

Rise to Any Challenge

# DJI DOCK 3

DJI Dock 3, paired with Matrice 4D/4TD drones, enables 24/7 remote and mobile operations. The drones share the Matrice 4 Series cameras but deliver enhanced flight and protection. They can also operate independently with DJI RC Plus 2 Enterprise. With DJI FlightHub 2, pilots cut operational time and costs, boosting efficiency.

Partner with Terra Drone Arabia to utilize drones for 24/7 remote operations, enabling mobile deployment, greater efficiency, and smarter project execution.
