ABOUT US

Founded in 2002, 3TREES has been constantly focusing on bringing about better life and healthier home living for people. We are committed to creating a wonderful life solution in the retail sector with the "seven-in-one" products that include latex paint, art paint, beautiful countryside, adhesives, base materials, waterproof coatings and 3TREES Xiaosen Decorative Boards, and the turnkey "Immediate-move-in" decoration services. We are also committed to creating in the field of engineering a one-stop integrated system for green building materials including interior and exterior wall paint, waterproofing, thermal insulation and industrial coatings, flooring and new home materials, base materials, and construction services. 3TREES has been listed on the A-shares main board of the Shanghai Stock Exchange in 2016, named as one of the Hurun China top 500 private enterprises in 2019, became the exclusive supplier of official coatings for the Beijing 2022 Winter Olympics and Paralympics Games in 2020, ranked first in the paint industry on the list of "China's Top 500 Most Valuable Brands" in 2023, ranked 8th on the global list of architectural decorative coatings and 1st in China in 2023. 3TREES is headquartered in Putian, Fujian Province, with centers established in Shanghai, Guangzhou and Beijing, and 13 production bases in Fujian, Sichuan, Henan, Tianjin, Anhui, Hebei, Guangdong, Hubei, Jiangsu. The Putian Eco-Industrial Park and Sichuan Eco-Industrial Park have been rated as national "Green Factories." With over 10,000 employees and nearly 40,000 partners around the world at present, 3TREES has expanded into an enterprise group that wholly owns and holds 35 companies.

Technology changes the world, and innovation drives the future. 3TREES currently has more than 1,000 scientific research and technical personnel, and has established more than 60 technology innovation teams, with Professor Jean-Marie Lehn, a Nobel Prize winner in Chemistry, serving as chief technical advisor. 3TREES has also undertaken various important cutting-edge scientific research projects like the national "863" program and provincial and municipal science and technology planning projects, establishing industry-university-research cooperation with scientific research institutes such as the Chinese Academy of Sciences, Tsinghua University, Fudan University, Xiamen University, and East China University of Science and Technology, and achieving a number of industry-leading scientific research results. 3TREES has built a complete scientific research and technology research infrastructure, with four major R&D platforms (nationally recognized enterprise technology center, post-doctoral research work station, academician expert work station and CNAS nationally recognized laboratory), along with six major R&D centers (headquarters R&D center, Shanghai global R&D center, four regional R&D centers). The headquarters R&D center spanning over 6,000 square meters is equipped with more than 200 sets of high-performance scientific research equipment. 3TREES is a pioneer in formulating new health+ standards with continuous upgrades, has participated in the formulation of 111 national and industry standards, possesses more than 750 authorized patents, has developed more than 30 first-level confidential formulas and published 146 papers in major technical journals. 3TREES earnestly engages in practicing the core values of "being user-centered, building win-win cooperation with partners, and sharing with strivers," fostering the concept of "ultimate health, ultimate performance, ultimate application, ultimate cost," developing "three new" products with new materials, new generations and new applications, so that 3TREES healthy products can be used wherever a structure comes into contact with the air. At present, over 10,000 products have been developed to meet the demand of users for one-stop solution on green building materials for an entire house.

Resources will exhaust someday, but culture will thrive forever. Since day one, 3TREES has been contemplating about a corporate culture system that integrates heaven, earth and people. The first edition of the white paper on corporate culture was compiled in 2003, followed by enrichments and additions to keep pace with the times. The Taoist philosophy about nature and ecology has become a calling card of 3TREES. Internally, the cultural satisfaction rate of employees reaches an incredible 98.3%, and externally the 3TREES culture attracts tens of thousands of people to visit, learn and conduct exchanges every year. 3TREES provides 37 benefits to employees, has built a 360 ° family culture of "motherly care," and created a mechanism of co-creation, sharing, win-win and inclusive affluence, resulting in a continual influx of international elite talents that choose to join 3TREES for the common endeavor.

Respect for nature, compassion for humans, may life flourish forever. 3TREES proposes the "respect for nature, compassion for humans" CSR concept in our role as a noteworthy member of the corporate world that endeavors to shoulder social responsibility, protect the environment and build a beautiful homeland. 3TREES chairperson Mr. Hong Jie and companies 3TREES has invested in insist on public welfare and have dedicated tremendously to various types of charitable programs, with cumulative contributions amounting to over RMB 270 million. 3TREES founded the Putian Municipal Talents Development Foundation for the purpose of cultivating human resources, and it operates in tandem with the 3TREES Public Welfare Foundation, Worry-free Foundation for alleviating worries and difficulties among 3TREES employees and partners, Jin Miao Foundation founded personally by Hong Jie for education assistant and supporting the poor, orphans and widows, so as to foster an environment of love and care. 3TREES has been honored by the All-China Federation of Industry and Commerce as Precision Poverty Reduction Advanced Private Enterprise in the National "Ten Thousand Enterprise Aid Ten Thousand Villages" campaign and a COVID Combat Advanced Private Enterprise, while chairperson Hong Jie has been named a National Poverty Reduction Advanced Individual by the CPC Central Committee and State Council. With its outstanding performance and outstanding results in ESG (environment, society and corporate governance), 3TREES received an "A" ESG rating, ranking first in the A-share coatings segment.

SUPPORTING THE EARTH AND GREENING THE WORLD

Never forgetting the original aspiration, striding forward in pursuit of dream. Remembering the beautiful original aspiration of a company founder and embracing the patriotism of a Chinese enterprise, 3TREES will always persist in cultural confidence and strategic composure, stay abreast of the progress of the times, persevere in green development, provide innovative products and services, cater to the demands for ideal life among the public, contribute to the country's carbon-peak and carbon neutral targets, joint prosperity, rural vitalization and other goals, and realize high-quality and sustainable development of the company.

