

A middle-aged man with grey hair, wearing a blue hard hat, safety glasses, and a high-visibility yellow vest over a white shirt, stands with his arms crossed in an industrial setting. Behind him are various pieces of machinery, including a large white circular component and a black cylindrical tank.

# GRUNDFOS ALL-IN-MAINTENANCE FOR ME IS **MAXIMUM COMFORT**

## **Tired of worrying about sudden breakdowns and maintenance costs?**

Broken pumps and stalled productions result in huge costs. Grundfos All-in-Maintenance is a complete maintenance solution allowing you to focus on your business, while we manage the service and maintenance of your assets at a fixed price.

All-in-Maintenance is designed to maximise your peace of mind at no extra cost. If you experience a minor fault or breakdown, we can take care of it before it develops into a more serious issue.

An Energy Check to calculate potential savings

Preventive maintenance program for each pump

All-inclusive maintenance: Labour, Spare parts,  
Service offerings and Call-out service

Extended warranty

Technical support

Spare parts management

## Benefits of Grundfos All-in-Maintenance

- **Maximised reliability and efficiency**  
Experienced experts ensure a quick on-site service response and offer the most reliable, efficient solutions.
- **Preventive maintenance**  
Periodic inspection of pumps and assets prevents unforeseen breakdowns, maximising uptime.
- **Fixed maintenance cost**  
Everything is covered by a single payment, making maintenance budgeting much easier.
- **Customise your spare parts inventory**  
Don't worry about too many spare parts taking up space. We'll place whichever parts you need in your stock, and we're always ready to bring new parts to you when you need them.
- **Less administrative work**  
With just one purchase order per year, you can free up administrative resources for other tasks.
