

Door&Window Aluminum Profiles have a wide range of applications in residential, commercial, and industrial buildings. They are commonly used for aluminum doors, windows, curtain walls, sliding systems, and facade frames. With excellent strength, corrosion resistance, and clean appearance, aluminum profiles are ideal for modern architectural projects.

Aluminum Alloy: 6063-T5, 6061-T6

Thickness: 0.7-2.0mm

Weight: customized according to die drawing.

Length: 5.85M loaded in 20' or 6M loaded in 40' .
