Company's Overview

Jai Bharat Group is among India's oldest and largest manufacturers of Guar Gum products, with our Guar splits and derivatives recognized in major international markets. Customers trust our brand, making us a preferred global supplier.

We operate two manufacturing facilities in Siwani, District Bhiwani (Haryana), about 100 miles from New Delhi and close to Rajasthan's prime crop regions. To strengthen client connections, we established our Marketing Office at IREO Grand View Tower, Gurgaon.

Our success and visibility led us to diversify into Indian spices and food ingredients, further expanding our reach.

The company has the distinction of being the regular recipient of APEDA Award and Haryana State Govt Export Award for **continuous 17 years**.

Group's Core Values

Message from the Managing Director

Since our inception in 1981 with the establishment of Jai Bharat Gum & Chemicals Ltd, our journey has been defined by **integrity, consistency, and an unwavering commitment to quality**. From humble beginnings, we have grown into a recognised name in the guar gum industry, always striving to deliver value that extends beyond products. In 1997, our excellence in exports was honoured with the prestigious **National Award for Export Excellence, presented by the then Hon'ble Prime Minister of India** — a testament to our dedication to quality and customer satisfaction. Over the years, strengthened by long-term relationships across the globe, we have evolved into a diversified group spanning chemicals, polymers, and most recently, Indian spices and food ingredients under our brand “**HPK,**” proudly named in honour of our visionary founder, Mr. Hanuman Prasad Kedia.

Mission Statement

To deliver world-class guar-based products, polymers, and food solutions that empower industries worldwide, while nurturing long-term, satisfactory relationships with customers. Our mission is to **combine innovation, sustainability, and integrity to meet diverse industry needs** — from guar splits and gum powders to Indian spices and food ingredients.

Vision for the Future

To be a global leader in guar-based products, polymer solutions, and diversified food offerings. While continuing to set benchmarks in guar gum and polymer exports, **we envision expanding the HPK Food Division into Indian spices, lentils, and raw foods**, with future growth into precooked foods to cater to evolving consumer needs and proudly representing India's excellence on the world stage.

Group's Philosophy

- Quality is non-negotiable in everything we deliver.
- Relationships matter more than transactions.
- Responsible growth with respect for people and the environment.
- Continuous improvement through learning and innovation.

