**Printed Tinplate/ Unprinted Tinplate/ Lacquered Tinplate** - Scan Holdings is a competitive and leading exporter for Printed and lacquered Tinplate that is used in the manufacturing of metal Cans and Lids/Bottoms for packaging of food, beverage drinks, paint, and aerosol.

With almost 30 years' experience in Tinplate/TFS Can & End Making technology, Scan Holdings / Victory Food Specialities FZE understands the importance of high-quality tinplate, high lacquer integrity (quality) and precision lithographic with exact color matching. So many of our customers prefer to directly buy lacquered and printed tinplate/TFS from us and avoid the administrative hassles and cost of first buying tinplate and later sending them to an agency for printing and/or lacquering.

**Penny Lever Lids/ Ring Lid tagger Assemblies** - Made from Prime Tinplate's. Aluminum foil (tagger) is especially lacquered for powder packing.

Size Range (Diameter): 300 (73mm), 401 (99mm), 502 (127mm), 603 (153mm)

**Paint Components (Top and Bottoms)** - Tinplate Components - Empty Paint Tin Can Components Bottom, Lid, ring

Size Range (mm): 105, 165, 175

**2 Punch Sanitary Can Bottoms/Lids** -The "2 Punch Sanitary Can Bottoms/Lids" have multiple advantages:

- a. Economical alternative to SZO for cost sensitive markets. Just punch using a nail, pour and consume.
- b. Suitable for packing evaporated milk
- c. Suitable profile for packing condensed milk
- d. Suitable to pack tomato paste

The three products mentioned above have different technical requirements. However, Scan Holdings / Victory Food Specialities FZE developed the above sanitary can ends such that they are able to pack them all. This innovation has allowed the customer to have common inventory and prevent seamer changeovers. Based on specific requirements of our customers, we deploy our expertise and intelligent technical ideas, to empower clients to achieve their objectives successfully. These 2 Punch Sanitary Can Bottoms/Lids have now been successfully used in the market for quite sometime.

Presently, we offer this type of Ends in two sizes 63mm (209 diameter) and 73mm (300 diameter). It is possible to develop other sizes as per customer requests.

**Easy Open Ends/ EOE/ EZO: Irregular Shapes:** Available in oval, Rectangular and Pear Shapes. Most of the sizes are available.
