WHO WE ARE

AVEVA™ Select Saudi Arabia (ASS) drives digital transformation and innovation across the GCC, empowering industries with AVEVA's cutting-edge software solutions. ASS delivers software licensing, expert technical support, and comprehensive training programs, ensuring companies in key sectors can fully harness AVEVA's capabilities. These services help businesses streamline operations, boost sustainability, and achieve a competitive edge in an increasingly digital world.

Our unique approach involves an indirect business model, where we work closely with our approved and authorized list of system integrators (SIs) and ecosystems. We collaborate with trusted local experts to ensure the seamless deployment of AVEVA's software solutions, tailored to meet the specific needs of each industry. This model allows us to provide world-class technology through a network of partners who specialize in implementation, ensuring that the right stakeholders are involved at every stage of the project.

Representing AVEVA, a leader in industrial software solutions, ASS delivers a comprehensive range of solutions to businesses across industries like smart cities, manufacturing, energy, food & beverage, water & wastewater, and more. We empower industries with innovative tools designed to optimize every phase of their operations, ensuring efficiency, profitability, and sustainability in an increasingly competitive and digital landscape.

INDUSTRIES WE SERVE

1- Infrastructure

AVEVA™ delivers cutting-edge software tailored for the infrastructure sector, advancing sustainability, modernization, and operational excellence. Designed to aid organizations in reducing emissions and reaching net-zero goals, AVEVA's solutions prioritize minimizing waste, conserving resources, and optimizing energy usage. Their software empowers agile operations with rapid decision-making and seamless remote monitoring capabilities. By enhancing efficiency, lowering costs, and ensuring consistent service delivery, AVEVA™ helps infrastructure clients achieve robust and sustainable performance.

2- Food & Beverages/CPGs

AVEVA™ Solutions delivers exceptional value to the Food and Beverages/CPGs industry by driving end-to-end digital transformation, optimizing production processes, and enhancing supply chain agility and traceability. AVEVA's advanced software solutions enable better demand forecasting, real-time performance monitoring, and improved compliance with safety and regulatory standards, all while minimizing waste and supporting sustainability goals. With deep industry expertise, AVEVA empowers companies to streamline operations, increase profitability, and maintain a competitive edge in the fast-paced CPG market.

3- Power and Utilities

AVEVA™ provides software solutions that enhance the efficiency and resilience of the power and utilities industry, supporting a sustainable future. By lowering installation costs, minimizing unplanned outages, and maximizing output, AVEVA™ helps utility companies meet the demands of an increasingly electrified world. AVEVA's solutions enable a shift to greener energy sources, optimize renewable generation, and promote compliance with evolving regulations. AVEVA software improves CAPEX efficiency by providing visibility and control over budgets and schedules, allowing companies to optimize profitability while reducing carbon emissions.

4- Chemicals

AVEVA™ helps the chemicals industry address key challenges by providing software solutions that drive safer, more sustainable, and resilient operations. Its tools support end-to-end optimization across the plant lifecycle, from design to production, enabling faster, more adaptable processes in response to market shifts. With AVEVA's focus on engineering efficiency and budget control, chemical businesses can streamline workflows and reduce costs. The platform also offers secure data sharing and real-time insights, enhancing reliable operations and enabling sustainable growth towards net-zero goals and a circular economy.