Cardamom

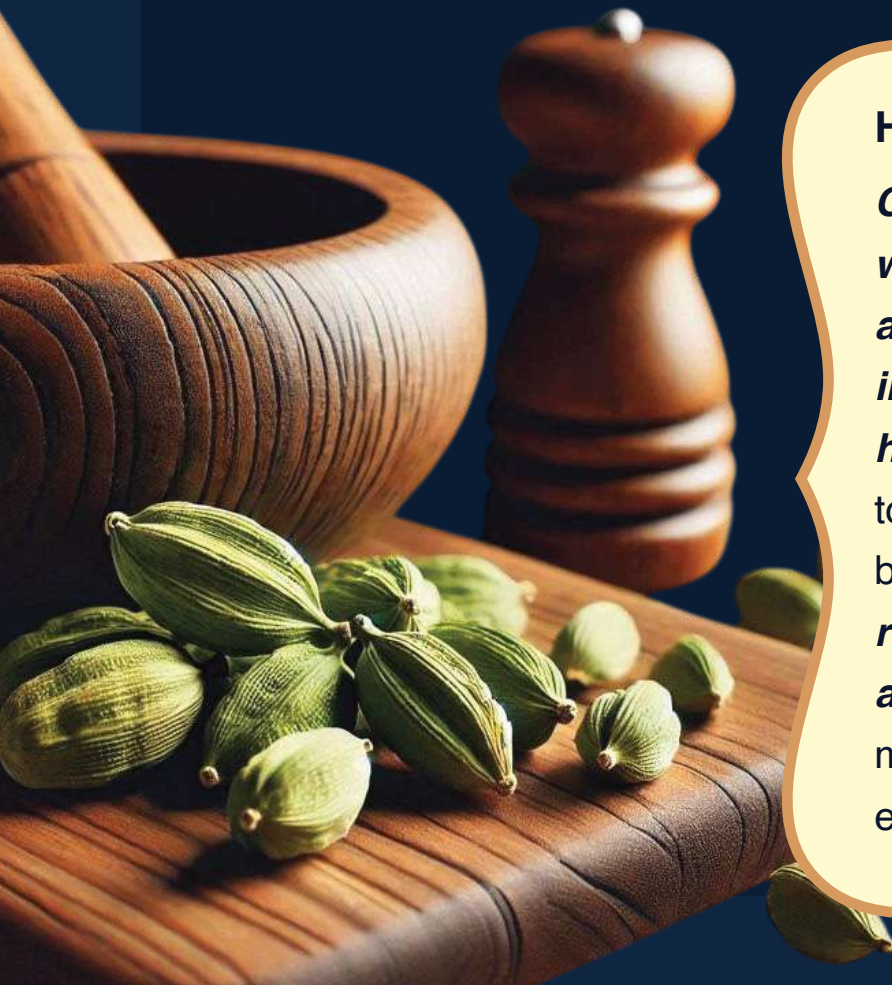

Long ago, deep in the emerald forests of India, a tiny green pod whispered to the wind: ***“I may be small, but I carry worlds within me.”*** Cardamom has roots stretching back over **4,000 years**. Native to the Western Ghats of southern India, ***it was first cultivated in the dense forests of Kerala.*** Since ancient times, cardamom has been a **prized ingredient** in **Ayurvedic medicine**, valued for its ability to **ease digestion and freshen breath.**

6mm, 7mm, 8mm bold

During the medieval period, Arab traders carried cardamom across the Middle East. Cardamom, since then, has been deeply tied to Arab culture, especially through the tradition of Arabic coffee (qahwa), where every cup infused with ***cardamom tells a story of heritage, hospitality, generosity and the timeless bond between people.*** It is not just a spice; it is the aroma of Arab identity, cherished for centuries and still celebrated in every gathering.

Health Benefits :

Cardamom is nature’s wellness pod—rich in antioxidants that fight inflammation and support heart health. Traditionally used to ease digestion and freshen breath, it also shows promise in ***regulating blood sugar and aiding weight management,*** making it a powerful ally for everyday vitality.

Bajra (Green millet)

Origin & Heritage

- Pearl Millet (Baira) — Originated in Africa, thriving in India for centuries
- India is the largest producer, ensuring quality availability.

Key Growing Regions: Rajasthan, Haryana, Gujarat, Uttar Pradesh, Maharashtra.

(Kharif season: June — Sept.)

From Soil to Soul

Quality & Color

Human Consumption:

Light – colored grains preferred for soft texture & great taste.

Animal Feed:

Darker Grains used for High energy & cost Effectiveness.

Gujarat human consumption

Gujarat animal feed

Rajasthan human consumption

Rajasthan animal feed

Advantages:

- Drought—resistant Crop, reliable in arid regions
- Supports food Security
- Excellent Livestock Feed for better milk yield & animal health.

Jawar

Origin: Jawar (Sorghum) is one of the *world's oldest grains*, originating in *Africa* and *well-suited to India's dry*

India's Position: *India is a leading global producer of Jawar*, supplying quality grain to domestic and international markets.

Growing Regions: Maharashtra • Karnataka • Rajasthan • Madhya Pradesh • Telangana

HPK Quality: HPK Jawar is *carefully sourced* to meet global quality standards for food and health markets.

Jai Bharat Gum & Chemicals Ltd (HPK Food Division)

Health Benefits :

- Gluten-free
- High fiber
- Rich in minerals & B-vitamins
- Supports digestion & heart health

Peanut

Origin & Legacy

- **Peanut (*Arachis hypogaea*)** began in South America but ***thrives in India's fertile soils.***
- Today, Indian peanuts are a **global commodity** powering nutrition, oil, and trade.