3TREES CORE COMPETENCES

- 1

Outstanding culture management system: Unique and sophisticated corporate culture that emphasizes on the Taoist philosophy of nature;
- 2

Unrivaed brand: Ranked 8th in global architectural decorative coating in 2022 and exclusive and official coating supplier of the Chinese Olympic Committee;
- 3

Public company: A-shares listed on main board of Chinese stock exchanges, and valuation ranks in the top ten among public coating companies worldwide;
- 4

Elite group of partners: Global network of channels with nearly 30,000 dealers, cooperation with large-scale central state-owned enterprises, state-owned enterprises and top hundred corporations, and partnership with the industry's global top five suppliers;
- 5

Distinguished team: A corps of remarkable talents noted for advanced education background, professionalism and young age;
- 6

Leading R&D platform: Immense research and development investment and capacity, corporate technology center certified by the state, post-doctoral scientific research work station, academician work station, inspection center and global R&D center approved by the state, and a technical team comprising some thousand technicians;
- 7

Healthy product system: Researched and developed 10,000 products and formulated "healthy+" corporate standards more stringent than international standards;
- 8

Full-channel service systems: Established construction and execution service system, the turnkey "Immediate-move-in"decoration service system, beautiful home special service system and 361 ° dealer service system;
- 9

Comprehensive supply chain structure: Completed nationwide layout of factories in areas such as Fujian, Sichuan, Tianjin, Henan, Anhui, Hebei, Guangdong, Hubei and Jiangsu, built national-level green factories, and constructed a green, smart and ecological supply chain;
- 10

Advanced intelligent system: Passed China's first group of informatization and industrialization integration system standard implementation evaluation, promoted digitized transformation including digitization of business, intelligentization of company and industrialization of digital technology, and built an industry-leading digitized coatings ecology.

PRODUCT INTRODUCTION

3TREES ALWAYS FOCUSES ON WONDERFUL LIFE AND HEALTHY HOME ATMOSPHERE.

SEVEN-IN-ONE ENGINEERING PRODUCT SYSTEM

PRODUCT INTRODUCTION

3TREES ALWAYS FOCUS ON WONDERFUL LIFE
AND HEALTHY HOME ATMOSPHERE.

Wonderful Life Solution

1

Interior Wall Painting

3TREES Allows You to Live in Your New Home Within 8 Hours

• BB Paint Series • Fresh Breath Series • 360 Series • China-Chic Series • Pure Taste Additive-Free Series
• Kangjia Pure Taste Series • Zhenshili/Yuebai Series • Wonderful Life/Senxuan/Senhengjia Series

2

Art Painting

Art, making life better

• National Stone Series • National Color Series
• China-Chic Series • Zhenxuan Series • Classic Series

3

Putty Powder

A good base makes a good top

• Mortar • Interior Wall Putty • Exterior Wall Putty • Gypsum

4

Base And Auxiliary Materials

A healthy wall is layered by environment-friendly materials

• Base Material • Auxiliary Material

5

3TREES Xiaosen Decorative Board

Healthy 3TREES Paints & Xiaosen Boards for Immediate Move-in

• Kechuang Board • Anxin Board • Kangxin Board • Jingci Board

6

Wood Lacquer

• Waterborne Wood Paint • Multifunctional Paint

7

Exterior Wall Painting

3TREES, the preferred provider of exterior wall stone-like paints

• Multi-Color Paint • Textured Paint • Constant Colored Stone
• Natural Stone Paint • Latex Paint • Decorative Components

8

Insulation System

• Insulation Board • Integrated Board • Special Base & Auxiliary Materials

9

Floor System

• Epoxy Floor • Polyurethane Floor

10

Bonding And Aeling

3TREES offers you good adhesives

• Grout Sealer • Polystyrene Foam • White Emulsion
• Silicone Adhesive • Dry Hanging Adhesive

11

Waterproof Paving

Technology-based waterproofing, lasting safety

• Ceramic Tile Adhesive • Rubber Adhesive • Ceramic Tile Backing Adhesive

INTERIOR AND EXTERIOR WALL PAINT PRODUCT SYSTEM

INTERIOR WALL PAINT

ORDINARY INTERIOR WALL LATEX PAINT

3TREES Interior Wall Latex Paint is produced with internationally leading film forming technology, healthy and environment-friendly raw material formula, and imported fully automated clean production process. The paint film is smooth, colorful, long-lasting and bright, with excellent scrub resistance, high hiding power, easy construction and other powerful features.

HEALTH+ INTERIOR WALL LATEX PAINT

3TREES "Health+" Interior Wall Latex Paint is compliant with environmental standards which are higher than the health and environmental production standards of the United States, France and the China Environmental United Certification Center, and meets the eight environmental indicators of 3TREES "Health+", ensuring the indoor air quality, creating a healthy home atmosphere, and keeping a fresh and healthy indoor environment. Its healthiness and performance are much higher than ordinary interior wall latex paint products.

ART PAINT

3TREES Art Paint is integrated with personalized design, fashion and aesthetics, with different styles: rich and gorgeous, or light and variable, or concise and atmospheric, or luxurious and faddish. With innovative integration of environmental protection technologies, 3TREES Art Paint can create art-grade healthy home.

INORGANIC INTERIOR WALL PAINT

An environment-friendly inorganic interior wall paint is made of inorganic silicate as film-forming material, inorganic powders and functional additives.

EXTERIOR WALL PAINT

GRANITE PAINT SYSTEM

3TREES granite paint and imitated granite look like real ones, achieving the effects of various stones in architectural decoration to a certain extent. Compared with other traditional stone, it has superior comprehensive performance and longer service life, making it suitable for the decoration and protection of the walls of high-end buildings such as villas, hotels, high-end office buildings, and financial buildings.