5- Metal, Mining, and Minerals

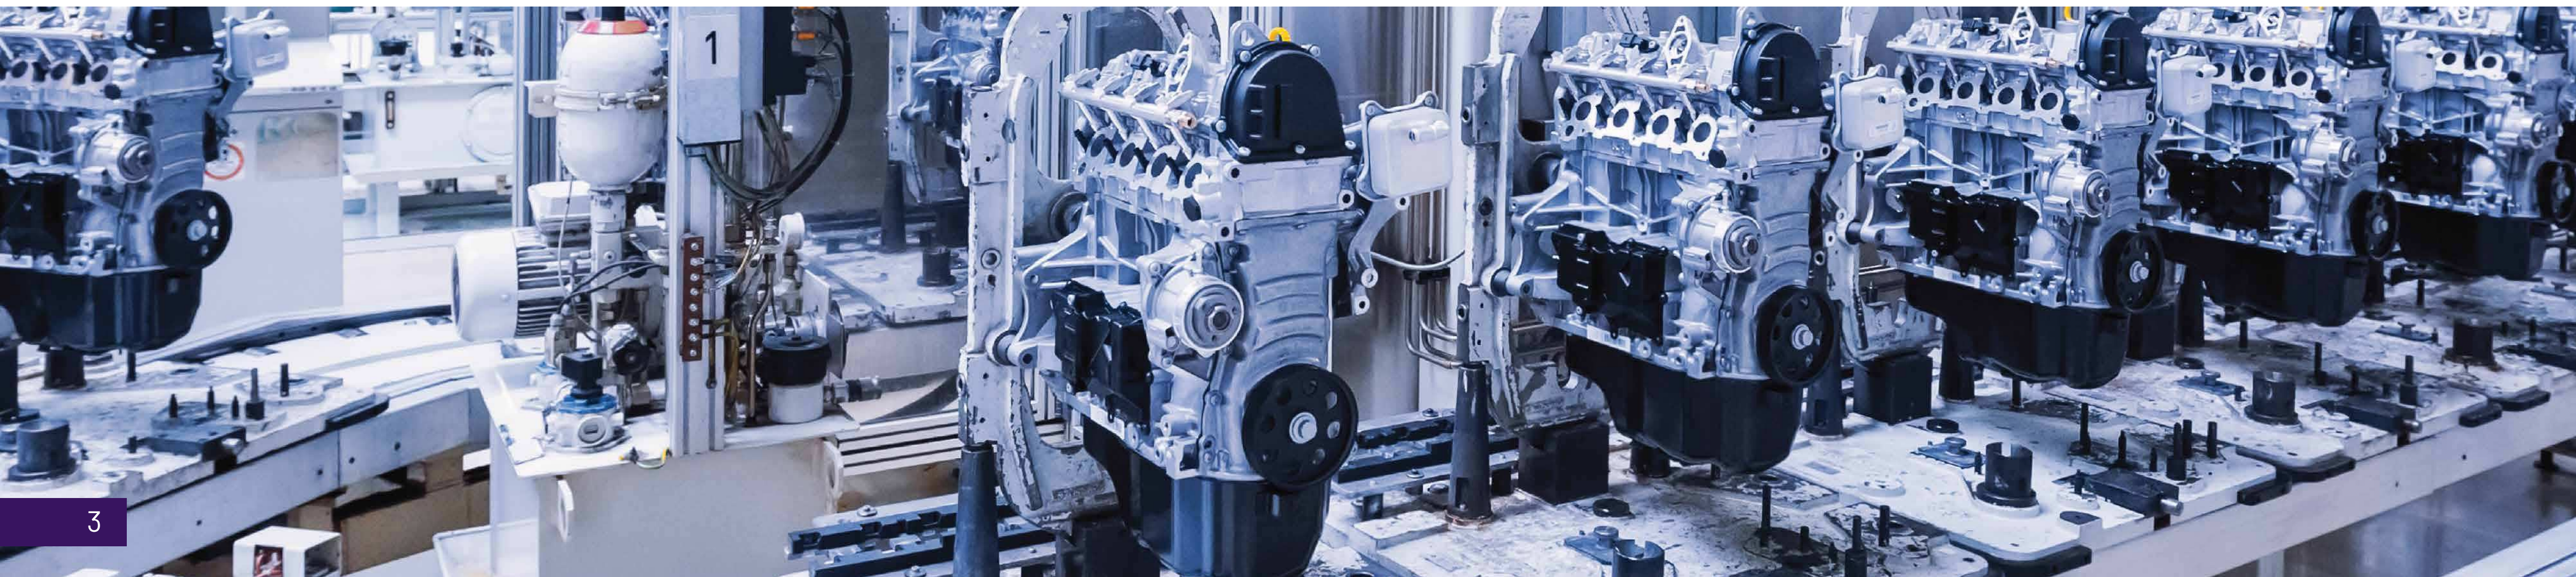

AVEVA empowers the Metal, Mining and Minerals industry by seamlessly connecting people, data, technology, and processes—AVEVA™ enables strategic transformation across the entire value chain. The solutions help companies reduce their carbon footprint, improve visibility and transparency, and minimize waste through efficient engineering cycles. With a focus on shortening engineering cycles, AVEVA ensures faster project execution and improved budget management. The software also empowers the workforce by enhancing collaboration, improving skills through experiential learning, and attracting new talent. By implementing predictive maintenance strategies and optimizing planning, AVEVA solutions help ensure asset reliability and operational efficiency, driving productivity and supporting compliance with ESG targets.

6- Manufacturing

AVEVA™ provides innovative software solutions that enhance agility and resilience in the manufacturing industry. By leveraging digital twins, artificial intelligence, and autonomous operations, AVEVA™ helps manufacturers unlock new sources of business value. The solutions minimize value leaks in production processes, driving down costs while maximizing eco-efficiency to meet net-zero targets and sustainability goals. AVEVA's software also ensures quality assurance and product transparency, enabling manufacturers to respond quickly to changing market conditions with real-time visibility into operations. This empowers the workforce to innovate and improve resilience.

7- Transportation

AVEVA solutions monitor more than 150,000 mobile assets in the transportation industry. By monitoring a vast number of mobile assets, AVEVA™ facilitates digital transformation through the creation of digital twins and the integration of operational data sources. This approach supports sustainability and decarbonization efforts, enabling organizations to improve visibility and decision-making throughout their supply chains. AVEVA's solutions enhance operational efficiency by allowing quick assessments of asset performance, helping businesses reduce cycle times and improve incident response. AVEVA empowers the transportation industry to meet the increasing demands for reliability and innovation while fostering a more sustainable future.

8- Engineering, Procurement, and Construction

