## GENERAL HEAVY MARINE

General Heavy Marine Expands Heavy-Lift Fleet to Meet Growing Demand in Southern Africa's Ports and Energy Sector

Boksburg, South Africa – 19 March 2026

General Heavy Marine is proud to reinforce its role as a leading force in the maritime and industrial support sector, delivering world-class solutions that empower ports, logistics hubs, and heavy equipment operations to perform at their peak. Driven by a commitment to excellence, innovation, and reliability, the company offers a comprehensive range of specialized services designed to enhance productivity, reduce downtime, and optimize operational efficiency. By combining cutting-edge expertise with a hands-on, customer-centric approach, General Heavy Marine consistently exceeds expectations and delivers measurable value to its clients. With a proven track record, a highly skilled workforce, and an unwavering focus on safety and quality, the company continues to build strong, long-term partnerships while setting new benchmarks for performance and service delivery across the industry.
