The Nemetschek Group is a globally leading software provider for digital transformation in the AEC/O and media industries. Its intelligent software solutions cover the entire lifecycle of building and infrastructure projects and enable creatives to optimize their workflows. Customers can design, build, and manage buildings and infrastructures more efficiently and sustainably and develop digital content such as visualizations, films and computer games more creatively.

NEMETSCHEK
GROUP

**Do it
all.**

Intelligent and sustainable
software solutions for the
entire AEC/O lifecycle.

ALLPLAN	ALLPLAN covers the entire design-to-build process, from initial concept to the final detailed design for prefabrication and construction.
BLUEBEAM	Software for SMB as well as large international construction companies for digital project communication in real time. Higher productivity and visibility of project processes in every construction project.
CREMSOLUTIONS	CREM SOLUTIONS develops market-leading software solutions for digital real estate management and supports organizations in automating processes in commercial & technical real estate management.
dRofus	dRofus is the leading planning and data management software for the AEC/O industry.
NEMETSCHEK GROUP dTwin™	The horizontal, open platform dTwin delivers data-driven insights and helps customers to efficiently manage buildings from planning to operation.
gocanvas	GoCanvas digitizes paper-based processes to improve safety and collaboration between companies and site teams.
GRAPHISOFT	Intuitive, powerful BIM software solutions that enable you to connect to all design-phases during the design-to-build process.

MAXON	Leading software solutions for creatives in 2D and 3D design, motion graphics, visual effects and visualization.
NEVARIS	Integrated solutions for the construction industry: commercial construction software, construction project software with BIM integration and software as well as apps for the digital construction site.
RISA	RISA enables engineers to create in ways they never imagined, accelerating innovation to populate the world with safe structures that are fundamental to everyday life.
SOLIBRI	Leading solution for the real time quality control and assurance of BIM models.
SPACEWELL	Real estate, workplace, energy, maintenance, and facilities managers create sustainable, high-performing buildings and workplaces with Spacewell IoT-connected software.
VECTORWORKS	OPEN BIM software for every design phase: sketch, draw, and model in a fully integrated BIM workflow with Vectorworks.
