

ADVANCED FIRE GLOBAL TO SHOWCASE INDUSTRY-LEADING MINING SAFETY SOLUTIONS AT WAMPEX GHANA

Advanced Fire Global (AFG), a leading African-based fire risk management and mining support company operating across more than 30 countries, is proud to announce its participation at WAMPEX Ghana this year, where the company will showcase its internationally recognized mining safety and support solutions to the West African mining sector.

With a strong footprint throughout Africa and extensive experience supporting major mining operations, Advanced Fire Global will be presenting the globally trusted ANSUL Vehicle Fire Suppression Systems, including the ANSUL LVS NF-40 solution designed specifically for heavy-duty mining equipment operating in high-risk environments.

The ANSUL LVS NF-40 system delivers rapid flame knockdown, superior cooling performance, and reliable automatic fire detection and suppression for mining fleets, helping operations reduce fire-related downtime, improve operator safety, and protect high-value assets.

ANSUL VEHICLE FIRE SUPPRESSION SYSTEMS

Advanced Fire Global is an authorized distributor of ANSUL Vehicle Fire Suppression Systems, including the LVS NF-40 solution.

These systems are designed to detect and suppress fires quickly and effectively in the most demanding conditions.

**RAPID DETECTION
& SUPPRESSION**

**OPERATOR &
ASSET PROTECTION**

**MINIMIZED DOWNTIME
MAXIMUM UPTIME**

**RELIABLE PERFORMANCE
IN HARSH ENVIRONMENTS**

IN ADDITION TO VEHICLE FIRE SUPPRESSION SYSTEMS, ADVANCED FIRE GLOBAL OFFERS A COMPREHENSIVE RANGE OF MINING SUPPORT SOLUTIONS, INCLUDING:

Fixed Fire Protection Systems

Automatic Lubrication Systems

Fast Filling Solutions

Technical Audits & Risk Assessments

Training & Aftermarket Support Services

“

WAMPEX provides an important platform for us to engage with mining companies, OEMs, and industry partners throughout West Africa. Our focus is not only on supplying world-class products, but also on delivering long-term support, technical expertise, and reliable in-country partnerships that help mining operations improve safety, reliability, and operational uptime.”

WESTLEY BARNARDT
CEO, Advanced Fire Global

”

Advanced Fire Global's support model is built around strategic distribution partnerships, regional stockholding, certified technicians, and dedicated technical support teams positioned throughout Africa to ensure rapid response and reliable service delivery.
