# Kitchen & Dining Room

## Cylinder Lighting

- Available with various beam angle and three different light distribution option.
- Available in 4 finishes crafted to complement existing downlight and architectural product lines.

## Cove Lighting

- Operates at 120V AC
- Architectural-grade light quality
- Offered in lengths from 4" to 140' and designed to follow straight lines or curve
- Suitable for both indoor and outdoor use, with IP65 rating

## 4" LED Downlight Retrofit Kit

A sleek, low-profile design with smooth dimming (100%-10%) and a 110° beam angle for even lighting. Features CRI90+ for vibrant colors and adjustable color temperature (2700K-5000K) to set the perfect mood. Energy-efficient, easy to install, and ideal for any space.

## Undercabinet

- Field-adjustable light output & color temperature
- Designed to provide soft, uniform lighting on work surfaces
- Simple to connect multiple fixtures
- Occupancy sensor accessory controls on/off, and includes a switch to manually turn off fixtures
- Compatible with common ELV & TRIAC dimmers

## In-Wall Smart Switch

- Control ceiling and exhaust fans or any of your lights
- Easily control from your smartphone or other HALO Home Controllers
- Add to Groups or setup Schedules
- Max Loads: 720W Incandescent, 600W CFL/FL/LED/ELV, 1/2 HP motor
- Fits standard wall plates (not included)
- Has air gap switch to temporarily disconnect power
- Neutral wire required, indoor use only
- 120V / AC 60Hz standard house wiring
- Add wireless multi-way control by installing with Accessory Switches

# Facilities

# Proper Lighting Increases Productivity

Our Edge-Lit Panels, Linear LED, and Linear Wrap fixtures are versatile, high-performance lighting solutions designed for any space. Engineered for efficiency, these fixtures deliver bright, uniform illumination while reducing energy consumption. When paired with occupancy sensors, they automatically adjust to your needs—turning on when required and off when not—boosting energy savings by an additional 20%. Upgrade to smarter, more sustainable lighting today!"

## Edge-Lit Panels

- Available in 1'x4', 2'x2' and 2'x4'
- Perfect for shallow plenums
- Battery backup option available
- Even and diffuse illumination, ideal for spaces requiring glare-free lighting
- Surface and recessed mounting kits available
- Available with Lightcloud Controller
- Field-adjustable lumen output and color temperature on FA models
- HE models are ultra efficient, with up to 140 lm/W

## Occupancy Sensor

- Passive infrared motion detector
- Occupancy and vacancy sensing
- Switching for fixture or entire zone
- Supports 0-10V dimming

## Linear Wrap

- Available in 2' (20W) and 4' (27W and 40W) models
- Surface or chain mounting options
- Through Wiring Kit allows for row mounting or daisy chaining
- Prismatic lens provides smooth light distribution
- 0-10V dimming, standard

## Linear Lighting

- Available in 2' (20W), 4' (35W), and 8' (65W)
- cULus approved for damp locations
- Versatile mounting options: chain, junction box, angled surface mount, ceiling mount or vandalresistant surface mount
