

IN POWER SINCE 1949

POWER AND DISTRIBUTION TRANSFORMERS
MANUFACTURED WITH HIGHEST QUALITY
STANDARDS AS PER I.S. SPECIFICATIONS

The Genesis

Way back in 1949, when the electrification in the valley was fast expanding, our Managing Director Mr. Ali Mohd. Baba recognized his future with this marvel. He started electrical trading and contracting firm namely ALI MOHD. BABA & SONS. For the quality products brought to the door step of all the customers and the prestigious projects which include construction of Electric Sub Station, Installation of DG Sets, Erection of Overhead Line, Outdoor Lighting and Internal Electrification, the name of the firms is recognized with Development of Power Sector in the J&K.

Company

In 1997, the organization recognized the need for manufacturing of Distribution and Power Transformers in the valley and came up with its new venture ALBA POWER PVT. LTD. to manufacture Power and Distribution Transformers.

The Backup

The company is backed by its workforce, which include Technicians, Supervisors and Engineers etc. All having vast experience in the Industry with a commitment of quality oriented work.

Quality Assurance

Stringent quality standards are meticulously adhered to at every stage of manufacturing process. The quality plan covers the entire gamut of activities right from selection of vendors, through production process to the delivery of the goods.

Routine Test

The factory is equipped with State of Art Testing Equipment and every component and finished products is tested for its performance at every stage of manufacturing as IS standards.

Type Test

Our transformer have been Type Tested for Short Circuit and Impulse Test at Electrical Research and Development Association (ERDA), and Central Power Research Institute (CPRI) at their testing laboratories at Bhopal and Vadodra, National test house, Chazababad

Product Range

ALBA POWER has capacity ranging from Distribution Transformer of 1kVA up to Power Transformers of 10,000 kVA and Instrument Transformer from 11 kV to 33kV grade.

Awards

The quality work of the company stands recognized by the Govt. of India and Union corporate sector. We have been conferred with National Awards & India SME Awards and Coscid Award.

Approval

Our Alba brand is approved in prestigious organization of India i.e. PGCIL, NTPC, RECPDCL, NHPC and various Discoms.

Commitment

We are committed to improve, upgrade technology & human resources, shall aim for perfection & increase efficiency in all spheres of manufacturing activity. We are sure though this, we would be able to respond well to growing demands of our customers.

PRODUCT RANGE

- Power Transformers (As per IS 2026)
1600 to 10000 kVA (33kV / 11kV)
- Distribution Transformers (As per IS 1180)
16 to 2500 kVA (11kV / 0.433kV)
16 to 2500 kVA (33kV / 0.433kV)
- HT Automatic Voltage Regulator (As per IS 2026)
16 to 10000 kVA (11kV / 0.433kV)
16 to 10000 kVA (33kV / 0.433kV)
1000 to 10000 kVA (33kV / 11kV)
- HT OFWF Transformer (As per IS 2026)
1000 to 10000 kVA (33kV & 11kV)
- Dry Type Transformer (As per IS 2026)
16 to 10000 kVA (33kV & 11kV)
- Current Transformers (As per IS 2705) 33 & 11 kV
- Potential Transformers (As per IS 3156) 33 & 11 kV
- HT Metering Unit 33 & 11 kV
- Servo Stabilizer (Linear) (As per IS 9815)
10 kVA to 5000 kVA