AVEVA™ offers robust software solutions designed for the Engineering, Procurement, and Construction (EPC) industry, focusing on enhancing the design, construction, and delivery of capital projects. With advanced tools for process modeling and simulation, AVEVA™ accelerates project execution, allowing for quicker evaluations of design alternatives and smoother transitions from initial design to detailed engineering. By adhering to best practices in project management, AVEVA™ helps EPC firms optimize performance, reduce material waste, and achieve sustainability objectives.

9- Oil, Gas, and Energy

Digital transformation is critical in the oil and gas industry to enhance profitability, safety, and sustainability. By implementing AVEVA's advanced solutions companies in the evolving energy landscape enable intelligent operations that reduce carbon intensity, improve energy efficiency, and ensure compliance with regulations. AVEVA™ solutions have enhanced the capabilities of the Oil, Gas, and Energy sectors throughout the value chain from upstream resource management to downstream refining.

SOLUTIONS PROVIDED

With a strong emphasis on optimizing value, efficiency, and sustainability, AVEVA™ helps industry leaders navigate the complexities of modern industrial environments.

1- AVEVA Operations Control

AVEVA Operations Control provides comprehensive tools to monitor, control, and optimize day-to-day operations. This module offers a unified view of various available processes, allowing teams to collaborate in real-time, manage assets efficiently, and ensure operational consistency. By connecting the workforce with actionable insights, it improves decision-making, reduces downtime, and enhances overall operational agility. This solution module is ideal for businesses in industries, where process visibility and efficiency are key.

2. AVEVA Production Optimization

AVEVA Production Optimization enables businesses to maximize efficiency across their production lines by leveraging data-driven insights to fine-tune processes and workflows. This module helps to minimize waste, optimize resource usage, and increase throughput, leading to cost savings and sustainable operations. In fast-paced industries, where efficiency and productivity are crucial, this solution ensures that operations run smoothly, from raw material handling to finished product delivery.

