

REDA Water is a trusted leader in integrated water treatment solutions across the world.

Based in Saudi Arabia, we deliver high performance programs for boilers, cooling towers, RO, and wastewater systems. Our **ZenTreat®** chemicals, premium resins, carbons, and advanced equipment help clients boost efficiency and reduce environmental impact. As a one-stop partner, we offer engineering support, lab testing, onsite services, and 24/7 assistance backed by a digital platform for real-time data and fast delivery.

At **REDA Water**, innovation and sustainability drive our mission to help industries save water, extend asset life, and achieve lasting results.
