tutorials, features, and real
workflows in action.

SEAMLESS DESIGN OF **ALL** INTERSECTIONS

Create all kerb returns
automatically in just seconds.
Instead of manually drafting
each corner, Civil Site Design
generates them instantly with
consistent geometry and full
accuracy, saving you hours of
repetitive work on every project.

DESIGN • ANALYSE • VISUALISE • DELIVER
Corridor *EZ* for Civil 3D

AUTOMATE YOUR ROAD DESIGN WORKFLOW!

AUTOMATIC CALCULATIONS

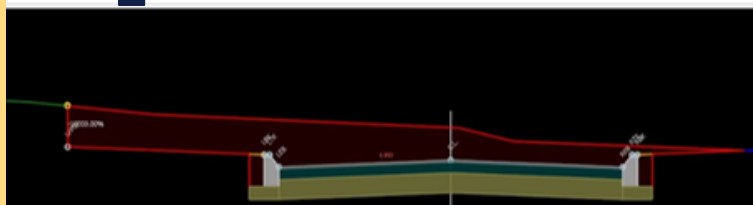

Save time and eliminate manual errors with automatic calculations built into Civil Site Design. Quantities, levels, geometry, and design updates are calculated instantly, giving you fast, accurate results as your project evolves.

CORRIDORS WITH ONE CLICK!

Design dynamic corridors that update instantly as your project evolves. CSD automates corridor creation and keeps everything connected, so any change is reflected across the entire model without rework.