CONSTANT COLORED STONE PAINT SERIES

3TREES constant colored stone paint series is a stone-like coating with natural granite effect, which is carefully made with super weather-resistant emulsion, flexible polyester chips, special additives and other auxiliaries. Constant colored stone paint has many advantages, such as green and environmentally friendliness, convenient construction, realistic granite-imitating effect, renewable raw materials and so on, and its weather ability reaches more than 2500h.

NATURAL STONE PAINT SERIES

3TREES natural stone paint has a natural, steady and elegant stone-like appearance, with firm adhesiveness. It possesses excellent comprehensive performance. Its decorative effect shows strong stone-like and European style. Nowadays, it is a popular decorative material for high-grade residential quarters, villas and public buildings, and can be used as a mineral material substrate for all smooth interior and exterior walls of buildings. Meanwhile, it is also an ideal surface decoration material for exterior wall thermal insulation series.

ROCK-CHIP PAINT SERIES

3TREES rock-chip paint is a water-borne thick coating made from environment-friendly emulsion polymer, natural marble aggregates which can form stone-like texture, composite rock chips, additives and other materials. Upon drying and solidification, the products sprayed with the paint can be hard as stone, with natural, steady and stylish appearance. The paint is an exterior wall coating with excellent weather ability, high stone likeness and outstanding performance. It is suitable for wall decorating and protecting buildings such as residential buildings, hotels, villas and high-grade office buildings.

TEXTURED PAINT SERIES

3TREES texture paint has an appearance of simplicity and profundity, with a highly humanistic atmosphere. With ever-changing 3D textures and diversified personalized combinations, it is widely used in buildings and well outperforms tiles. Together with a variety of grid designs, the product can create all kinds of 3D patterns. This new type of architectural coating can create special decorative effects, suitable for all kinds of complex shapes. It can showcase a unique spatial perspective and gives people a sense of solemnity, generosity and harmony.

RIGID LATEX PAINT SERIES

3TREES rigid flat coating latex paint series are made with high-quality acrylic emulsion, carefully selected rutile titanium dioxide and other pigments, fillers and additives and can be applied with multiple colors as required. The product can be constructed on the facade by using tools such as brushes, rollers and spray guns, which has a strong decorative and protective effect on the exterior wall.

ELASTIC LATEX PAINT SERIES

3TREES elastic flat coating product is made of high ductility elastic emulsion, mixed with various pigments, fillers and additives. The paint film has strong tensile properties and can be used to cover up small cracks in the wall. The product presents strong ductility and tensile strength in high and low-temperature environments, and can be used in a wide range of environments, especially suitable for climatic environments with large temperature differences.

WATERBORNE FLUOROCARBON PAINT SYSTEM FOR EXTERIOR WALLS

3TREES waterborne fluorocarbon system is made of high-quality fluorine-containing acrylic emulsion, and its unique C-F chemical bond has extremely high bonding energy, giving the paint film superb resistance to weathering, staining and chemicals. This system includes both solid color and metallic paints. The metallic paint is added with special metallic powder and special additives to give the paint film a gorgeous metallic color, making it very suitable for use with curtain walls on high-end office buildings, commercial hotels, and other buildings with high decorative requirements.

HEAT-REFLECTING & INSULATING SYSTEM

The heat-reflective insulating coating product system of 3TREES is based on the concept of "technology, energy conservation, grade and nature", with satisfactory thermal insulation effect. The product system includes five major product categories: flat coating, elastic, natural stone, textured and granite. Paired with heat-reflecting & insulating floating coat, it is applicable to the decoration and energy-saving insulation coating system of exterior walls and pipelines of commercial buildings, villas and hotels, and residential buildings in all kinds of public and private constructions.

INORGANIC EXTERIOR WALL PAINT

A high-performance inorganic mineral exterior wall paint, with inorganic silicates used as film-forming material and added functional fillers and additives, is suitable for coating various types of building facades, such as industrial plants, bridges, tunnels, schools, hospitals, residential buildings, hotels, and urban renewal.

WATERPROOF PRODUCT SYSTEM

CUTTING EDGE WATERPROOFING TECHNOLOGIES FOR DURABILITY AND SECURITY

With the mission of "empowering and making the buildings better", adhering to cultural confidence and strategic strength, 3TREES Waterproof constantly provides users with innovative products and touching services on the basis of the resources of the Group. It has signed strategic cooperation agreements or established cooperative partnerships with more than one hundred of Top 100 real estate and public construction enterprises. Never forgetting the original intention and forging ahead. 3TREES Waterproof has always practiced and promoted the route of green building and technology-based waterproofing, and is committed to creating a leading brand of green and waterproofing products.

ASPHALT WATERPROOF MEMBRANE

- HOT-MELT
- SELF-ADHESIVE
- WET-LAID
- PRE-LAID

POLYMER WATERPROOF MEMBRANE

- HDPE POLYMER WATERPROOF MEMBRANE
- RUBBER POLYMER MEMBRANE
- TPO POLYMER WATERPROOF MEMBRANE

WATERPROOF PAINT

- CEMENT-BASED WATERPROOF PAINT
- ACRYLIC WATERPROOF PAINT
- POLYURETHANE WATERPROOF PAINT
- ASPHALT WATERPROOF PAINT
- POLYUREA WATERPROOF PAINT
- SPECIAL WATERPROOF PAINT

FLOOR COATING PRODUCT SYSTEM

EPOXY FLOOR SYSTEM

WATERBORNE EPOXY SYSTEM

Completely water-based system, environmentally friendly

Dustproof, moisture-proof, wear-resistant, easy to clean

High breathability, suitable for construction in humid environment

Paint film with soft lustre, resistant to corrosion by acid, alkali, salt and oil

