Automatic Symbol GENERATION

Automatically convert survey points into meaningful symbols such as trees, poles, and features. Stringer Topo assigns and scales symbols based on your data, eliminating manual placement and saving valuable time.

AUTOMATIC LEGEND & TABLE CREATION

Automatically generate legend tables from your survey data, including codes, symbols, and descriptions. Stringer Topo creates clean, organized tables instantly, saving time and ensuring consistency across your drawings.

Satellite Image on Survey Data

Generate accurate surfaces directly from your survey data, helping you visualize terrain and move forward with design faster.

LEGEND TABLE		
CODE	LINE/SYMBOL STYLE	DESCRIPTION
BCK		KERB BACK
