The liability of the forwarding agent ends upon unloading of goods at the exhibitor's stand. After the show, liability resumes only with the pickup of the packed goods from the booth, even if the exhibitor or their representative is not present. Deliveries are made from the first assembly day directly to the designated exhibition stands.

For return transportation, the forwarding agent's liability does not commence until collection from the stand, even if transport documents have already been deposited at the office of the fair and exhibition agent.

The forwarding agent's liability therefore ends with delivery of the goods at the booth and begins again only with the pickup of the packed goods from the booth.

Unless all conditions outlined in these instructions are strictly observed, we cannot accept responsibility for late or non-delivery of cargo to the exhibition. All services are provided under limited liability in accordance with Rhenus Logistics General Trading conditions.