EPOXY MORTAR FLOOR

Seamless, dustproof, high decorative effect

Resistant to general chemical corrosion

Wear-resistant, easy to clean

Fast construction, little odor

EPOXY SELF-LEVELING SYSTEM

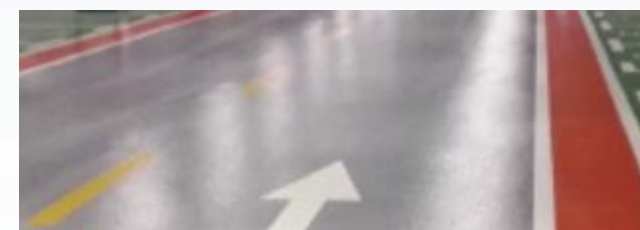

Smooth and beautiful surface, up to mirror effect

Dustproof, moisture-proof, wear-resistant, medium load, easy to clean

Fast construction, little odor

Resistant to general chemical corrosion

EPOXY TEXTURED NON-SLIP FLOOR

Textured surface effect, anti-slip

Resistant to corrosion by acid, alkali, salt and oil

Resistant to wear, pressure and impact

POLYURETHANE FLOOR SYSTEM

SOLVENT-FREE POLYURETHANE FLOOR

Curable at low temperature

Resistant to corrosion by acid, alkali, salt and oil

Resistant to wear, pressure and impact

Wide adjusting range of hardness, elasticity, and strength

ACRYLIC POLYURETHANE FLOOR

Excellent light and weather resistance

Strong adhesion

Wear-resistance

Impact resistance

INORGANIC FLOOR SYSTEM

WEAR-RESISTANT AGGREGATE FLOOR

Class A fire protection

Zero VOC, hard and wear-resistant

