

Your **online streamlined solution** for managing traffic violations, municipal account payments and prepaid utilities.

What is payCity?

payCity is an easy-to-use online platform, designed to simplify your interactions with municipal services. With payCity, you can quickly view and pay traffic violations, pay municipal accounts and buy prepaid utilities, all in one secure online platform.

This all-in-one solution is built for individuals, businesses and organisations that value time and efficiency, offering services accessible anytime, anywhere. Whether it's avoiding additional traffic violation penalties, paying municipal bills or topping up essential prepaid utilities, payCity makes it simple, secure and reliable.

Key Features and Benefits

- ✓ **Mobile-Friendly Platform:** Accessible on any device, payCity is optimised for mobile use, making it easy to manage payments anytime, anywhere from your smartphone.
- ✓ **Alerts and Reminders:** Automatically receive notifications for existing and new traffic violations. Avoid roadblock inconvenience and vehicle / driver's license renewal blocks.
- ✓ **Secure Transactions:** Powered by Syntell, a leader in municipal revenue systems, payCity employs advanced encryption and rigorous security protocols to protect your data and ensure each transaction is safe.
- ✓ **Real-Time Updates:** Payments are confirmed instantly and balances update in real-time, so you always have accurate account information at your fingertips.

Services Offered

Traffic Fines: payCity enables users to view and pay for outstanding traffic fines issued by participating municipalities, provinces and national traffic departments. payCity's traffic violation notifications and easy payment options allow you to stay on top of traffic violations, avoid late penalties and avoid roadside inconvenience and delays at roadblocks due to unpaid traffic violations, summonses to appear in court or warrants of arrest.

Municipal Accounts: Access and pay municipal bills from water and electricity to property taxes, all through one platform. This service eliminates the hassle of in-person visits, providing a fast and flexible way to manage payments.

Prepaid Utilities: For users of prepaid utility services, payCity makes recharging accounts easy. Purchase electricity and water credits through the platform, with instant confirmation and seamless integration into municipal systems, ensuring uninterrupted access to essential services.

Why Choose payCity?

Convenience and Accessibility: payCity is accessible 24/7 from any device with internet access, so you can make payments on the go. No more waiting in lines or juggling multiple municipal platforms—payCity combines everything into one efficient experience.

Time and Cost Savings: By consolidating services, payCity allows you to handle all your municipal services payments in one place. This not only saves time but also helps avoid penalties associated with delayed payments or account lapses.

Real-Time Updates: With payCity, payments are confirmed instantly, and balances are updated in real time. This means you can rely on accurate information whenever you check your account.

Data Protection and Compliance: As a trusted Syntell platform, payCity follows strict compliance standards, prioritising data privacy and offering secure, reliable service.

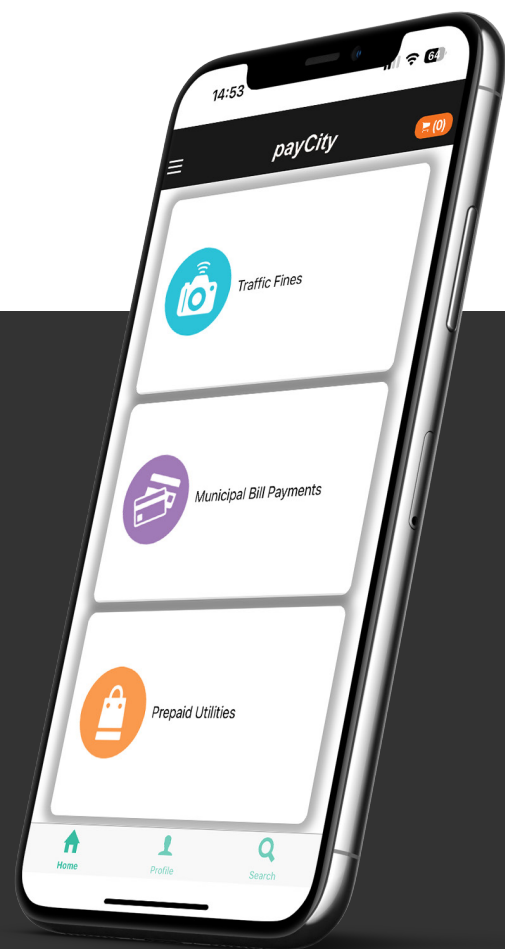

How to Get Started

Getting started with payCity is simple:

- 1 Go to www.paycity.co.za to create a free account.
- 2 Sign up by providing your basic details and verifying your account.
- 3 Connect your municipal accounts, prepaid utilities or traffic violation information to the platform.

For anyone looking to streamline their municipal payments, payCity offers a modern, reliable and secure solution.

Sign up today and experience the future of municipal payment management.
