

NASSAR STONE BROCHURE
& EXCLUSIVE FINISHES

INTRODUCTION

Established in 1984, the group owns and operates 15 quarries in Palestine, Jordan and Oman with an annual production capacity of 60,000 m3 of marble, hard limestone and dolomite raw blocks

This in addition to 5 manufacturing facilities that employ more than 600 workers and administrative staff and produce virtually unlimited supply of the finest limestone and marble

appearing in many of the world’s most prestigious projects. **NASSAR STONE** has over the years made remarkable progress and development in these areas hoping to create a new culture in the stone business one that is based on quality assurance in production and management.

QUARRIES

The stone quarries form the backbone of **NASSAR STONE**’s business. It guarantees its clients better quality products, a higher degree of color uniformity, and above all competitive pricing.

The selective geographical territories make excellent resources for the wide variety of colors we offer in our collections. Our environmental protection and sustainability policy means that our respect and care are present in all our activities

FACILITIES

Without a doubt, the extraction, handling and preparation of stones and marbles from different quarries must be done with great sensitivity and respect for nature.

For **NASSAR STONE**, sustainability in all these actions is very important. In our facilities we have the best machines and facilities to transform the beauty of nature in different formats and finishes.

In fact, **NASSAR STONE** is considered a true benchmark in the stone sector worldwide.

DREAM, CUT, BUILD

Stemming from our drive to provide our customers with the latest design trends and hi-tech tools and machinery, **NASSAR STONE** is equipped with the latest technologies in the stone fabrication field.

NASSAR STONE is ready to deliver on all of your natural stone demands. From the quarry to the cutting table, our processes are modern, streamlined, dynamic, and time-saving.

AWARDS & CERTIFICATIONS

No compromise is taken in the selection
and quality control regarding color,
tone, and structure.

NASSAR STONE is one of the world's most interesting brands. The high quality of its products, the wide range of finishes and its excellence in logistics have awarded it numerous awards and honorable mentions.

Quality continues to play a pivotal role in shaping NASSAR STONE's vision for the present and the future. The company's strict adherence to clear quality control procedures and its continuous commitment to achieving high standards in all its production activities played the key factor in enabling it to become the first in its field to receive the ISO 9001:2008 qualification, and most recently the ISO: 14000 qualification and the CE mark.

Exhibitions Participation

At NASSAR STONE, we stay close to creators, designers, distributors, and consumers. You'll find us at major architecture fairs and design exhibitions worldwide – sharing our passion for stone and craftsmanship.
