ABOUT HLINEAR

HLINEAR, founded in 2017, is a forward-thinking lighting company that prides itself on innovative design and sustainability. At the core of our philosophy lies a commitment to creating LED fixtures that not only illuminate spaces but also enhance their acoustical comfort.

Our designs are a seamless blend of functionality and aesthetics, where LED lighting technology meets the acoustic benefits of sound-absorbing materials. We believe that lighting should not only be bright and efficient but also contribute to a healthier and more comfortable indoor environment. By integrating sound-absorbing cotton into our LED fixtures, we aim to reduce noise levels and create a more serene atmosphere in any given space.

Moreover, sustainability is a cornerstone of our operations. We strive to use eco-friendly materials and manufacturing processes, ensuring that our products have a minimal impact on the environment. Our LED lights are designed to be energy-efficient, lasting longer and consuming less power than traditional lighting solutions.

In essence, HLINEAR's vision is to revolutionize the lighting industry by offering innovative, environmentally friendly designs that enhance both visual and acoustical comfort. We believe that through our designs, we can create spaces that are not just brightly lit but also acoustically balanced, fostering a positive impact on people's well-being and productivity.

HLINEAR'S PROJECTS

Acoustic & Texture series An extension of our product line seamlessly integrates 83 vibrant colors with HLINEAR's signature designs, enhancing and diversifying our product offerings.

Linear series This series offers a variety of standard shapes with a fully customizable design, allowing you to create any desired shape to suit the space's requirements. Visual results can be previewed through the App demonstration.

Circle series This is HLINEAR's most classic design series and a highly refined product, embodying the ultimate in simple artistic beauty.

Circular series It represents the pinnacle of lighting art design, offering a range of standard shapes to choose from, achieving the perfect integration of space, lighting, and art. You can also visualize the results through the App preview.

MANUFACTURING & INSPECTION

HLINEAR seamlessly integrates product design, material performance, and manufacturing processes into its products to create unique lighting effects for clients. We are equipped not only with advanced processing equipment but also with an exceptional design team, extensive experience in customized production, and a commitment to high-quality standards.

HLINEAR & COOHOM

COOHOM is a highly comprehensive interior design software that also covers lighting design. It serves as a one-stop intelligent lighting solution that integrates design, marketing, and construction, helping lighting designers complete visual designs, diversify marketing efforts, and achieve digital implementation.

In COOHOM, you can use HLINEAR's lighting materials to quickly and easily create stunning lighting design solutions, even if you haven't studied lighting design professionally.

Cloud design

Cloud-based design significantly reduces equipment requirements while making solution sharing more convenient.

Rapid modeling

Imported drawings can be quickly modeled, and modifications are easy. A rich model library is also included, offering a wide variety of models.

Quick adjustments

Based on the actual HLINEAR lamps, you can freely modify parameters such as length, height, material, and color temperature.

Real-time preview

When modifying the design, you can see real-time changes in false color and lighting effects.

Free splicing

Using HLINEAR's corner models, you can freely splice components together. They will automatically snap into place, allowing you to customize the lines and shapes as you wish.

Lighting Scenario

When a scene involves multiple lighting fixtures that do not require simultaneous operation, you can manage the on/off control of each fixture by assigning them to different groups.

High-quality rendering

Intelligently positioned cameras enable fast, high-quality rendering.

Video export

Select a video template and make simple adjustments to render and export the video with one click.

A cup of coffee's time, a project completed.

CERTIFICATION

All HLINEAR's products have been tested by renowned authoritative laboratory institutions and have passed various certifications, including ETL, CB, CE, SAA, SASO, 3C, REACH, RoHS, IP65, LM79 ect.

Additionally, we hold ISO 9001 and ISO 14001, ISO 45001 quality and environmental management certificates.

Patents

HLINEAR is dedicated to the research and development of products and technology. Currently, we have secured numerous invention patents.

Certifications

ISO-9001 & ISO-14001 & ISO-45001 certifications

ACOUSTIC & TEXTURE LIGHTING

The vibrant colors complement the acoustic insulation, creating a visually appealing and acoustically balanced space.

HLINEAR

- We are committed to ongoing technological innovation.
- We provide excellent quality assurance for our LED lights.
- We have various complete production line.
- We utilize environmentally friendly acoustic & texture materials.
- We have a well-established global market presence.
- We maintain a comprehensive after-sales service system.
- We ensure our products have a long lifespan and low maintenance costs.
- Our App allows for simultaneous space design, lighting design, and quotation.

HLINEAR's current Acoustic range showcases an impressive palette of 48 vibrant colors, significantly enriching the market with a multitude of design possibilities. Yet, this is just the beginning of our journey toward innovation and excellence.

We understand the profound influence of color in evoking emotions and enhancing the ambiance of any space. Our commitment to continuous improvement means we are excited to introduce new classic color schemes that resonate with contemporary design trends.

By diligently exploring color psychology and embracing diverse cultural perspectives, we aim to create color collections that align seamlessly with market demands and consumer preferences.

We warmly invite feedback and insights from our users and designers, as your ideas inspire our evolution. Through our relentless pursuit of innovation, we are dedicated to ensuring that HLINEAR's Acoustic series delivers not only a vibrant visual experience but also a uniquely personalized lighting solution for every space.

* Texture thickness

Type: 3-5mm the lowest thickness is 3mm and the highest thickness is 5mm.

HLINEAR seamlessly integrates premium materials such as travertine, wood, and earth into our lighting fixtures, delivering a sophisticated and immersive visual experience. The refined texture of travertine introduces a sense of luxury and warmth, while the rich wood grain adds a timeless, inviting aesthetic.

In contrast, the raw, organic essence of earthy materials imparts a natural authenticity to the design. By incorporating these textures, we not only enhance the visual appeal of our products but also create a meaningful connection to nature and sustainability.

This harmonious blend of natural materials and cutting-edge lighting technology positions our fixtures as both highly functional and aesthetically compelling, offering a unique, emotionally resonant experience that aligns with modern design sensibilities.

HLINEAR offers a diverse range of colors achieved through various manufacturing processes, including Powder Coating for a durable and even finish, Sand Blast Painting for a textured and rugged appearance, Anodized Brushing for a refined and sleek look with increased corrosion resistance, Electrophoresis for a smooth and even coating with excellent adhesion, and Plating for a decorative and protective metallic surface.

These techniques provide HLINEAR with the flexibility to cater to different aesthetic and functional requirements, ensuring that customers can find a product that not only meets their performance needs but also matches their visual preferences.

| CCT | 2400~6500K , RGB , RGBW |
| DIMMING | Non , Dali , Push , Triac , 0-10V , Remote , Tunable |
| Input voltage | 200-240V , 100-277V |
| CRI | >80 , >90 , >95 |
| Warranty | 5 Years |
| Certification | |

LAMPS PARAMETER

| Length(mm) | Width(mm) | Power (w) | Luminous (lm) |
|------------|-----------|-----------|---------------|
| 600 | 333 | 18 | 1800 |
| 737 | 455 | 30 | 3000 |
| 900 | 794 | 80 | 8000 |
| 1044 | 753 | 80 | 8000 |

*Not included texture shell size , Lumens @ 4000K , CRI>80 , PC