Key Growing Regions

- Gujarat – ~40% share, premium kernels
- Andhra Pradesh & Telangana – Bold varieties in demand
- Tamil Nadu & Karnataka – Confectionery-grade peanuts
- Rajasthan & Maharashtra – Large-scale oilseed cultivation

Quality That Sells

- High oil (40–50%)
- Rich protein (25–30%)
- Sweet flavour & uniform size
- Popular types: Bold (Virginia) & Java (Spanish)

HPK Brand Advantage | ميزة علامة HPK

- Premium Quality – Handpicked, export-ready kernels
- Food Safety – Certified to global standards
- Versatility – Ideal for snacks, oil, and confectionery

Why Choose Indian Peanuts |

Superior oil (45–55%)

- High-yielding varieties (Java and TJ)
- Disease-resistant & flavourful
- Sustainable, aflatoxin-free, meeting US/EU standards
- 100% Natural & Non-GMO
- Nutrient-rich & globally trusted

Chickpeas

HPK supplies premium Desi and Kabuli chickpeas sourced from India's top pulse-growing regions. With strong agricultural expertise and modern processing, HPK is a trusted partner for importers and food manufacturers worldwide.

Why Choose HPK Chickpeas

Reliable export-grade quality

- Consistent supply from high-yield regions
- Competitive and stable pricing
- Availability of both Desi & Kabuli varieties

Product Range

- Desi Chickpeas
- Small, dark, nutrient-dense
- Ideal for besan (gram flour) and traditional foods

Kabuli Chickpeas

- Large, cream-colored, premium appearance
- Preferred for hummus, salads, Mediterranean cuisine

Nutritional Advantages

High plant-based protein

- Rich dietary fiber
- Essential vitamins & minerals
- Ideal for health foods & vegan products

Sourcing Regions

Madhya Pradesh • Maharashtra
• Rajasthan • Karnataka • Gujarat

Your Trusted Export Partner
With a strong legacy in agri-processing, Jai Bharat Gum & Chemicals LTD (HPK Food Division) ensures dependable quality, timely shipments, and long-term partnership value.

Moong Dal

Moong Dal (*Vigna radiata*) originated in the Indian subcontinent and is one of **India's oldest pulse crops**.

India's Position

India is the world's leading producer of Moong Dal, supplying both domestic and global markets.

Growing Regions

- Madhya Pradesh • Rajasthan
- Maharashtra • Karnataka
- Andhra Pradesh

Health Benefits

- High protein • Easy to digest
- Rich in fiber & iron • Low fat
- Heart-friendly

HPK Quality

HPK Moong Dal is carefully sourced to meet international quality standards.

Sesame Seed

ORIGIN

Ancient oilseed from India & East Africa, valued for **purity and nourishment**.

INDIA'S GROWING REGIONS

Gujarat • Rajasthan • Uttar Pradesh •
Madhya Pradesh • West Bengal
• Tamil Nadu • Andhra Pradesh • Odisha
Varieties: White • Black • Brown • Mixed

GLOBAL ROLE

India is a **leading producer** & exporter of **natural and hulled sesame**.

QUALITY

- High oil content
- Rich antioxidants
- Excellent hulling
- Natural purity

HERITAGE & WELLBEING

A timeless symbol of India's culture, food, and wellness.

HEALTH BENEFITS

- Heart-friendly
- Mineral-rich
- Antioxidant-dense
- Supports digestion

Cumin (Jeera)

Origin & History : *Cumin (Cuminum cyminum)* has been cultivated for thousands of years. Native to the eastern Mediterranean and Upper Egypt, it is now ***one of the world's most important spice crops.***

Major Growing Regions in India

India's dry climate provides ideal conditions for cumin cultivation.

