

# Raffia Bags with Valve

These bags are made from high-quality polypropylene (raffia) fabric, designed for fast automatic filling of fine materials such as flour, starch, fertilizers, cement, and more. They are equipped with a valve that self-seals immediately after filling.

## Specifications:

- Manufactured with a width ranging from **35** to **62** cm, and a length from **46** to **120** cm.
- Available in various capacities as per customer request (**10, 15, 20, 25, 50** kg).
- Bags are equipped with a self-sealing valve which close automatically upon completion of filling.
- Box-shaped for uniformity.
- Coated to be moisture-resistant.

## Features:

- Perforated with nano technology to prevent bag explosion during fast automatic filling.
- Durability combined with strength to ensure product quality during transportation and storage.
- Adjustable valve depth.