Significantly extended ground life

HARDENER FLOOR

Class A fire protection

Zero VOC, hard and wear-resistant

Significantly extended ground life

Resistant to crushing and pressure, dust-free

Simple construction, high efficiency, and low cost

FUNCTIONAL FLOOR SYSTEM

POLYURETHANE SUPER WEAR-RESISTANT FLOOR

Excellent wear and scratch resistance

High toughness and impact resistance

Excellent light and weather resistance

Strong adhesion to substrate

Texture effect, excellent anti-slip performance

STATIC CONDUCTIVE FLOOR

Fast leakage of static charges

Resistant to wear, pressure and impact

Smooth and beautiful surface, up to mirror effect

Resistant to corrosion by acid, alkali, salt and oil

ANTI-STATIC FLOOR

Excellent and long-lasting anti-static effect

Resistant to wear, pressure and impact

Smooth and beautiful surface, up to mirror effect

Uniform resistance, high stability, no blind spot

Resistant to corrosion by acid, alkali, salt and oil

EPOXY COLORED SAND FLOOR

Colorful, strong decorative effect

Simple construction, long service life, convenient refurbishment

Solvent-free system, compliant with environmental protection requirements

High cleanliness, no splicing marks

Resistant to wear, scratch, heavy load, strong pressure and impact

INDUSTRIAL ANTI-CORROSION PAINT PRODUCT SYSTEM

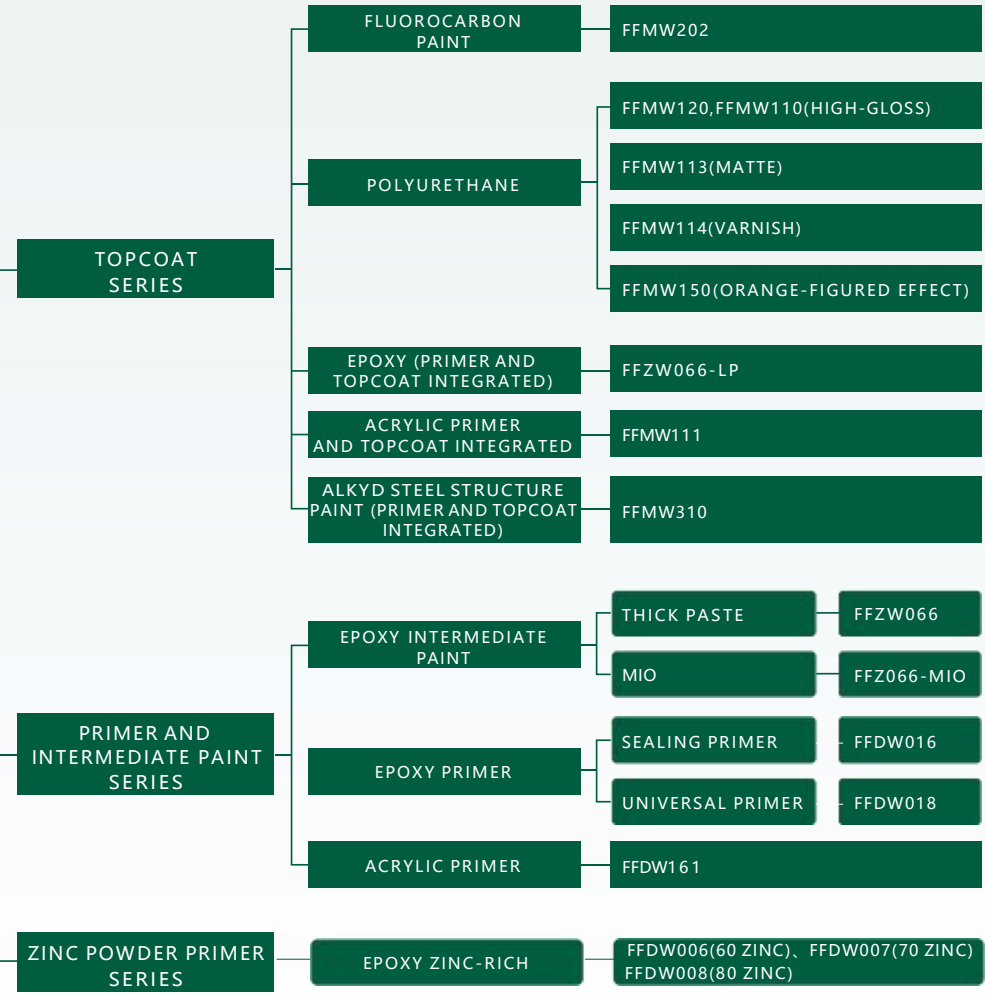

1 APPLICATIONS Mainly for the protection of steel structures and concrete facilities

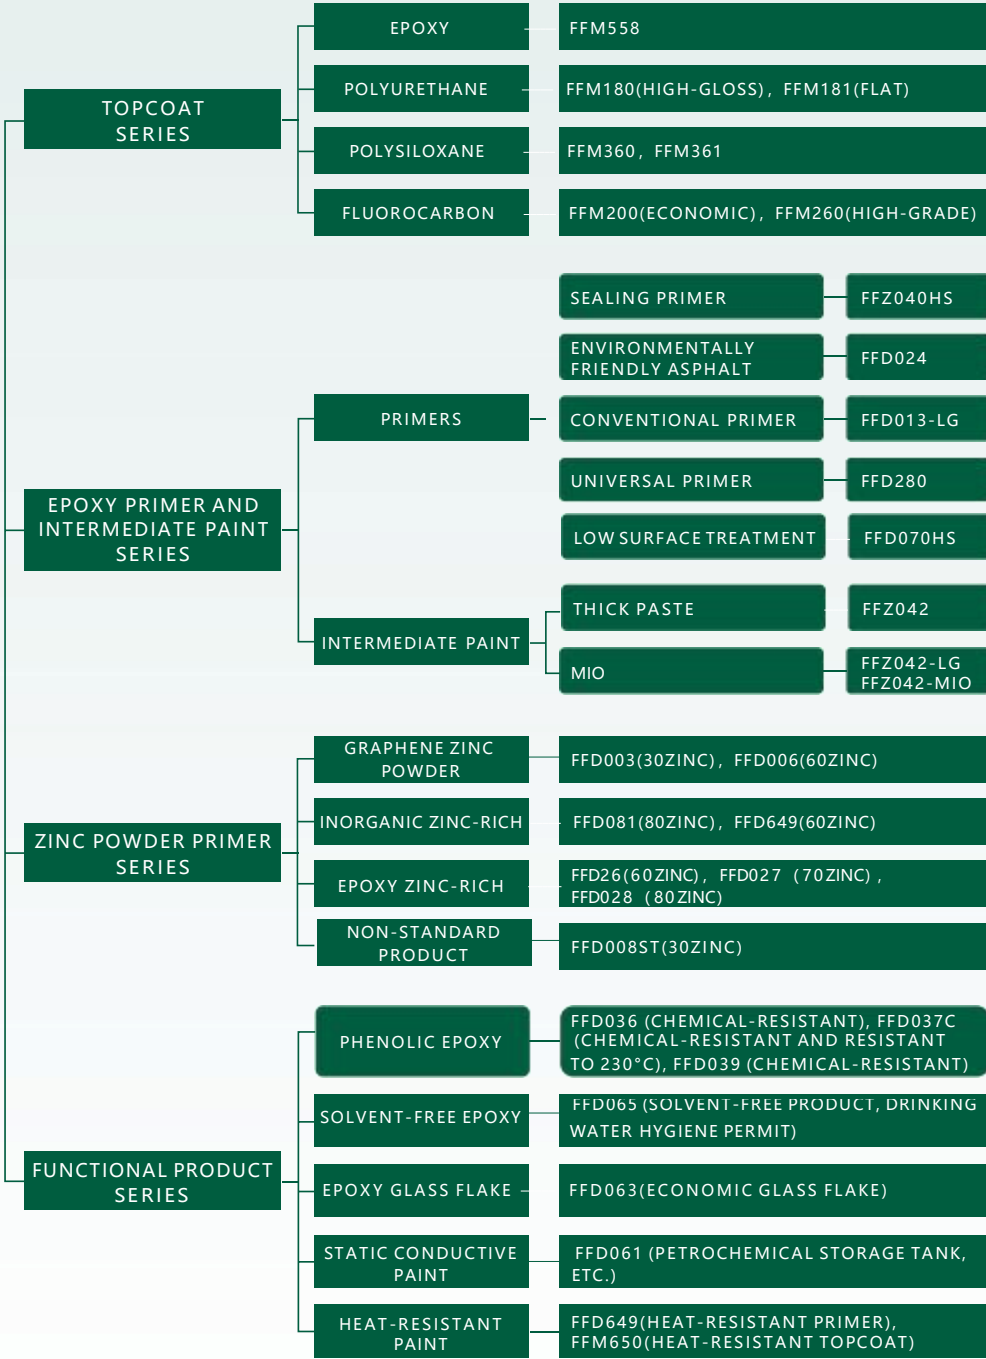

2 MARKET SEGMENTS Infrastructure, petrochemicals, power and energy, industrial equipment

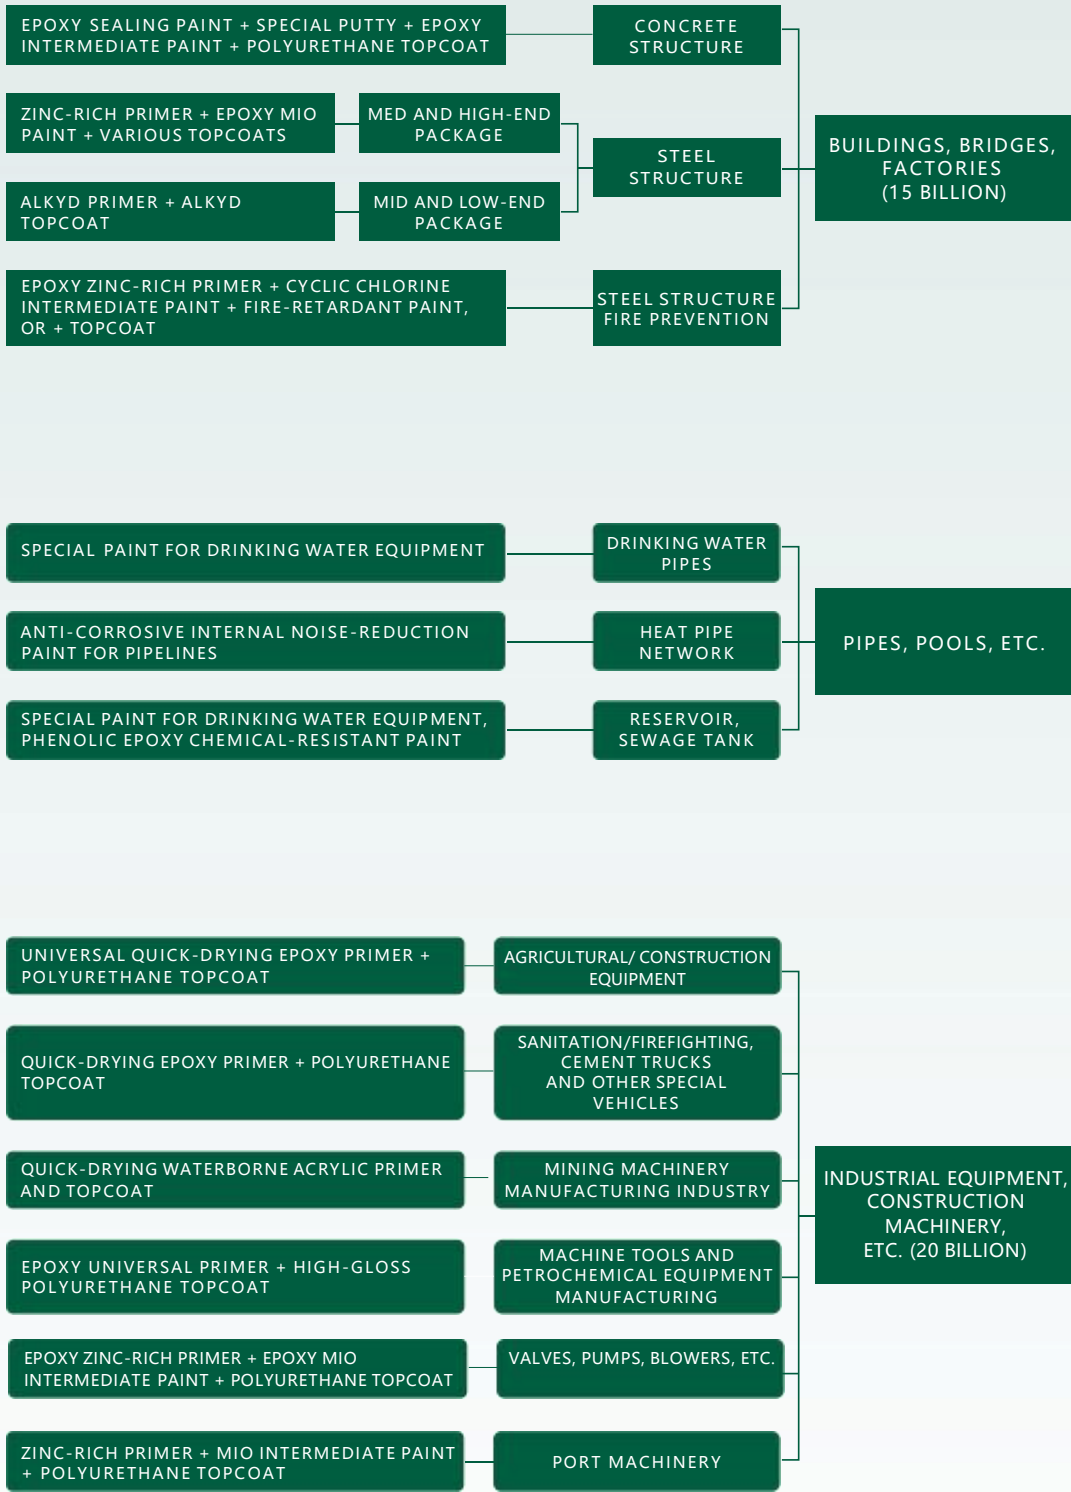

3 WATER AND OIL Cover more than 90% of anti-corrosion products on the market

WATERBORNE ANTI-CORROSION PAINT

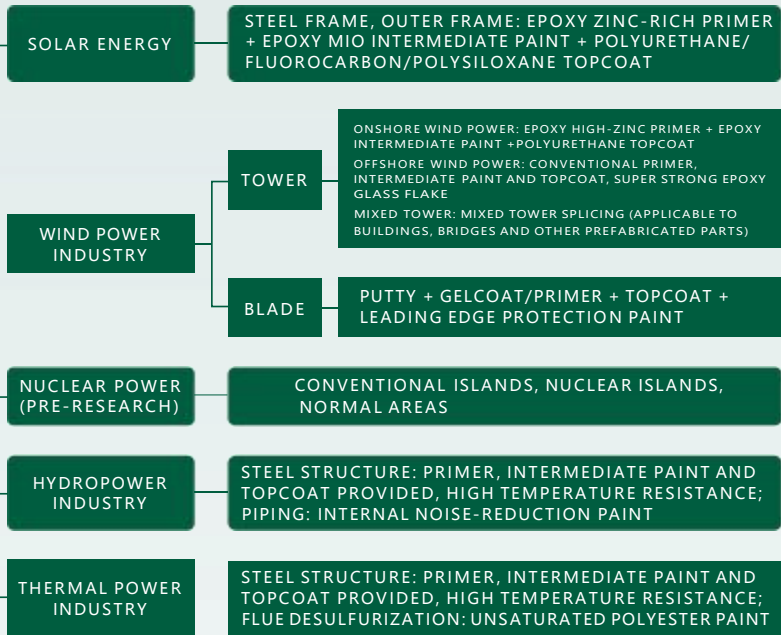

SOLVENT-BASED ANTICORROSIVE PAINT

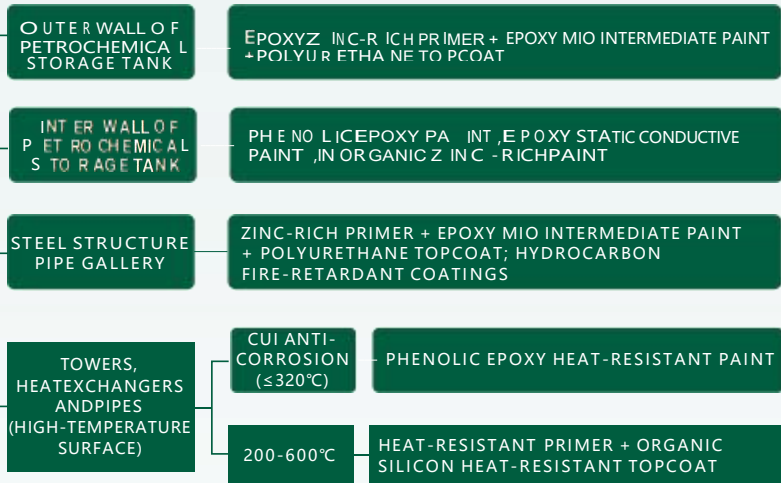

APPLICATION SCENARIOS OF INDUSTRIAL PROTECTION PRODUCTS

ENERGY INDUSTRY (12 BILLION)

PETROCHEMICAL INDUSTRY (10 BILLION)

NEW AUTOMOTIVE MATERIAL (500 BILLION)

NEW AUTOMOTIVE MATERIAL DIVISION

INSULATION PRODUCT SYSTEM

