

Cutting Edge Innovation

We Take Technology Seriously

Customized Battery Cooling Solution for Hybrid Marine Vessels

- Performance at Idiosyncratic Temperature Rating
- Performs specifically at **28°C to 36°C** Process Fluids
- Ergonomically Designed
- Compact Model for its Range
- Smallest foot print in its's kind
- Robust
- Sea water, Freshwater, and Air-Cooled Application
- Exceptionally designed for Cooling Hybrid Technology Vessels
- Perfect Cooling to Prevent Condensation on cell clusters