The key producing states are:

Rajasthan – India's largest cumin-producing region

Gujarat – Known for premium, export-quality cumin

Together, they contribute the majority of India's total cumin output.

Nutritional & Health Benefits

Cumin is valued for its culinary and medicinal properties:

High in iron, supporting energy and metabolism

Rich in antioxidants that reduce oxidative stress

Provides ***dietary fibre*** for ***better digestion***

Contains cumin aldehyde, known for its ***digestive*** and ***antimicrobial effects***

Culinary Uses-

Key ingredient in garam masala, curry powders, and taco seasoning

Essential in Indian, Middle Eastern, and Latin American dishes

Used in tempering, roasting, pickles, snacks, and beverages

Coriander

Origin & Heritage : *Coriander (Coriandrum sativum)*, popularly known as *Dhania*, is one of the world's **oldest cultivated spices**. Native to the Mediterranean and West Asian regions, coriander has been grown in India for centuries and is an essential ingredient in global cuisines.

Major Growing Regions in India

India is the **largest producer** of coriander globally, supported by diverse agro-climatic zones.

Rajasthan – Largest producer, bold seeds, strong aroma

Madhya Pradesh – High oil content, uniform quality

Gujarat – Export-grade coriander seeds

Uttar Pradesh & Andhra Pradesh – Consistent commercial cultivation

Quality Characteristics

Strong aroma & rich flavour

High essential oil content (0.3–1.0%)

Uniform seed size & bright natural colour

Low moisture, export-ready cleaning standards

Indian Coriander: Quality & Characteristics - Indian coriander is known worldwide for:

- **High essential oil content**, especially linalool, which gives its signature aroma
- **Uniform seed size** and golden-yellow colour
- **Strong flavour** profile suitable for culinary and industrial use
- **Purity and low moisture**, especially from Rajasthan's dry climate
- Availability in both whole seed and powdered forms

Varieties like RCr-41, RCr-436, Sadhana, and Swati are particularly popular for their yield and quality.

HPK Brand Advantage

Premium Selection – Carefully sourced from trusted farms
Food Safety – Processed under strict quality & hygiene controls
Export Ready – Meets international standards (ASTA / EU norms)
Versatile Use – Whole seeds, powder, seasoning & spice blends

Turmeric Powder

Origin & Availability : *Turmeric (Curcuma longa)*, known as **Haldi in India**, is a staple spice grown across Andhra Pradesh, Tamil Nadu, Maharashtra, Odisha, and West Bengal. India is the **largest global producer** and **exporter of turmeric**, supplying both culinary and medicinal markets.

Key Features of Normal Turmeric

Widely available across India

Curcumin content: 2–4%

Bright yellow color and mild aroma

Used in cooking, cosmetics, and Ayurveda

Affordable and versatile

Why Choose HPK Turmeric Powder

Sourced from trusted Indian farms

Hygienically processed and finely ground

Ideal for daily cooking, herbal blends, and nutraceuticals

Health Benefits

Natural anti-inflammatory and antioxidant properties

Supports digestion and liver health

Promotes skin clarity and healing

Helps regulate blood sugar and cholesterol

Red Chilli Whole

Origin & Cultivation

Red chilli, introduced to India in the 16th century, is now deeply woven into our food culture. **India leads the world in chilli production**, with major growing regions in Andhra Pradesh, Telangana, Karnataka, Maharashtra, and Madhya Pradesh.

India's Global Position

Largest producer & exporter of red chilli.

Supplies nearly half of the world's chilli exports.

Renowned for vibrant colour and varied pungency.

Why HPK Red Chilli?

Sourced from India's finest chilli belts.

Superior colour, heat, and flavour.

Rigorous quality checks for purity and consistency.

Backed by the trusted legacy of HPK Foods.

Culinary Uses

From curries, dals, pickles, and chutneys to global cuisines like Mexican salsas and Asian stir-fries, HPK Red Chilli Whole adds authentic heat and irresistible flavour.