Five insulation product systems cover auxiliary, insulation and finishing materials, achieving the purpose of coating and protection integration, contributive to the implementation of green and low-carbon buildings.

FIVE INSULATION PRODUCT SYSTEMS

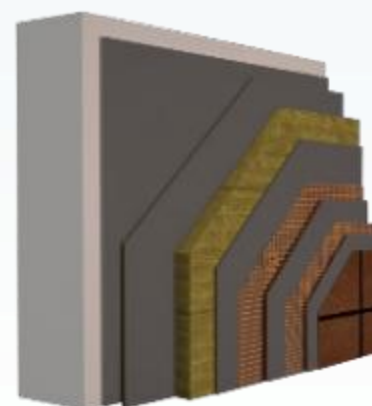

Integrated Panel System For Exterior Wall Insulation And Decoration

- RADIANT INSULATION DECORATIVE BOARD
- ANCHORED INSULATION DECORATIVE PANEL
- SANDWICH INSULATION DECORATIVE BOARD
- ROCK WOOL INSULATION DECORATIVE BOARD
- GRADE A POLYSTYRENE INSULATION DECORATIVE BOARD
- DRY HANGING DECORATIVE VENEER
- SPECIAL BONDING MORTAR + SEALANT

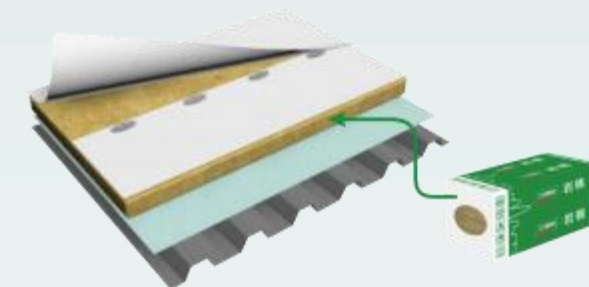

Exterior Wall Insulation System

- ROCK WOOL THIN PLASTERING SYSTEM
- POLYSTYRENE BOARD THIN PLASTERING SYSTEM
- SYSTEM SUPPORTING BONDING/PLASTERING MORTAR
- CURTAIN WALL ROCK WOOL

Roof Insulation System

- ROOF ROCK WOOL
- HIGH-DENSITY GRAPHITE BENZENE BOARD

Interior Insulation & Decoration System

- INORGANIC PASTE INTERNAL INSULATION SYSTEM
- ANTIBACTERIAL CLEAN BOARD SYSTEM
- TUNNEL INORGANIC PRE-COATING BOARD SYSTEM
- INTERIOR DECORATION SYSTEM OF FORMALDEHYDE-FREE ROCK WOOL + KECHUANG & JINGCI BOARDS

