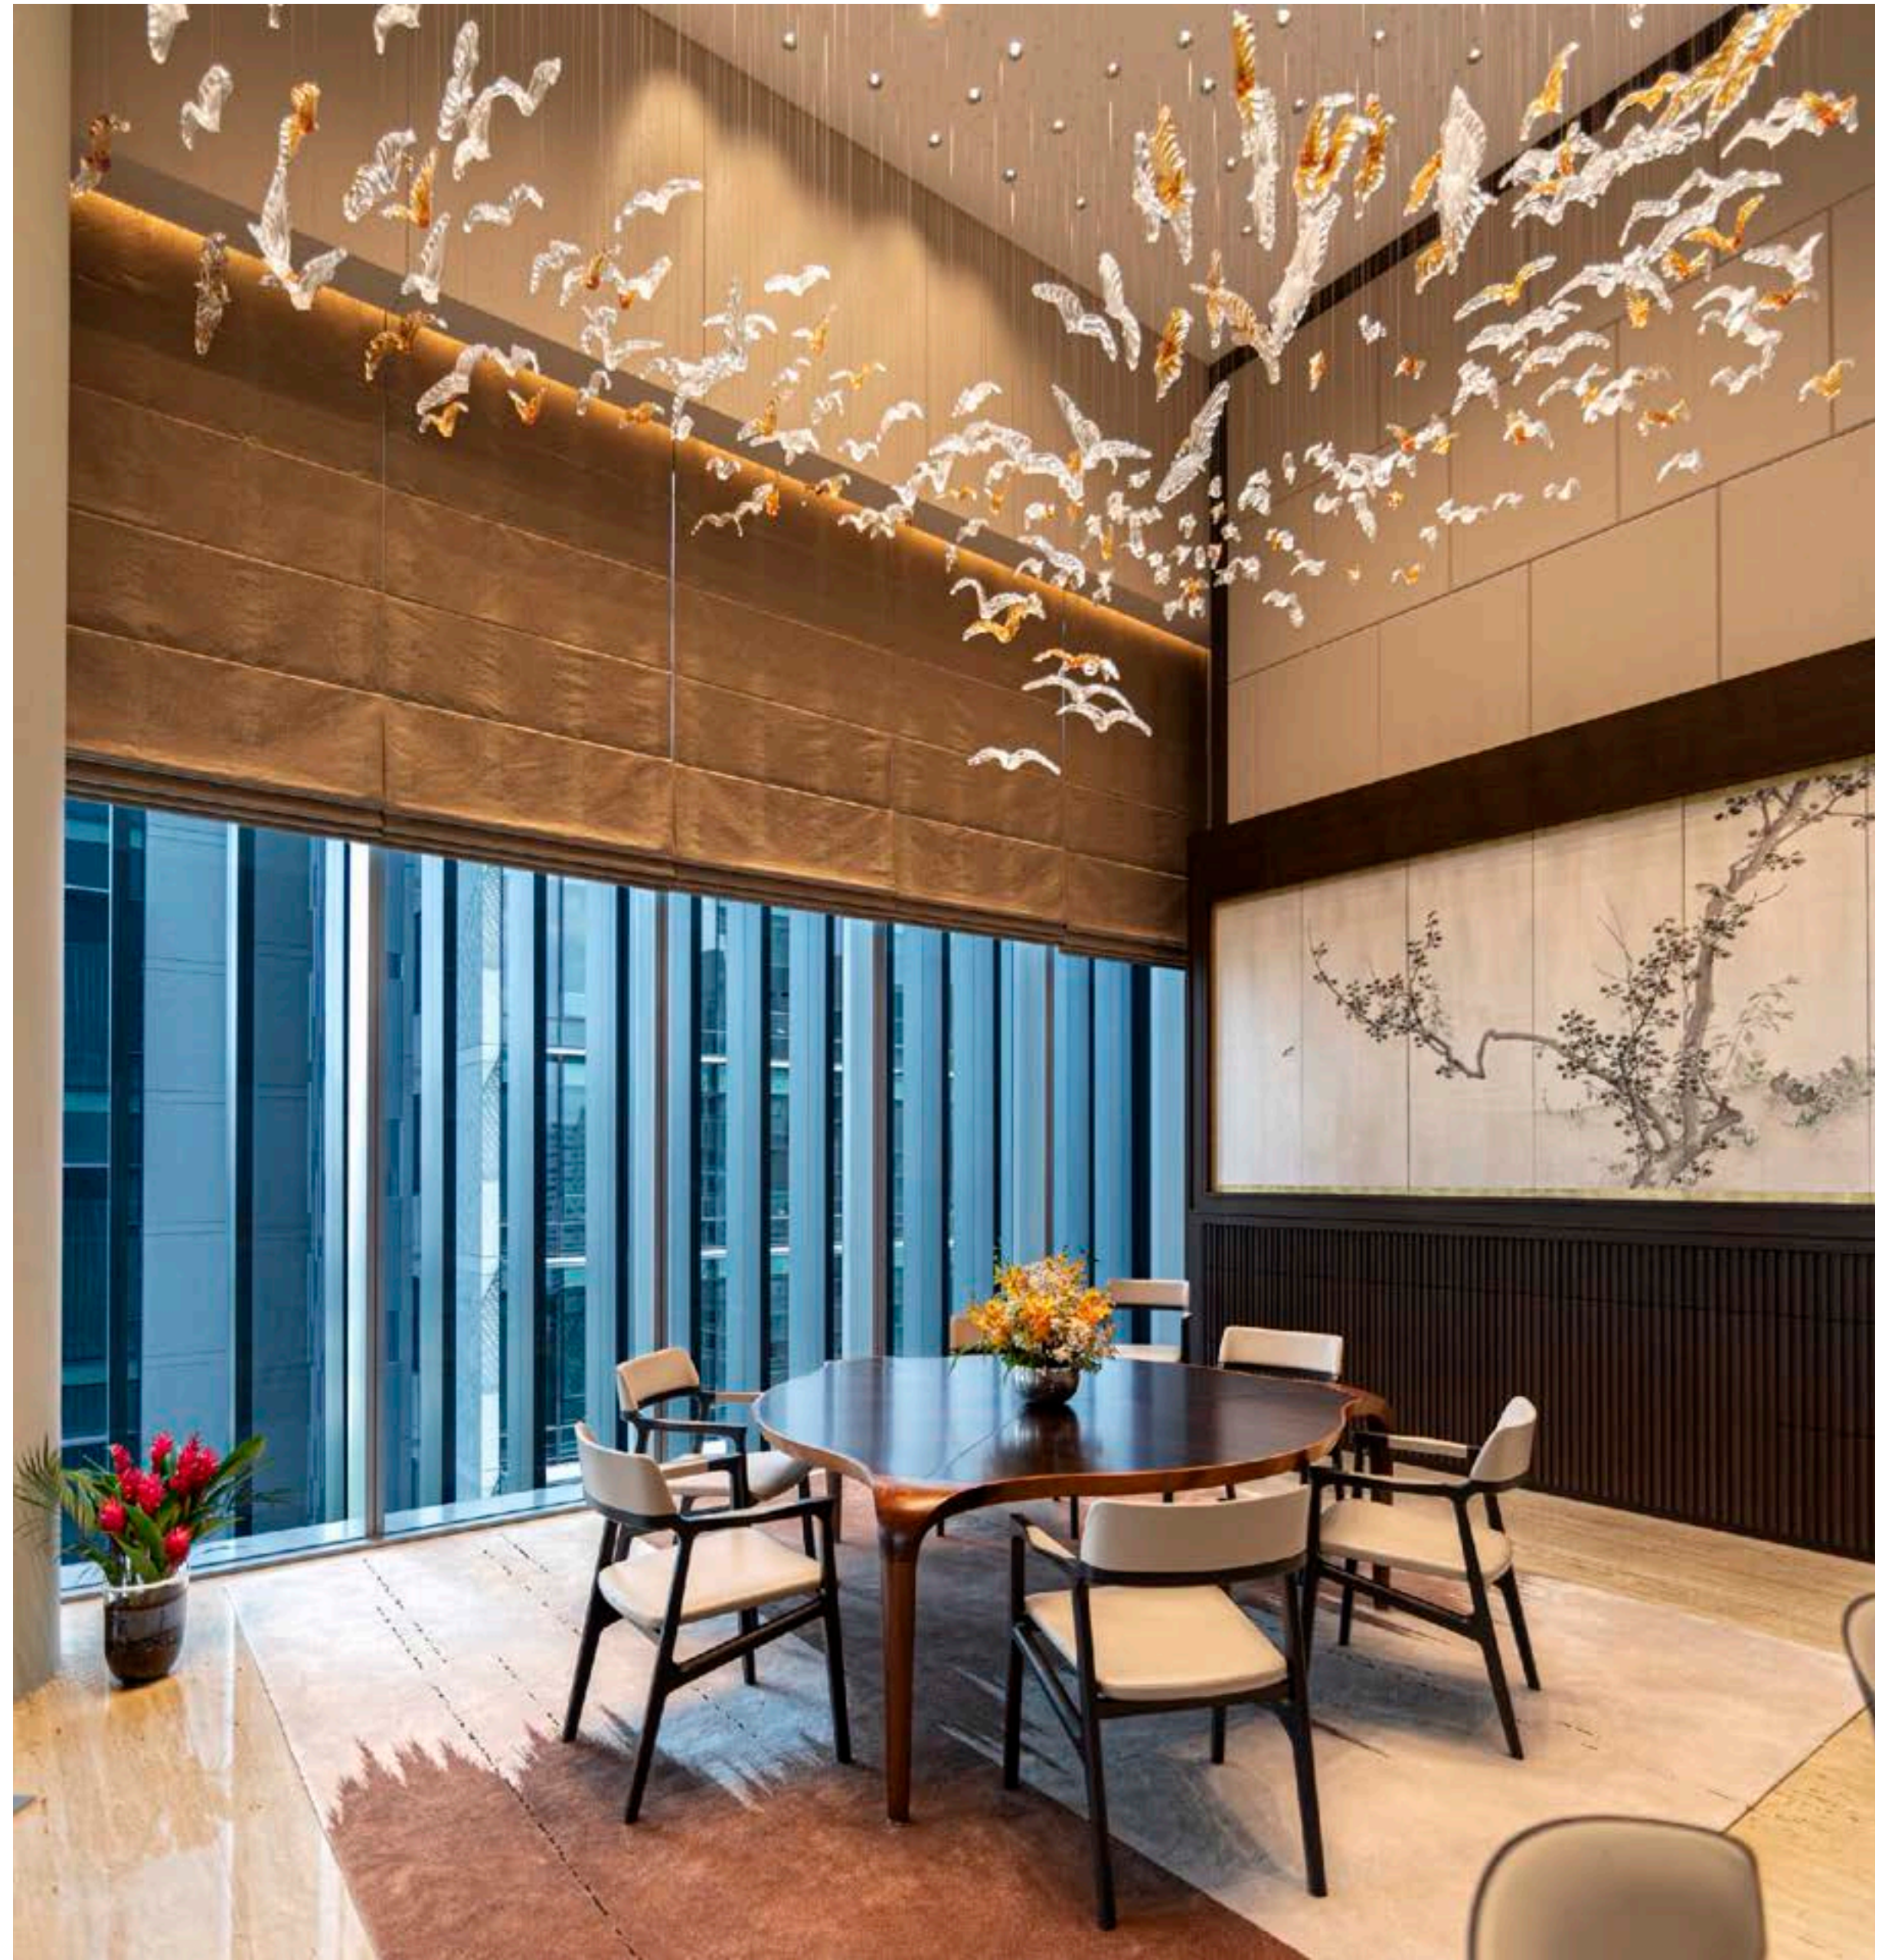

Marq Residence

SINGAPORE

At Marq Residence in Singapore, two magnificent flocks of crystal birds take flight, transforming the space into a poetic celebration of light and movement. Each bird is hand-sculpted from Bohemian Crystal, featuring delicate clear wings enhanced with warm amber hues. Select birds are further adorned with intricate, hand-applied gold detailing, emphasizing their graceful elegance.

This installation is a testament to our commitment to artistry, precision, and the Bohemian glassmaking heritage. As light dances through the crystal and gold, the flocks tell a poetic story of flight and freedom, offering residents and visitors a sense of wonder and inspiration. Seamlessly blending art and function, this bespoke design transforms the residence into a luminous sanctuary where luxury and nature converge in perfect balance.

PROJECTS

Tansil Residence

SURABAYA, INDONESIA

At the Tansil Residence in Surabaya, Indonesia, a captivating spiral installation brings an artistic rhythm to the luxurious space. This bespoke creation features flowing waves composed of hundreds of hand-crafted crystal leaves, each meticulously formed through a layered glassmaking process. Some leaves are delicately hand-painted in rose gold, lending a refined warmth to the design.

Suspended as if weightless, the crystal leaves appear to float around the residence's windows, creating a luminous and ethereal atmosphere. With its dynamic composition and timeless Bohemian Crystal craftsmanship, this installation enhances the residence with elegance and artistic sophistication.