3. AVEVA Visualization

AVEVA Visualization brings complex data to life through intuitive, user-friendly dashboards and visual interfaces. It provides teams with clear, actionable insights into key performance indicators (KPIs) and operational data, facilitating better decision-making at all levels. Whether it's monitoring production in real-time or tracking sustainability metrics, AVEVA Visualization helps businesses stay aligned with their goals and respond quickly to changing market demands.

4. AVEVA Engineering

AVEVA Engineering supports seamless collaboration across engineering teams, offering advanced tools for design, simulation, and project management. It streamlines the entire engineering lifecycle, from concept to execution, ensuring projects are delivered on time and within budget. This module helps businesses manage complexity, reduce risks, and improve agility.

5. AVEVA Operations Data Management

AVEVA Operations Data Management enables businesses to collect, organize, and analyze large volumes of operational data. This solution ensures that data from multiple systems is transformed into actionable insights, empowering teams to drive continuous improvement. By centralizing data management, businesses can enhance transparency, compliance, and performance across their entire value chain, creating a foundation for long-term success.

6. AVEVA Flex Subscription Offerings

AVEVA Flex Subscription is a flexible, scalable subscription model that allows businesses to access AVEVA's comprehensive suite of software solutions tailored to their needs. This offering provides cost predictability and flexibility, enabling businesses to adapt to changing operational demands without the need for large upfront investments. It supports ongoing innovation by allowing businesses to scale up or down as needed, ensuring they stay competitive and agile.

PARTNERING WITH AVEVA SELECT SAUDI ARABIA

More Than Just Access to the Largest Industrial Software Portfolio

At AVEVA Select Saudi Arabia (ASS), we don't just provide access to the largest industrial software portfolio as an AVEVA distributor—we deliver much more. Our partnership offers a complete, value-added ecosystem that goes beyond software, ensuring that your business thrives in a constantly evolving industrial landscape.

