

THE LUXURY STONE BRAND

“Marble is like a diamond: absolutely perfect if it’s the right colour, with no defects, and well cut. Excluding one of these components it immediately loses its value.”

**Tetyana Kovalenko, Elite Stone Group
CEO**

PROJECT DIVISION
Engineering & production for
Ultra Luxury Stone projects

Processing of blocks of
own quarry and most im-
portant quarries into slabs,
exposition and trading of
slabs

High-end project develop-
ment showroom and slabs

calacattamarble

We have collaborated on the most beautiful extra-luxury projects in the world. We boast the supply of marble and projects for many private residences, hotels, luxury boutiques, jewellers, yachts and commercial buildings.

Unfortunately, with the exception of very few permissions, we cannot share information and images of all the wonderful projects we have been part of. The private world of luxury is covered by strict confidentiality agreements.

Among our Public and Corporate Projects Portfolio

P.I.F. Tower - Riyadh

Kotel Sinagogue - Jerusalem - bespoke backlit floating flooring with White Onyx Alabaster Gold

glass façades for the Theater Foyer
Planeta Mall - Novosibirsk - Russia

THE ULTRA LUXURY STONE BRAND GROUP

Elite Stone Group is the ultra luxury natural stone Brand, producer from its own quarry and from the most exclusive quarries the best high quality stones for the most prestigious projects of high end residential, luxury hotellerie, exclusive retail and the finest superyacht industry in the world. Elite Stone Group was born in Carrara, the world cradle of luxury marble production. The history of our marble began in 1505, year in which Michelangelo Buonarroti went to Carrara to buy the marble for realizing his masterpieces such as the “David” and the “Pietà” right at our Group quarry: Cava Ruggetta in the heart of the Apuan Alps on Mount Crestola (today so called Cava Borghini) as certified from the National archives of Massa city: “In the Alpa de Carrara in loco dicto a Rugeta”.

CAVA RUGGETTA - BORGHINI, our Group Quarry extracts the finest marble types of the Apuan Alps : Calacata Borghini - Statuario -Calacatta Imperiale - Blue Crestola and Bardiglio - representing for the worldwide architectural Elite Firms the top luxury materials for Interior Design.

ES ELITE stone ES

ELITE STONE - SLAB DIVISION

Elite Stone is producer of high end marble slabs and supplier for the main distributors in the Stone Field of ultra luxury stones of the 5 continents.

Elite Stone production represents the combination of the Group know-how and expertise in the production of stone, the use of the best processing avant-garde technology on the market and the savoir faire of the Italian craftsmen processing marble according to the finest artistic Italian tradition.

Elite Stone Group is unique in the Stone Business because provides turn to key luxury projects starting from the stone extraction, through the direct transformation of the material into high quality Made in Italy slabs realizing the finished product according to any design complexity, taking care then of the full management of the high end stone project from its birth to its completion.

Nowadays Elite Stone Slabs Showroom represents in Italy the widest Collection of luxury Italian white marbles slabs over a huge variety of more than 200 types of colorful exotics for a stock of more than 120.000 m².

CALACATTA MARBLE - M.E. DIVISION IN DUBAI

Our established relationships with Gulf countries and the desire to bring Italy into a rapidly developing area led us to open a new exhibition space in the United Arab Emirates in 2023. For the first time in history, a direct Italian manufacturer has opened a slab warehouse and showroom in Dubai. Located in JAFZA, near Jebel Ali port, there is now a new office with a large exhibition of our luxurious slabs exclusively made in Italy, including our finest white marbles, colored marbles and onyxes which can be viewed and purchased.

ES ATELIER - PROJECT DIVISION

ES Atelier provides 360° support for designers and customers, starting from the development of a design concept, to its concrete realization through the engineering and cutting of the raw material, up to the installation in its final location.

The Es Atelier team is composed of highly skilled Project Managers, Engineers and Architects, who with their design, construction and managerial experience are able to oversee the most bespoke projects; from the very beginning to the end.

PHILANTROPIC ACTIVITY:

Since its birth our Group invests in innovation and culture, sponsor exhibitions and events for artists, sculptors and architects as in the times of the Renaissance the Patrons used to do with Michelangelo. This is why in 2018 Elite Stone Group lends the scene of Ruggetta quarry to the film maker Imbucci for the realization of the movie “Michelangelo Infinito” worldwide distributed by Lucky Red - produced by Sky. Elite Stone cares a lot about promoting the stone culture in the world and with this esprit as certified member of R.I.B.A. (Royal Institute of British Architecture and Arts) has started a stone training program oriented to Architectural and design Studios of UK transferring the knowledge of the Stone World in all its details from the technical features of the different materials to their applications till the examination of the different types of specific projects study cases.

ECO - SUSTAINABILITY/GREEN POLICY

Since Our Company works with natural products we particularly care of green aspect of all phases of our production - from Quarry to exposition area trying to limit or exclude completely any ambience impact. Inside its processing cycle Elite Stone recovers wastage and offcuts of marble, not only own but also of other companies of stone industry. For example new flooring and many finishing inside new exposition area (17.000 sqm) are entirely produced out of discharge product, recycling in this way 100% of natural stone and reducing considerably ambience impact. To contrast pollution Elite Stone uses solar panels and only ecological materials excluding Plastic and other potential harmful materials.
