1| Jessica Katane – Johannesburg

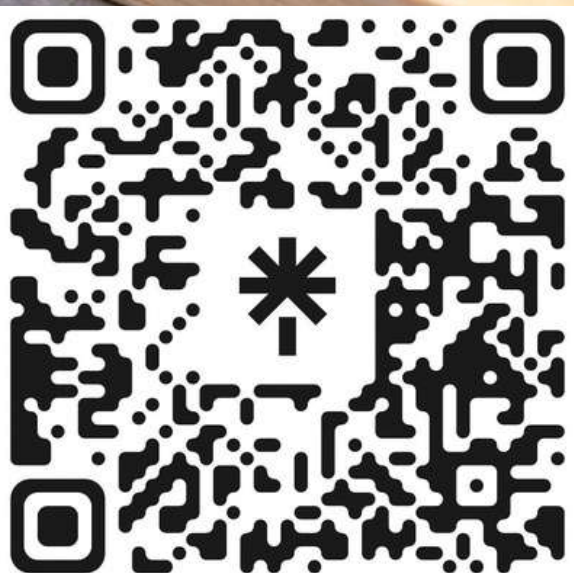

1019 sauce literally goes with ANYTHING.

I hosted friends to my house for good chats and off course a cheeseboard was featured. Not only that, we added some "heat" to the board with 1019 sauce for those that prefer some chilli on their crackers with some black pepper cheese from Woolies, I cannot explain how absolutely mouthwatering this combo is. We

had two choices of the Mild or Hot sauce and they were both winners.

2 | Cosmos Chipepo – Johannesburg This sauce is my go-to hot sauce for its versatility. It's a delicious blend that I found to be very useful as I experimented a whole lot with it in a variety of dishes. Cook-in sauce, condiment and marinade, I've done it all with it. My current favourite recipe with it is on my signature Beef tongue as a marinade and served with a mushroom sauce over it.

3 | Sahann Van der Vyver – Haartebees Best artisanal pepper sauce I have ever had in a long time. As a sauce with a taste not just the heat.
