OUR SERVICES

INTEGRATED SOLUTIONS
FOR A SUSTAINABLE FUTURE

EXPLORATION SERVICES

We specialize in managing both greenfield and brownfield exploration projects across Egypt and the wider MENA region

GIS & REMOTE SENSING

We deliver a wide range of GIS and remote sensing services tailored to every stage of the mining industry.

MINING GEOLOGY

We provide comprehensive geological consulting across all stages of mining. Our expertise includes managing grade-control programs, conducting surveying.

SURVEY

topographical and mine surveying services for a diverse range of clients, utilizing the most advanced and accurate surveying equipment.

SUPPLYING

Arab Nubia is committed to delivering on schedule while maintaining the highest standards of quality in materials supply

DRILLING

Exploratory drilling is a subsurface excavation process aimed at evaluating geological layers and discovering mineral resource deposits
