

Thinking bathroom?
Think **ravak**®

Company profile

Meet **ravak**®

Beautiful Bathrooms Are Our Passion.

Everything we create is driven by the joy our customers feel when they first step into their new bathroom – a moment of delight that becomes a cherished part of their everyday lives for years to come.

Our Values

We settle for nothing less than excellence

While things can be done halfway or even well, we believe in doing them exceptionally. At Ravak, we strive for the highest possible quality in everything we do.

We see the world through a fresh lens

We are constantly seeking opportunities to innovate and improve. Change isn't just a reaction to the world around us—it's a mindset we embrace every day. We are relentless in our pursuit of improvement, welcoming every idea that helps us grow and evolve.

We love beauty

We believe in the positive impact of beauty on people. At Ravak, we work every day to ensure that everything we create is a pleasure to look at.

Sustainability

At RAVAK, as a trusted manufacturer of bathroom equipment, we are constantly seeking ways to reduce the environmental impact of our production facilities.

Sustainability is becoming a core part of our long-term focus. Our goal is to create high-quality solutions that respect both our customers and the planet.

Solar energy production:

We operate a large solar technology plant to generate our own electricity.

Heat recovery:

We efficiently recuperate residual heat from our production processes.

Recycled packaging:

All our packaging is made from 100% recycled cardboard.

Certified wood suppliers:

We work exclusively with suppliers holding FSC (Forest Stewardship Council) certification.

Sustainable forest management:

We require PEFC (Programme for the Endorsement of Forest Certification) compliance at both local and global levels.

Local partnerships:

We collaborate only with local vendors to minimize the environmental impact of transportation.

Art directors

Our inspirational bathrooms are created by Czech and foreign designers, who reflect their rich experience from designing interiors and original ideas on how to transform everyday objects into beautiful timeless aids for a comfortable life.

Since the creation of genuine and intricate designs is essential for us, in 2022 one of the most famous Czech designers of today, vrtiška&žák, took over the artistic leadership of our brand. For more than fifteen years they have been running a joint studio, working on commissions for well-known European companies and actively participating in the education of young talents as the heads of the Furniture and Interior Design Department at the Academy of Arts, Architecture and Design in Prague.

Awards

Because design and the desire to cultivate the environment through design is at the centre of our efforts, we are inspired by the principles of good design as defined by Dieter Rams.

We produce products that our customers find useful, comprehensible and innovative in their field, and whose design is timeless. Our original and innovative designs have received international recognition and awards such as the Red Dot, iF Design Award and Good Design. We operate five offices in Central and Eastern Europe and export to more than fifty countries worldwide.

Ravak Company

On the market for over 30 years.

European manufacturer – manufacturing companies in the Czech Republic, Hungary and Poland.

Superior Craftsmanship Meets High-Tech Innovations

Our success is based on adherence to basic rules such as the supervision of first-class quality, the use of unique technologies, the craftsmanship of our experienced craftsmen and the focus on original design.

But what really sets us apart from our competitors are our customer-oriented products in all respects, the possibility of tailor-made solutions and the ability to provide in-house production of all bathroom fittings.
