ABOUT US

As-Salam for Petroleum Services, Established in 1985, as a prominent player in the Egyptian market for blasting operations and civil explosives. With almost 40 years of experience, the company has supplied explosives that are highly efficient and safe to a range of different business sectors in the region.

2010 was the expansion of our business into Kuwait, Iraq, and other countries. As a premier organization, we have managed all areas pertaining to civil explosives and blasting operations using our expertise, experience, and staff of highly skilled professionals. We are currently raising the standard by providing a variety of cutting-edge services to numerous regions in the Middle East.

OUR VISION

At As-Salam Company, we take pride in our distinction as a trusted organization in the field of civil explosives as a supplier and service provider.

As we fulfill our vision, As-Salam for Petroleum Services enhanced extensive expertise that spans various areas, from providing economic and innovative civil explosive products to supply highly skilled staff for safe and effective civil blasting operations.

OUR MISSION

We are committed to deliver our services that exceed our customer expectations and constantly enhance our performance. We focus on providing high-quality civil explosives and delivering cost-efficient solutions for drilling and blasting operations.

MANUFACTURING

1

CONSULTANCY, TRAINING PERMITS & APPROVALS

Managing all custom clearance procedures and security approvals, required for importing, transporting, and storing civil explosives.

Providing technical consultations for projects and sites preparations & training courses.

Providing training programs for clients' crews on how to use, handle and store any kind of explosives.

2

LOGISTICS, SHIPPING & STORAGE

Importing civil explosives and chemicals from reputable manufacturers to meet mining, petroleum, and construction needs.

Transporting hazardous materials and cargo to all governorates using secure trucks and well-trained staff adhering to high safety standards.

We own multiple storage facilities that strategically cover the Egyptian market and comply with the highest safety regulations. They are licensed by the Ministry of Interior (MOI).

3

SUPPLY OF CIVIL EXPLOSIVES

We offer a diverse range of civil explosives to fulfill customer needs.

Ensure timely and reliable delivery of civil explosives while following safety requirements and industry standards.

keeping up with the changing in industry requirements, we constantly evaluate and improve our product offerings & related services.

4

DRILLING SERVICES

Offering a wide range of drilling solutions based on required drilling parameters and rock formation to ensure the blasting process is successful.

Providing a suitable type of drilling that meets each customer's requirements.

5

BLASTING SOLUTIONS

Our certified, competent, and well-trained team conducts civil blasting operations in various sectors.

Offering a diverse selection of explosives for blasting purposes.

Provide solutions for projects in various environments and conditions.

6

ON-SITE BULK EXPLOSIVES MANUFACTURING

The company operates a specialized plant that produces non-explosive raw materials, which are then pumped into a truck.

The truck, or Mobile Emulsion Manufacturing Unit (MEMU) pumps these raw materials, still non-explosives, into each borehole.

Inside the borehole, a chemical gassing reaction occurs, transforming the mixture of raw materials into explosives.

All the logistics, storage, and handling procedures are done with non-explosive products.

ADVANTAGES OF BULK EXPLOSIVES

Enhanced safety and security

Operators handle chemical raw materials, that are non-explosive.

Non-explosive chemicals are stored in the warehouse.

Transportation process involves non-explosive chemicals.

All operations take place within the mining site.

Guarantee of supply

Ensuring a consistent supply of explosives and reducing the risks associated with transportation, such as sandstorms, road conditions, and political factors such as piracy, border restrictions, and currency fluctuations.

Reducing operating costs

Does not require big magazines, only storage for raw materials.

Allows optimization of the total cost of production.

WHY ARE WE DIFFERENT

OBTAINING SECURITY APPROVALS AND PERMITS

Thanks to our extensive experience and well-established network, AsSalam excels in obtaining all required security approvals and permits at every stage of the project from transportation to usage and storage, ensuring maximum efficiency in providing each service.

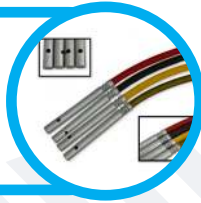

GUARANTEE OF END-TO-END SAFETY

Safety is at the core in all aspects of our operations. As-Salam strictly adheres to the highest safety standards and regulations in the industry to ensure the safety and well-being of our employees, customers, and all other parties involved.
