

Leading the Future:

Dallah Business Solutions, a leading provider of ICT system integration and renewable energy infrastructure, is proud to announce its participation in the upcoming Global Infrastructure Expo, taking place from 15 – 17 September 2025 at the Riyadh International Convention & Exhibition Center.

As the need for smart and sustainable infrastructure continues to grow, Dallah Business Solutions, the newly rebranded identity of Dallah Telecom, originally established in 1990, will showcase its expertise in building ICT infrastructure, the company also specializes in delivering advanced solar and wind energy monitoring solutions, supporting the shift towards greener and more efficient systems.

Join us at the event to explore how we are helping shape the future of intelligent and sustainable infrastructure.