Integrated Insulation Structure System

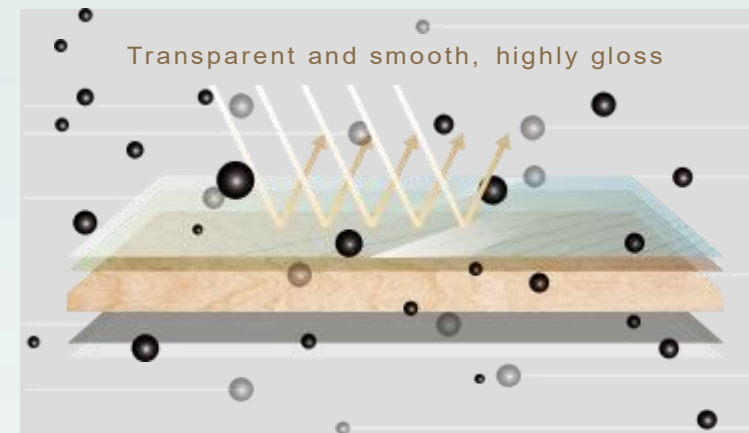

- INTEGRATED CAST-IN-PLACE BUILT-IN INSULATION STRUCTURE
- INTEGRATED INSULATION STRUCTURE WITH NON-DEMOULDING FORMWORK

3TREES XIAOSEN DECORATIVE BOARD PRODUCT

High-grade products	Solid wood veneer finish	3TREES Xiaosen Sci-Tech Decorative Board	1. Green and environment-friendly, formaldehyde-free 2. Standardized production with slight color difference
Mid-grade products	UV-3D finish	3TREES Xiaosen Anxin Board	1. Green and environment-friendly, up to ENF grade 2. Standard production, less color difference 3. Super cost-effectiveness
Popular products	Melamine paper finish	3TREES Xiaosen Kangxin Board	1. Formaldehyde-free, green, safe 2. Door-wall-cabinet integrated, constructing more space 3. Stable performance, antibacterial
Engineering products	Imitated-wood /ashlar wood wainscot board	3TREES Xiaosen Crystal Porcelain Board	1. Green and environment-friendly, formaldehyde-free, healthy 2. Inorganic material, Class A fire-proof, moisture-proof 3. Prefabricated construction, low-priced, cost-effective
Adhesive products	Board adhesive	3TREES Xiaosen Green Core latex	1. High-performance water-based environmentally friendly formaldehyde-free adhesive 2. Applicable to the production of composite board, block board, engineered wood substrate 3. Excellent in water resistance, strength and engineered wood veneer toughness

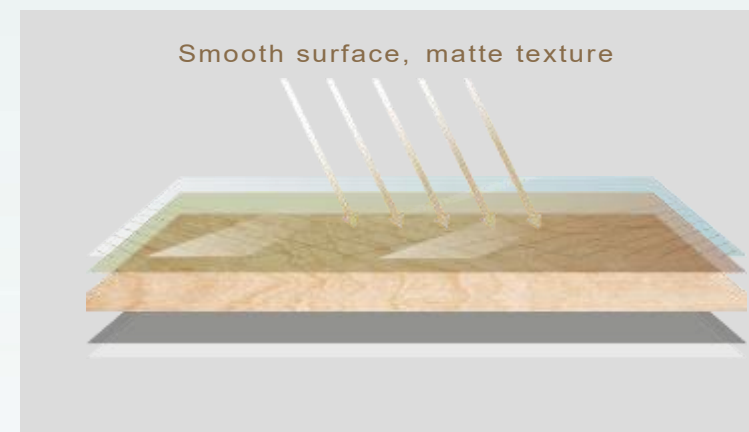

SURFACE TECHNIQS

HIGH-GLOSS FINISH

Lacquer lustre, durable in use

Highly restore the artistic beauty of precious solid wood and natural stone, bright in color, highly glossy, moisture-proof and durable, smooth in surface, and easy to clean.

MATTE FINISH

Elegant and transparent, with a matte texture

The surface is smooth and delicate, presenting fine textures; soft polishing gives it a matte effect, transparent and textured, and perfectly colored.

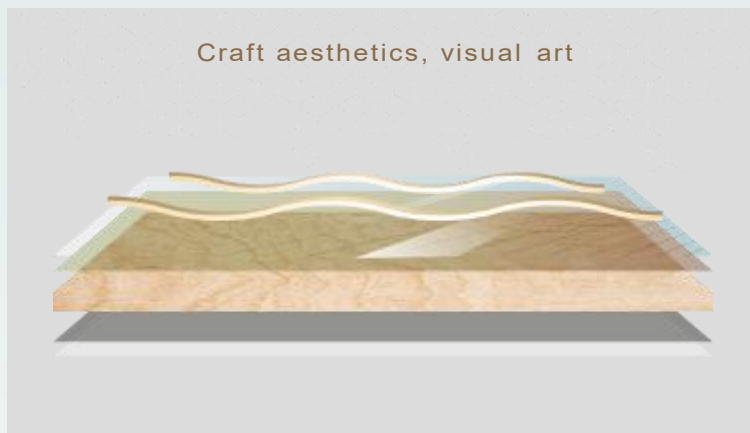

OPEN FINISH

Natural texture, fresh and cool

Maximally retain the natural sense of original wood, realistically restore the solid wood texture, with soft feeling, creating a calm, elegant, relaxed and comfortable atmosphere.

Craft aesthetics, visual art

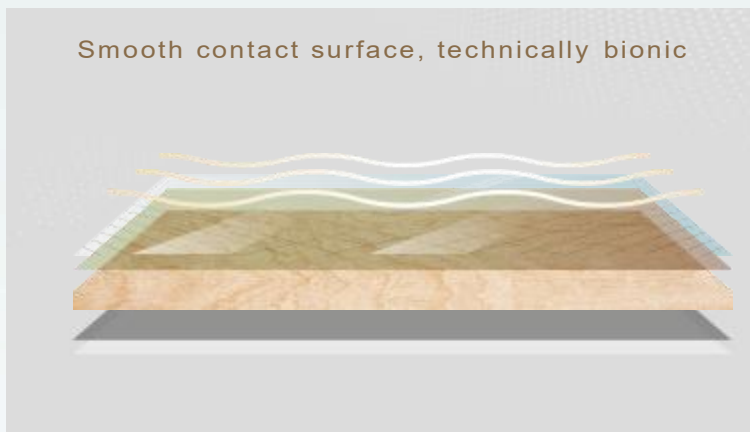

3D/UV-3D FINISH

Authentic touch, changing with light

3D textured coating effect, endowing the patterns with vibrant colors, alternating between light and dark, well-proportioned, with excellent slipping and wear resistance.

Smooth contact surface, technically bionic

SKIN-LIKE FINISH

As bright as new, easy to clean

Unique paint film-forming process, creating an airy and skin-like atmosphere; light, smooth and flexible texture, effectively preventing handprints, sweat residue.

Your Home Health Guard

ANTIBACTERIAL AND ANTIVIRAL FINISHES

Invisible barrier to protect health

The paint contains special antibacterial ingredients, forming an effective protective film on the surface and inhibiting the breeding of bacteria and viruses, to create a healthy living environment.

* More finishes are available on request.

PRODUCT SYSTEM OF AUXILIARY MATERIALS

SIX MAJOR PRODUCT SYSTEMS OF BASIC AND AUXILIARY MATERIALS