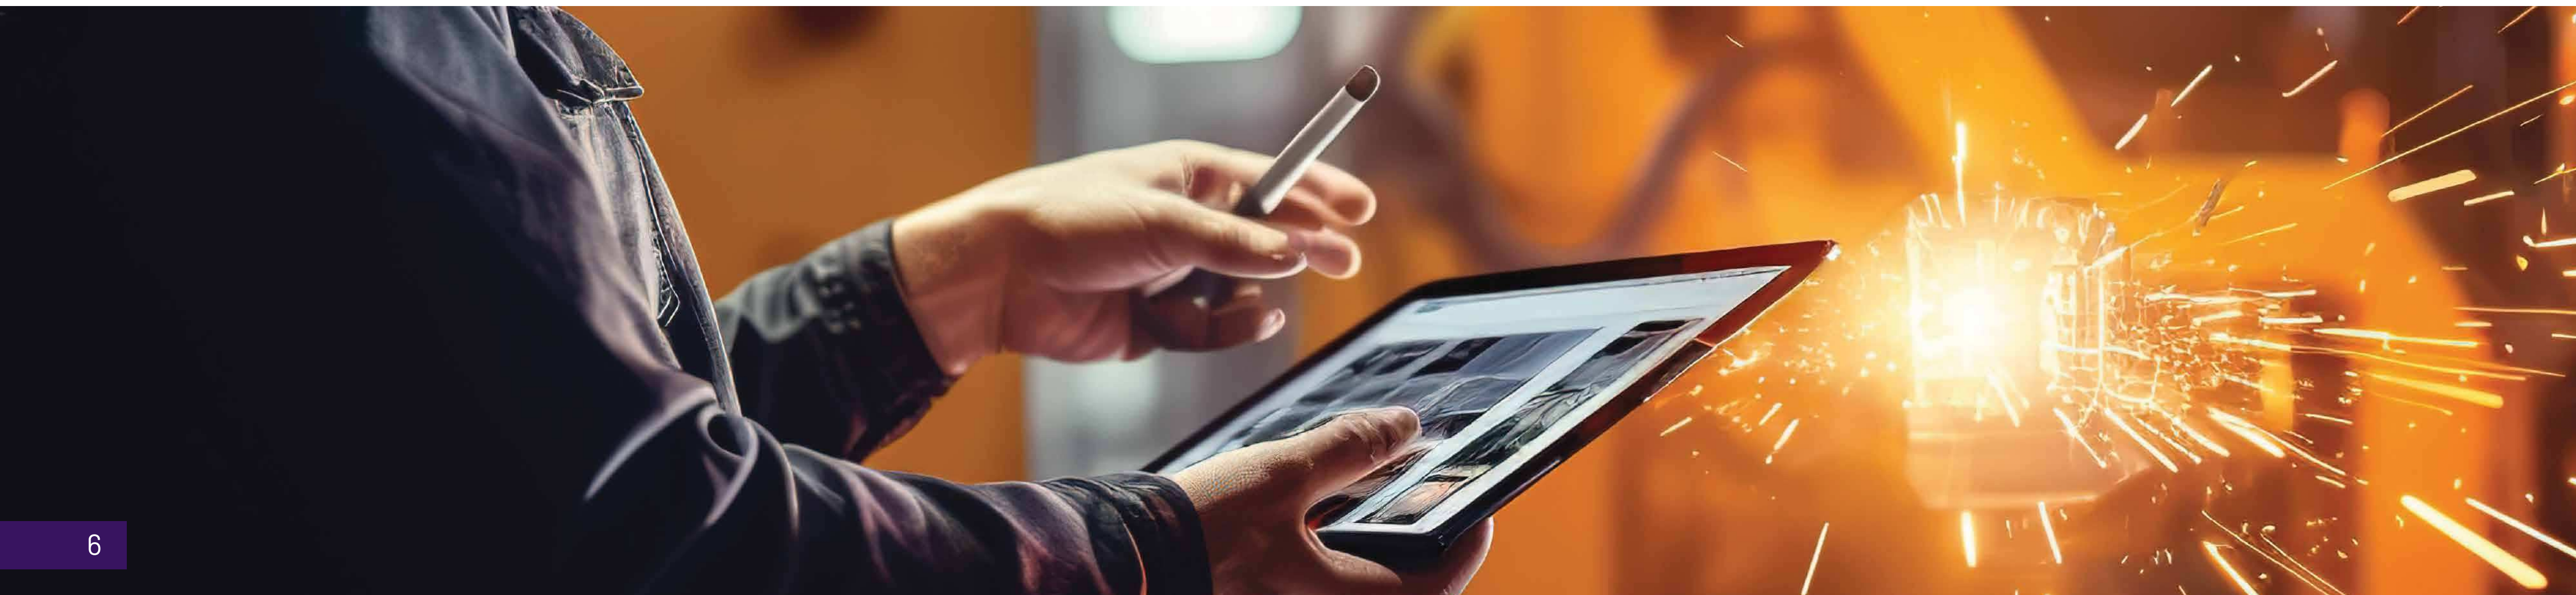

Our approach is built on a culture of continuous improvement and an innovation mindset, empowering your business to stay ahead of the curve.

Here's what we offer:

Deep Industry and Market Expertise: With decades of experience across various sectors, we bring unparalleled knowledge of industry trends, market demands, and operational challenges. Our expertise allows us to provide insights tailored to your specific industry, ensuring that AVEVA's solutions are fully aligned with your business goals. We help you stay competitive, agile, and prepared for future market shifts.

Tailored Customer Experience: We believe in delivering a tailored approach that meets your unique needs. From the first point of contact, we are committed to understanding your challenges and objectives, ensuring that every solution we offer drives tangible results. Our customer-centric approach guarantees a seamless experience, from consultation to execution and beyond, with ongoing support to maximize your success.

Expert Guidance for Digital Transformation: Navigating the complexities of digital transformation can be challenging, but we are here to guide you. Our team of experts supports you through implementation, optimization, and ongoing improvement, ensuring that you realize the full value of AVEVA's software and stay competitive in your industry.

Connect with us for information about our products, solutions, services, technical support, and training.

Our Offices:
Office no. 214, Sulimaniya Office Building, 3135 Prince sultan Bin AbdulAziz Road
As Sulimaniyah Riyadh,
Kingdom of Saudi Arabia
